SUMMARY OF NEWS.

NEW BRUNSWICK.

SEEDIAC RAILWAY .- Mr. Wilkinson,in his Report on the proposed Railway from St. John to Shediac, states the whole length of the line from the Mill Pond in the rear of this City, to Milne's Point at Shediac, to be 1063 miles, which he divides into nine sections. The estimate of the total cost is laid down at £485,918, including the necessary ruening stock, for the effective working of the whole line—the cutting calculated for a 24 feet been, or sufficient width for a double track, when necessary. The highest estimate of sest is stated at £5,936 194 5d, per mile for the first section of 9 miles, including oper of the terminus at St. John. The other sections (of which there are 8,) vary in estimated cost from £2,647:134 76 to £4,875 12. 1d. per mile. Mr. W. recommends that the most durable descriptions of wood, efficiently constructed, should be at first used for the railway. We trust that the present session of the Legislature will not be allowed to pass away without some measure having been adopted to forward this enterprise. - St. John N. B. Observer. 2nd.

Among the numbers and variety of subjects brought before the Mechanics' Institute this season, some of which exhibited an amount of research, and profundity of thought, which would be no discredit to the best Institutions of more favoured countries, the one delivered lately by Mr. George N. Smith, Artist, on "Colours," as applied to the decorations in Rosse Pointing, and to Dress, is worthy of a better fate than what falls to the lot of most of the lectures given in that Institution. It was certainly the best digest of Esthetical Science ever given in our midst, and the Lecturer was evidently at home on the subject. It is to be boped that Mr. Smith's talents are duly appreciated by the citizens of St. John, and that many youths will avail themselves of his instructions in the art of Landscape and Machanical Drawing and Painting .- Ib.

LECTURE ON THE EVIDENCES OF CHRISTI-AVITY. - The fifth lecture of this course was delivered in the Centenary Chapel, last Thursday evening, by the Rev. Mr. Cooney. The subject was-" Evidences of Christianity derived from the growth of Christianity." Notwithstanding the unfavourable state of the weather, Mr. Coopey's popular talents and manner attracted a large congregation of people, who were evidently much pleased with the whole discourse. - Ib.

The meeting of the "Society for the encouragement of Agriculture, Home Manufactures and Commerce," was beld in the County Court House, agreeably to notice, on Saturday last, and turned out to be the best at which we ever were present. An amount of information was brought to bear on the subject, which several of those present were really surprised at; but which we can well et that most of the speakers were practical Agriculturalists. Viewing it in this light, the speech of the Hon. Edwin Batsford was the best we ever listened to, combining as it did, the science of the scholar, with the familiar results of practical agriculture .- Fredericton Reporter.

LEGISLATIVE PROCEEDINGS .- Mr. Woodward has again introduced his bill to abolish imprisonment for debt, a measure which has greatly increased in public favour of late

An Act has passed, imposing the punishment of imprisonment to the Penitentiary, not exceeding four years, for malicious injury to the works of any Electric Telegraph Company established in this Province, such punshipent to be in addition to any civil or other remedy for the offence.

A special Committee of the House having reported in favour of granting £2000 toward the erection of the Suspension Bridge over the Falls, near this City, the House divided upon the report, which was sustained by a insjority of one, and a bill was ordered to be prepared accordingly.

On Monday last, the fronse went into Com mittee on the Bill to incorporate the Cauada, New Brunswick, and Nova Scotia Railway Company. The gentleman from Canada, at whose instance this Act was brought before the Arsembly, not having produced satisfactory credentials, or shown under whose authority he was acting, progress was reported, in order that some further information might be furnished.

Professor Johnson's admirable report has been formally submitted to the Legislature, and 1000 c pies ordered to be printed. It is understood that an addition of 10,000 copies will probably be ordered for distribution in the Province, and for circulation in the Uni- yesterday (Friday) for the same destination. It

important matter. From such a good heginning, we have full hope that something really ADVERTISEMENTS. beneficial to the interests of this Province will be effected with our sister colonies in the W. Indies, with whom, of late years, we have had but little communication .- St John Cour.

FREE PORTS. - By a circular which has been issued by Earl Grey, addressed to His Excellency, on the subject of opening new Ports in the Province for the admission of Foreign and British Shipping and Goods, it appears there will now be no objection to open such Ports, provided the Colonial Goverament appoint their revenue officers to perform certain duties, relative to registry, clearances, returns of trade, &c., which are still required by the Imperial Acts. These officers will receive deputation warrants and instructions from the principal Controller of Customs and Navigation Laws in the Colony, upon directions being given by the. Colonial Government to these officers to comply with such instructions from the Controller. The appointment of these, officers must also be unattended with expense to the old country.

