of that neglected grave.

Written for CATHOLIC RECORD. CATHOLICS OF SCOTLAND.

BY THE REV. ENEAS M'DONELL DAWSON, LL. D., F. B. S.

PART II.

GEORGE HAY, JOHN GEDDES, ALEXANDER MACDONALD, AND THEIR TIME —MR ROBERT MENZIES FOUNDS A SCHOOL AT

At Edinburgh, meanwhile, the cause of education, which cught ever to go hand in hand with that of religion, was not neglected. Mr. Robert Menzies, the pastor of the Highland congregation, founded in the capital a school for poor Catholic children. He warmly appealed to Bishop Hay, pointing out the danger to faith and morals caused by so many poor children of his congregation being educated in Protestant schools. This consideration induced him to open a school in his chapel, where many poor children were taught reading, writing and catechism every day. A general class for catechism and religious instruction met on Saturdays in the forenoon Two dozen children at first attended this class. As the attendance increased thrice as many would be taught. Each pupil paid a small sum for tuition, Bishop Geddes undertaking to pay for six of the poorest of their number. order that nothing might be wanting in the way of instruction for the Highland ers, Mr. Menzies delivered every Sunday afternoon a sermon in Gælic.
BISHOP HAY EDUCATES ECCLESIASTICAL

Bishop Hay, at the same time, took another boy into his house, who, together with John Ingram, was maintained at the bishop's expense. As they were both promising subjects, it was hoped that they would become as serviceable to the mission as those who were sent to the colleges abroad.

the colleges abroad. DECLINE OF BIGOTRY-JAN. 2ND, 1788. A circumstance may be mentioned which shows that at this time the spirit which shows that at this time the spirit of persecution was on the wane. Mr. Abernethy Drummond, so notorious as an enemy of the bishops, addressed a polite note to "the Right Rev. Mr. Geddes," begging to know something of the character of a Mrs. Barclay, who, on leaving the Catholic Church, desired to join the non juror sect of which Mr. Drummond was now the bishop. He Drummond was now the bishop. He also desired to learn the cause of her abandoning her Catholic friends. It further illustrates the better spirit of the time that Bishop Geddes visited with such distinguished Protestants as Dr. Webster, Mr. Maitland, and even Dr.

had been politically extinct. The non-jurors, even, in a synod at Aberdeen, held this year, resolved, at last, to pray for the reigning King of Great Britain. The less perfect Church accom modation at Preshome came this year to be enlarged. The chapel at the Craigs was too small for the congrega-tion: and the domestic chapel in the tion; and the domestic chapel in the tion; and the domestic chapel in the priest's house added nothing to their convenience. It was proposed, there fore, to build a strong and lasting edifice of stone and lime, with a slated roof, calculated to contain 700 persons. The need of money for this undertaking in duced Mr. John Reid to be reconciled to the hishon. The astignated expense was duced Mr. John Reld to be reconciled to the bishop. The estimated expense was £350 The congregation chiefly was relied on for this amount; and the people showed their good will by subscribing £100 within a fortnight. Some of the more wealthy promised to lend of the more weathy produced £100 more, until the congregation could repay them. In the choice of a site, it was desirable to avoid publicity by place ing the building in a too conspicuous lo-cality. Mr. Reid finally resolved to build oality. Mr. Reid manly resolved to build in a part of his own garden, which, as the agents of the Duke of Gordon admitted, belonged to him. The baronet of Letter-fourie and his brother took an active interest in the work ; and not only con interest in the work; and not only con-tributed very liberally, but also under took to superintend the building. Their family arms were to be placed in front, and a fine monument of the two brothers erected within the church. In two months £330 were subscribed; and on May 29th the foundation stone was laid by Letterforme and his brother.

ANNUAL MEETING, 1788.

There was now question of the annual meeting and some anxious discussion as to the place where it should be held. The times were so much changed for the better, that it was no longer necessary to meet in a remote and secluded locality such as Scalan. Preshome was thought of; and probably, but for the work which was proceeding there, the erection of the mew church, would have been selected.

There was now question of the annual meeting and some anxious discussion as to the place where it should be held. Outlie, the president was not, however, Buthie, the president was not, however, Buthout the state general? Bishop Hay was inclined to leave the mission funds in Parts, as long as the principal, who must be the best jurge, should think it unnecessary to withdraw the college funds. They should remain or be withdrawn together. (D-c. 12 1788).

