

MAKES MEN SOUND AND STRONG

Detroit Specialist Making Men's Diseases a Specialty for Years, Will Accept Your Case, Giving It Individual Treatment. You may Use It in the Privacy of Your Own Home.

You May Pay When You are Cured.

A Detroit Specialist who has 14 diplomas and certificates from medical colleges and state boards of medical examiners, and who has a vast experience in doctoring diseases of men, is positive he can cure a great many so called incurable cases;

DR. S. GOLDBERG.

The possessor of 14 diplomas and certificates, who wants no money that he does not earn.

In order to convince patients that he has the ability to do as he says, Dr. Goldberg will accept your case for treatment, and you need not pay one penny until a complete cure has been made; he wants to hear from patients who have been unable to get cured, as he guarantees a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney troubles, blood poison, physical and nervous debility, lack of vitality, stomach trouble, etc.

The doctor realizes that it is one thing to make claims and another thing to back them up; so he has made it a rule not to ask for money unless he cures you, and when you are cured, he feels sure that you will willingly pay him a small fee. It seems, therefore, that it is to the best interests of everyone who suffers to write the doctor confidentially and lay your case before him, which will receive careful attention, and a correct diagnosis of your case will be made free of charge; if you have lost faith write him, as you have everything to gain and nothing to lose; you must remember not one penny need be paid until you are cured. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. Address him simply Dr. S. Goldberg, 208 Woodward Ave., Room 135 Detroit, Michigan. Medicines for Canadian patients sent from Windsor, Ont., consequently there is no duty to be paid.

CIDER MAKING

Can be made profitable if the right kind of machinery is used. WE MAKE THE RIGHT KIND.

Send for catalogue.

Bunga Vista Farm. o Woodville, Ont.

We are Importing Shropshires

If you want any sheep bred to suit you, write to
LLOYD-JONES BROS., Barrow, Ont.

QUESTIONS AND ANSWERS. Miscellaneous.

TO RELIEVE RINGBONE.

Can you give a remedy which will cure or relieve ringbone? Horse has shown lameness for over a year, but bone has only appeared recently. **F. G. S.**

Ans.—Would advise you to try Fleming's Spavin and Ringbone Paste, or Stevens' Ointment, both of which are advertised in our columns. Failing a cure, the only recourse is to have a competent veterinarian fire and blister.

LEAKY TEATS.

Will you or some of your readers give me some advice concerning the following trouble: I have a young heifer, with first calf, and two teats each have a hole in the side, in addition to the regular channel. Is there any remedy for this? **J. F. B.**

Ans.—We are not aware of an effective remedy for this trouble, but perhaps some of our readers are. If so, write us at once.

RAPE FOR SILAGE.

Having had good success raising hogs on rape pasture with a small grain ration, would it be advisable to cut some and put into a silo for winter use (for roughage)? If so, how should it be done? How often could I cut it? How much could I get from an acre of good land. When should it be cut? Should it be allowed to wilt before putting into silo? **E. H.**

Ans.—We have never known or read of the experiment being tried, and we should not expect it to prove a success. The bulk one could secure from a given area would not be sufficient to make much show in a silo, and the plants are so full of moisture we should fear the mass would simply rot. The best use to be made of rape is to pasture it, and there is no crop equal to corn for ensilage.

BUCKTHORN AND RUST

Several of us in this neighborhood have our grain destroyed with rust, and all in close proximity to a buckthorn hedge.

1. Does the hedge cause the rust, or does it harbor it?
2. What are the necessary steps to take to prove that the hedge is the cause, if it is such?
3. Can anything be done to prevent its (the rust) spread?
4. Who are the proper authorities to make investigation, and what expense would be incurred, and by whom?

GRENVILLE.

Ans.—1. There are three species of rust that grow on wheat, and each one has three stages: (a) Puccinia graminis is the common rust of cereals and grasses. Its "cluster-cup" stage is on barberry, although it can maintain itself independently of that shrub. This is by far the commonest kind of rust on wheat. (b) P. coronata, so called because its spores in the final or black stage bear a small crown, is often found on oats than on wheat. Its cluster-cup stage is supposed to grow on buckthorn and other species of rhamnaceae. (c) P. rubigo-vera is intermediate in abundance between the other two, but it is far less common than the first-named one.

The case against buckthorn is not completely established. If the "cluster-cup" stage is on the suspected hedge, yellow eruptive spots can easily be found on the under side of the leaves in the proper season. Mr. John Dearnness states that he has often found this stage on the young rhamnus that grows in the swamps in Western Ontario, but that he has not yet seen it on buckthorn, although he has often looked for it.

2. Find whether the rust in the black stage is the kind with crowned spores, and examine the buckthorn leaves for the presence of the cluster cups. We can tell you whether it is coronata if you send it to this office. In the red stages the different kinds of rust on wheat cannot be reliably distinguished from each other.

3. Good drainage; plenty of air among the plants; choosing varieties of seed that have admitted resisting power. When any of these rusts get well started in a neighborhood nothing can check their spread by summer spores (the red stage) during hot, moist weather.

BERKSHIRES

Imported and Canadian-bred
H. M. VANDERLIP, Cainsville
on T. H. & B. and B. & G. division of Grand Trunk. Telephone and telegraph, Cainsville, Ont.

HILLCREST HERD OF ENGLISH BERKSHIRES

Our success is attributed to: 1st.—We endeavor to live up to representations. 2nd.—Furnishing reg. pedigree and guaranteeing to replace non-breeders. 3rd.—Our herd consists of the best blood, the sires used are a superior class. The "mail order" business is a boon to breeders who do not abuse the confidence of their patrons.
JOHN LAHMER, VINE P.O.
Vine Sta., G. T. R., 100 rods from farm.

15 SHROPSHIRE

yearling rams, bred by Minton and Buttar. Four Cotswold rams, bred by Garne, have just reached home. They are a grand lot. Have a good lot of Shropshire and Cotswold rams and ewes bred here. Also a Royal first-prize Berkshire boar for sale. Prices moderate.

Robert Miller, Stouffville, Ont.
Representative in America to Alfred Mansell & Co., Shrewsbury, England.

DORSET HORN SHEEP and SCOTCH SHORTHORNS

The latter representing the Nonpareil, Miss Ramden, Missie and Gloster families exclusively, and the former comprising more Royal winners and more St. Louis prizewinners than any other flock in the world. Stock for sale always on hand.

John A. McGillivray, North Toronto, Ont.

FAIRVIEW SHROPSHIRE

Have retired from showing at fall fairs. 2 years and over show ewes ONLY now offered. For 22 years won more firsts than all competitors. At St. Louis won more than any three flocks. At last International won 9 of 14 firsts offered. Including champion ram and reserve to same. All making the greatest winnings on record. Have now the best breeding stock ever offered. Who want good ones to strengthen their flocks?

JOHN CAMPBELL,
Fairview Farm, o Woodville, Ontario