CUSTOMS UNION WITH THE UNITED STATES. -A suggestion made by a gentleman of this City has been transmitted to Washington. and is now under consideration there, for a Customs Union between these Colonies and the United States, somewhat on the principle of the German Zollverein. The proposition is to the effect, that there shall be perfect free trade between these Colonies and the American Union in every respect, both countries adopting the same tariff precisely, as against all countries not included in the Customs Union. This idea, bold and startling as It may seem at the outset, is worthy of consideration. We understand that several gentlemen of high mercantile standing in this community, baye already expressed their entire approbation of the principle, which, of course includes free trade in shipping, as in everything elee. We merely give at present the outline of the proposed plan, which will doubtless be fully and ably discussed hereafter. - 16.

The Royal Gazette of Wednesday contains proclamation declaring that the following articles, the growth, produce or manufacture of Ganada, Nova Scotia, and Prince Edward Island, may be imported into the Province free of duty viz:

Grain and Bread Stuffs of all kinds, Vegetables, Fruits, Seeds, Hay and Straw, Animals, Salted and Fresh Meats, Butter, Cheese, Lard, Tallow, Hides, Horns, Wool, Undressed Skins and Furs of all kinds. Ores of all kinds, Iron in Pigs and Blooms, Copper, Lead in Pigs, Grindstones and Stones of all kinds. Earth, Coals, Lime, Ochres, Gypsum ground and unground, Rock Salt, Wood, Timber and Lumber of all kinds, Fir wood, ashes, Fish, fish Oil, viz : Train Oil, Spermaceti Oil, Head Matter and Blubber, Fins and Skins, the produce of Fish or creatures living in the Sea. N. Bkr. 6th.

CANADA.

TORONTO, C. W., April 1, 1850. M. Chabot, Chief Commissioner of the Public Works, has resigned his office and seat in the cabinet. REVENUE.—The gross revenue from Customs

in Canada, for the year 1849, was £450,511 1s. 7d. The gross customs revenue in 1848 was £334,029 8s. 9d., showing an increase in 1849 over the preceding year, of no less than £116

RETRENCHMENT.-The Bytown Packet ays; Mr. Merritt is preparing a grand Retrenchment scheme, to be submitted to Parlia ment at its next session, by which it is said he will be able to show that a saving of £80,000 per annum may be effected in the Government expenditure. - Quebec Chronicle.

Late from Isthmus of Panama. The health of the Isthmus was good.

Our advices from Panama are to the 9th ult inclusive There had been a serious disturbance at Pa-

nama. An American had been imprisoned

harge of theft, unfairly, it appears, and in consequence of his not having been immediately reeased, a number of his countrymen rallied, beat down the doors of the prison, and took him out by force, driving off the guard. The following items of intelligence are interest-

ing as confirmatory of previous advices. They are taken from the Panama Echo of the 2nd ult-The French frigate Seriouse, J. Cosnier, Commandant, left this port last Thursday morning for Punta Arena. The British ship Asia, Rear Admiral Phipps Hornby, Commander, left on appears that there is something very important A Bill introduced by Her Majesty's Attor- going on between his Majesty the King of the ney General, to establish reciprocal free trade Musquitos, and the Republic of Costa Rica. We with the West Indian Colonies, passed the shall soon learn what it is, and if a Republic House on Wednesday last. We give the more important than Costa Rica is not also con-Executive Council great credit for the prompt corned in this matter. It books a little squally, and energetic action they have taken in this but time will disclose the ulterior movement.

FEW Tierces Prime HEAD RICE, For A Sale by W. M. HARRINGTON.

March 30. Elastic Chest Expanding Braces.

THE SUBSCRIBER,

BEING acquainted with the construction of Chest Expanding BRACES, recommended as a principal means of the prevention and care of Consumption, by Ur. Fitch of Philadelphia, a phy sician celebrated for his success in the care of that discase, - and being urged by several of his friends whom he furnished with them, to make it known to the public, he therefore takes this apportunity of complying with their wishes.

These BRACES are recommended to all sight ly made or narrow chested persons; also for Round Shoulders or Diseased Spine, as a messe of expanding the Chest, so as to give full play to the Lungs, straightening and strengthening the Back, and giving uprightness and symmetry to the body. They will be found beneficial to all ages, - bet especially to youth. They may be worn without the least inconvenience, precluding the necessity of Stays-for which Ladies would find it greatly to their advantage, as regards health and beauty, w The Sabscriber will furnish the Braces whole-

sale or retail, at prices as moderate as possible. MICHAEL HERBERT, Ilalifax, Feb. 16.