CLIMATE AT SCALAN.

In the beginning of January, 1789, Bishop Hay and his community were sufficiently and enlarged tonsils. I was very weak; I doctored four years and had advice from the principal, who must be the best jurge, should think it unnecessary to withdraw the college funds. They should remain or be withdrawn together. (D-c. 12 1788).

CLIMATE AT SCALAN.

In the beginning of January, 1789, Bishop Hay and his community were supposed, was in a very poor condition, by Letterfourie and his brother.

Gibston, the residence of the priest near Gibston, the residence of the priest near Huntly, was finally determined on as a suitable place for the bishops and administrators to meet at, and from which to despatch their letters to Rome. At Gibston, accordingly, the bishops and administrators met. The meeting was satisfactory; and the usual letters were duly despended to Rome. In their satisfactory; and the usual letters were duly despatched to Rome. In their letter to the Cardinal, Prefect of Propa-ganda, they informed His Eminence that it had been resolved, in consequence of the illness of Mr. Dawson and the insuffithe illness of Mr. Dawson and the insufficient number of missionary priests, that Bishop Hay should act as president at Scalan, at least for a time. Mr. Dawson's illness was too serious to leave any hope of final recovery. He had been ailing all winter, and consumption was feared. As summer advanced his illness increased. Dr. Livingstone was consulted, and found that consumption had made too fatal progress. He prescribed his immediate removal from Scalan, as, if anything could save him, it must be relief from anxiety and change of air. Bishop Hay, on his way to Scalan on the 1st of July, visited at a place called Brachlach, to see Mr. Dawson. He found him somewhat easier, Dawson. He found him somewhat easier, but by no means out of danger. Even if he should recover, it would necessarily be a long time before he could resume his charge. The bishop found that the change of masters had greatly benefited the seminary. There was a considerable diminution of expense, so that a greater number of students could be maintained on the funds. The improvements which the bishop had suggested were in course of being so well carried out that he was induced to say it gave him comfort amidst his other difficulties.

DEATH OF MR. CRUKSHANKS. on. He found him somewhat easier

DEATH OF MR. CRUIKSHANKS. In May of the same year, Mr. Cruik-shanks, who had been formerly chaplain at Traquair, and who had for some time been living retired at Edinburgh with Bishop Geddes, departed this life at the age of reventy-four. It is superfluous to say that so good a man was much lamented, not only by the bishops and clergy, but also by all who knew him.

ORIGIN OF SCALAN.

In the beginning of the eighteenth century great efforts were made by the Scotch bishops in order to educate ecclesiastics, as well as other members of the Catholic community. It was a difficult task in face of the persistent persecution of that time. The schools which Bishop Nicholson and his coadjutor, Bishop Gordon, established, were situated in the more remote and least accessible districts of the Highlands. These were very useful for a time in preparing students for the foreign colleges and the general education of Catholic youth. At length, about the year 1712, the bishops, availing themselves of the greater quiet which prevailed, and urged by the want of missionary priests, conceived the project of erecting a seminary in a less remote locality, where, in addition to the purposes which their schools had hitherto served, they might themselves train ecclesiasthey might themselves train ecclesias-tics and ordain priests for supplying the pressing wants of the mission. Aid was asked and obtained from abroad, and their plan was realized. A place, ad-mirably suited to their purpose, was found in a retired part of the extensive lands of the Catholic Duke of Gordon. The chosen spot was far from any public

In those evils days the remoteness of the situation did not always save the seminary from violence. The ministers of the Kuk renewed, from time to time, their hostility against the Catholic religion, disturbing its professors and directing their fury, in such ways, as to inflict the greatest injury. In such circumstance of the control of cumstances, the seminary enjoyed no immunity. It was attacked several times by armed soldiers, who dispersed the community and shut up the house. Such was its hard lot in 1726; but, in the following year, the bishops were en the following year, the bishops were en abled, through the influence of the Duke of Gordon, to re-open the semin ary. In 1728 its occupants were again dispersed, twice over, in the short space of two months. On these occasions there was so little damage done that soon afterwards the establishment was once more occupied by its owners, and the usual course of study resumed.
About the year 1738 Bishop Gordon
considerably enlarged the building; and the superintendence was confided to Mr. William Duthie, a convert from Protestantism, who had studied at Paris, and also had been ordained there In a month after the defeat at Cullo den, a troop of soldiers burned the house to the ground, scarcely allow ing the students and their master time to escape to the hills, carrying with them their books and their sltar furniture. Mr.

