

NEW LIFE AND ENERGY

MEN, LOOK HERE!

Even Until Old Age You May Feel the Vigor of Youth, with its Light Heart, Elastic Step, Courage and Tireless Energy, You May Be Free from Pains and Defy Your Years.

Varicocele, Spermatorrhœa, Losses and Drains, and All Ailments Which Destroy Manhood's Vigor, are Cured by Dr. McLaughlin's Electric Belt.

Free With Electric Suspensory for Weak Men.

Sends the current to the prostate gland, the seat of all weakness. It develops and expands weak organs and checks losses. No case of weakness can resist it. **FREE WITH BELTS FOR WEAK MEN.**

Let any man who is weak, broken down, old and decrepit in physical weakness, full of pains and aches, gloomy, despondent and cheerless—any man who wants to be stronger and younger than he feels—let him come and tell me how he feels, and if I say that I can cure him he can depend upon it. This is to men who are afflicted with nervous debility, who get up tired in the morning, have Backache, Rheumatism, Stomach, Liver, Bladder and Kidney Trouble, who are constipated, or suffering from nerve or muscle weakness or some forms of Paralysis and Locomotor Ataxia. I don't want money that I don't earn. I don't need it, and am not after it. But I am after the dollars that are now going wrong in the quest of health. Look at all the poor wrecks of humanity that are spending all they earn on drugs—drugs that is paralyzing their vital organs—that have spent all they have earned for years without gaining a pound of strength for the hundreds of dollars wasted.

That is the money that I am after, because for every dollar I take I can give a thousand per cent. interest to the man who invests it. I have cured so many cases right here that I can prove my claims to you, but if that proof is not enough I'll give you the names of men right near you—where you are. Is that fair?

Most of the belts that I am selling now are to men who have been sent here by their friends whom I have cured. I think that is the best evidence that my business is a success from the standpoint of cures, as well as on the dollar side.

Just lately I have received letters of praise from these men who have used my

DR. McLAUGHLIN'S ELECTRIC BELT.

"I have not had a touch of rheumatism after one week's use of your Belt."
J. C. JAMIESON, Elmside, Que.

Dear Sir,—The trouble for which I purchased your Belt has entirely disappeared. It was only after a great deal of hesitancy and enquiry from your patients that I bought one of your Belts, and I am now glad that I did. My back is perfectly well, and I never was so strong or felt as well as I do now.
GEO. A. STARK, Owen Sound, Ont.

Dear Sir,—I write to let you know that your Belt has cured me, and I am entirely satisfied with your treatment. I then gave it to my sister to wear, and she, too, was entirely cured, after being treated by many different doctors, and also being told that she would have to go under an operation, to which she would not consent. She used your Belt and was entirely cured.
JOHN W. THIBAUT, Bruce Mines, Ont.

I don't want your money without giving you value for it. I know it will cure in any case that I undertake. If I can't cure, I'll tell you frankly. You have nothing to lose, for if you wish you can use the Belt entirely at my risk, and if it doesn't cure you it will not cost you one cent. The only condition I impose is that you give me security for the Belt while you are using it, as evidence of good faith on your part.

Give me a man (or woman, for that matter) who has been sick and suffering for years, and taken medicine until the system is all run down and debilitated, the stomach unable to digest the food, and the nerves shattered. My Electric Belt will give new life to every organ, drive out disease and restore health.

I have the grandest invention of the age for weak men; the surest and easiest cure for all nervous and chronic diseases. Its wonderful power is directed to the seat of the nervous system, through which its vitalized strength penetrates into all parts of the body, carrying new life to every function which has been weakened by excess or dissipation, restoring energy to the brain and power to the vital organs. No weak man, no delicate or sickly woman will ever regret a fair trial of my Belt.

WHY NOT MORE SHEEP?

Probably the main reason more farmers do not keep sheep is because they do not understand them. You ask them why, and one will say sheep will not pay on high-priced land; another will say cattle and hogs will make more profit; another, they require too much fencing, and still another will aver that they are too much bother. Are all these objections well grounded? Ask the man who has been raising sheep for the last five years. He will tell you that sheep will yield as good if not better profit than any other class of live stock, considering the expense one is to in getting started and for care.

Sheep bring in profits from two sources; namely, lambs and wool. Not only are they valuable in that way, but there is no other class of live stock that will return such a large amount of fertility to the soil. They have fitly been termed "the golden hoof that enriches the soil." As to the high-priced land proposition, if they did not pay it is not probable they would be kept continuously on some of the highest-priced farms in England.

While the profits from sheep-raising are not always constant, and will at times cease to be a profit, the same is true with other classes of live stock. At present the prices of sheep and lambs on our markets are not as good as they were a few months ago, but the man who is in the business to stay will undoubtedly see better conditions in the not far-distant future. High prices for feed are somewhat of a handicap to feeders

of all kinds of live stock, and this may be one of the years when the profits are not so big. But it is the man who keeps at it who makes the money.

Good management will count for as much if not more with the flock as with the herd of cattle or drove of hogs. The flocks that do not pay are the neglected ones—the ones kept by men who do not understand sheep. With the least trouble of any farm stock, the sheep with its two-fold source of income will build up the depleted farm, and make the productive one grow bigger crops.—[Drovers' Journal.

Mr. A. A. Colwill, Newcastle, Ont., breeder of Tamworth hogs and Shorthorn cattle, whose advertisement runs in "The Farmer's Advocate" writes: "The fall pigs I am offering now will be ready for the spring and summer trade.

They are a grand lot, all sired by my imported boar, Cholderton Golden Secret. He is proving himself a capital stock-getter. I have a few extra choice sows of show-ring quality bred to him that will be well worth looking after. The bulls I am offering are splendid quality, and are descendants of a choice milking strain of Shorthorns. These, also, are well worth looking after, as they will be sold reasonably. My sales have been very good during the winter. I sold three nice sows, bred to my imported boar before shipment, to North Carolina, to be fed upon peanuts by their present owner, who is starting a large herd of Tamworths. I have shipped several to Manitoba and two to British Columbia in the fall, besides many nice shipments to Ontario purchasers during the last three months, and still have some choice stock to fill orders with at only reasonable prices."
