Smaller Breeders Encouraged

The small breeder with limited capital, who has pure bred stock, is at a decided disadvantage when he comes to place a small advertisement offering his stock for sale. The disadvantage comes in this way. Large advertisements are more profitable to handle since smaller advertisements cost more proportionately to set and keep records of. For this reason on live stock advertisers are often charged three times the rate for small advertisements inserted only a few times that they would be charged did they take big contract space. Farm and Dairy has always recognized this ruling, which is practised so commonly, to be unjust and most discouraging to smaller breeders and advertisers. That is why we offer a small advertiser the advantage of our low flat rate of 7 cents per line, again measure.

Your advertisements, even though you have inserted only once or twice in Farm and Dairy, will cost you only 98 cents per inch. Try an advertisement in Farm and Dairy to sell your surplus live stock, get grain, or anything you have for sale. Write us to-day about the matter, and be convinced that it will pay you to advertise.

held at Nasmith's parlors, 150 Bay St., Toronto, on Feb. 8th at 5:30 p.m. Address will be delivered by C. W. Wood, President of the Holstein-Friesian Association of America and Prof. H. H. Dean.

Dr. Bell's Veterinary Medical Vaguer cured inflammation of lungs, kidneys and bladder. The sixth wonder. Agents wanted in every county. Write for a free trial bottle. This offer only good for 60 days. Limited to five bottles.