and so remained until the bishops who succeeded its founders, greatly feeling the want of such an institution, resolved on its restoration. The first step was the sppointment of a competent rector; and such a one was found in the person of Mr. John Geddes, not long after his return from Rome. By his mental gifts he was peculiarly well qualified for the charge; but ill able, from the weakness of his constitution, to bear the fatigue and anxiety incident to the position. The place where the students and so remained until the bishops who buried in snow and without the means tatigue and anxiety incident to the posi-tion. The place where the students lived, a mere hut, was not adapted for study. The indefatigable Mr. Geddee, accordingly, lost no time in providing a commodious house on the opposite, or right bank of the river Crombie. To right bank of the fiver Crombie. To this house additions were made from time to time. The last of these was in progress when Bishop Hay assumed the office of President, under the rule of Mr. Geddes. Discipline, study and economy prevailed; and so prosperous was the seminary that it had a greater number of ecclesiastical students ready to meet the demands of the foreign colleges than

was required to supply them.

As has been shown, Bishop Hay undertook the charge of Scalan, when Mr. Dawson became so ill as to be unable to act. He was a very efficient President. He spent much of his time with the students, not only at the hours of study, but also in recreation time; encouraging but also in recreation time; encouraging them in every possible way. His stay at the seminary was otherwise profitable. It afforded him the opportunity of learn ing from personal observation what out lay was necessary for securing its efficiency; by retrenching all superfluous expenses, he laid down a sure and permament basis for economy in the future; and by paying a handsome board for himself, he relieved the house from its pecuniary difficulties. Having occasion to spend a week at Aberdeen, he placed the work of the new building at Scalan under the superintendence of Mr. Guthrie. He was much in want of s Guthrie. He was much in want of a good altar piece for the new chapel there, and requested that his coadjutor would send to him an *Ecce Homo*, which lady Chalmers had presented to him and which had, for some time, adorned the altar "in the little closet of the back chapel in the old house, Blackfriars' Wynd." At the same time, he imparted to Richard Chaldes the mountful news wynd," At the same time, he impared to Bishop Geddes the mournful news that Mr. Andrew Dawson, the late rector of Scalan, departed this life on the 2nd of September, about 4 o'clock in the

morning.
BISHOP GEDDES RETURNS TO EDINBURGH. BISHOP GEDDES RETURNS TO ENTROGRAM.

—HIS MISSIONARY TOUR IN BUCHAN.

Bisnop Geddes, after having been with his colleagues at Gibston, where the annual meeting was held, visited, on his way back to Edinburgh, his Catholic triends at Mortlack and in the Eozie, in the latter place fill the remaining in the latter place till the vigil of the assumption. On that day, in the morning, he left Rannes, the seat of Mr. Andrew Hay, in company with the Rev. John Reid, partock of a fish dinner at the Earl of Findlater's and parted with Mr. Reid at Banff. From that town he proceeded partly on foot and partly on horseback, making a missionary tour through the destitute district of Buchan, saying mass, preaching and hearing con-fessions at various places. In walking from the neighborhood of Peterhead to lands of the Catholic Duke of Gordon. The chosen spot was far from any public thoroughfare, concealed from view by a circle of hills, and, at the time, partly surrounded by a morass—the only road to it a bridle path. It was just such a place as the bishops had in view. Mr. William Reid, who was well acquainted with it, stated, in 1778, that it was in as cold and stormy a region as there is in Scotland; and that the greater part of the provisions and things necessary for the house must be brought from a distance. But, as there was no security, as yet, against persecution, the very series of the passed through Elion, the heighborhood of Peterhead to Fettern he passed through Elion, the birthplace of his old fruend, Mr. Guthrie. The thought of his early friend induced him to get a man to point out to him the house of Mr. Ross, the joiner, Mr. Guthrie's old master. He returned to Edinburgh, early in September, by way of Dundee and St. Andrew's. Once at home, he wrote to Bishop Hay, promising the Ecce Home; and also informing the Bishop of some slight disturbance there was at Gaspow on occasion of Mr. Consald's last visit. The same month Mr. Æneas Chisholm, afterwards Bishop webster, Mr. Mailland, and even Dr. Abernethy Drummond.

DEATH OF PRINCE CHARLES.

