

The Cheese Market.

London, Aug. 31.—The cheese market was well attended, though the offerings on the board were only 978 boxes. Liverpool market was still at 56s, a figure which would allow buyers to pay about 10c. here for good cheese. Several factories had been bought at higher figures, as previously reported, in anticipation of a steady advance in the market, and present holders did not feel disposed to accept less, so no sales were effected.

Ingersoll, Aug. 31.—It is about time that factorymen learned that it would be to their profit to do business at the market on market days. Several factories, we learn, have sold at 10c. the past few days, whereas if they had waited till to-day would have realized 11c. to 11½c. for their goods. For the corresponding week last year 5,770 boxes were sold at from 7½c. to 10c., July, August, September and October make. The cable was 46s.

Norwich, Ont., Aug. 31.—The cheese market to-day was fairly represented by manufacturers, but buyers were scarce; 2,180 boxes were offered—100 of July make and the balance of August. No sales reported.

Little Falls, Sept. 3.—Nearly 100 factories represented at the Little Falls cheese market to-day, and over 9,000 boxes offered. The advance in rates last Monday was the cause of the large offering to-day. Sales at 11½c. to 12c., the average being 11½c. Farm dairy cheese brought 10c. to 11c.

Utica, N. Y., Sept. 3.—Of the 3,000 boxes of cheese offered, 1,000 went on commission, and 6,500 sold at 9c. to 12½c.; extremes, 12c. to 12½c.; leading factories, 11½c. average.