There now occurred at Rome to death of the Count of Albany (Prince Charles Edward). The news of his decease does not appear to have caused any sensation in Scotland. The Romans believed that the state of the British Catholics would be improved, political Catholics would be improved, political Catholics would be but one king and one people. This happy consummation had already taken place when, some years before, Catholics when place when, some years before, Catholics would be improved, possible time, indeed, the dynasty of the unfortunate Prince had been politically extinct. The nonjurors, even, in a synod at Aberdeen, held this year, resolved, at last, to pray for the reigning King of Great Britain. The less perfect Church accommodation at Preshome came this year to be enlarged. The chaple at the

about salvation out of your Church I once spoke of them to B shop Geddes, and hoped that he did not think the He answered me only by same way. He answered me only by saying, 'That is certainly the doctrine of our Church '" our Church'"

THE SEMINARY SUCCEEDING.

Bishop Hay's plans for the improvement of the seminary had proved very successful. He was in high spirits, and wrote as follows to Bishop Geddes:

"Who knows but Scalan may yet turn to be of good service in place of the college at Rome? . . . Our present subjects seem all very promising " The Bishop's health, too, was all that could be desired;

and, to complete his satisfaction, the harvest had been all secured much earlier than usual, a fortunate event the stome which had not been witnessed since the greatly to year 1781 year 1781
SIGNS OF REVOLUTION IN FRANCE.
Now were heard the first rumoings of
the great political earthquake which was
destined to overthrow the French mon
archy and throw all Europe into con
fusion. Such was the anxiety of Principal
Gordon, of the Scotch College at Paris, Gordon, of the Scotch College at Fair, that so early as November in this year he wrote desiring to know how the bishops of Scotland wished to dispose of the funds belonging to the mission, and at the time invested in French securities. Would they prefer to withdraw them at once, or await the results of the approaching meeting of the States general?

report about Glasgow had given him, and hoped that their anticipations would meet with no "let." The winter did not end with the great thaw; and during the greater part of March, frost, wind and snow disputed with one another possession of the wild glen. The snow lay deeper and longer than at any previous period of the winter. At length, however, the state of the weather permitted the priests of the neighborhood to reach the seminary on Holy Thursday (April 9), The winter did not the seminary on Holy Thursday (April 9), although only a week before it seemed

impossible that they should do so,
Among other places which Bishop
Geddes visited was the town of Berwick, Bishop Gibson having admitted that it belonged to the Scotch mission. The bishop prolonged his journey as far as York, in order to meet Mr. Douglas, the priest there, with whom he had become acquainted at Valladolid, when Mr. Douglas was prefect of the English college there. They travelled together to Stella Hall, and stayed a day or two with Bishop Gibson.

TO BE CONTINUED.

THE DUCHESS OF GALERIA.

N. Y. Freeman's Journal. The Duchess of Galiera was born in Genoa seventy three years ago, of the illustrious family of the Brignoel-Riale. She inherited an immense fortune, and She inherited an immense fortune, and after her marriage with the Duke of Gal iera, spent the rest of her life, for the most part, in France. Her entire life was thenceforward devoted to good works, the result of which is seen in im mense institutions reared by her orders for old men, orphans, and the sick. It is calculated that she gave about \$10,000,000 to religious and charitable institutions in Paris, and about \$8,000,of Genoa. But it would be impossible to calculate her private alms given out side the colossal works. Her benefactions are believed to have considerably ex eeded 126 000 000 francs. always searching for cases of real want, and her chaplain and secretary had no

She has been blamed for the architectural magnificence of the edifices she erected for the poor, and often told that she would effect a wider range of good if these were more modest, by doubling the number of her institutions Her ides, however, was that these buildings should be as little like almshouses as possible, and she was a lady whose opinions were not easily changed.

opinions were not easily changed.
Her hospitals, convents, and orphanages, are all under control of the
French episcopate, and it is to be
hoped that the present ant Christian
Government of France will leave these
institutions under the guidance of the
religious who manage them so admir

ably.

The last years of this good woman, whose existence seemed so enviable, were peculiarly cruel. She suffered from a complication of diseases of the most painful character, that must have made her look forward to death as a re-lief as well as the beginning of her assured reward; for a tender piety guided her daily life and inspired all her guided ner daily life and inspired an excitons. Her sufferings never prevented her from taking an active interest in the management of her institutions, and her death was immediately due to a chill caught at the inauguration of one of her
