

Church Lighting Fixtures.

We make a specialty of the lighting of Churches, Auditoriums, &c.

We will be pleased to correspond with committees or others having such work in contemplation, and to furnish them with suggestions as to best plan of lighting, also designs of suitable fixtures, &c.

Drop us a line when you are ready to take up this question, and we will give it prompt attention.

McDonald & Willson, Toronto.

A copy of our illustrated booklet "The Lighting of the Home" will be mailed free to any reader of this paper on request.

Heating Systems

First there is the furnace or boiler to be used—it must be a good solid affair with an appetite for coal that savors of the delicate. It must be properly located and the pipes or radiators placed where they will do most good. Then there is the ventilation or cold-air intakes to be considered. The hygienic features of home heating are most important.

PEASE HEATING SYSTEM

embraces all the good points necessary to hygienic house heating. The three great heaters in the system are :

Pease Economy Hot Water Boiler
Pease Economy Warm Air Furnace
Pease Economy Combination Heaters

TALENTS.

"I remember," said Grannie, "when I was a little girl of seven years old my father kept a butler—a very solemn but very kind old man.

Every night when, exactly as the clock struck eight, my aunt sent me out of the dining-room to go upstairs to bed myself—for little girls were brought up very strictly in those days—old Thomas was waiting in the hall to hand me my little brass candlestick to light me up the five long flights of stairs which I had to climb to the little attic room where I slept. I always said 'Good-night, Thomas,' and he would reply in a very slow, solemn way, 'Good-night, Miss Nannie; don't forget to take account of your servants!'

"What he meant was this: My Uncle William, who had come home from India when I was about six years old, had been very kind to me while he stayed with my father, because he saw that I was a very lonely child in a very big, empty house; for I had neither mother, brother, nor sister. So he would often take me on his knee and tell me Bible stories.

"One day, when we were sitting together in an old summer house in the very small back garden which town houses generally have, he told me the parable of the 'Talents'

"Nannie," he said, 'I am going away very soon, and I want you to promise me that every night before you get into bed you will 'take account of your servants.'

"There are many 'talents' God has given other children and not to you, for you are a lonely little girl—no sisters to play with you. But there are many 'talents' you have which some other children have not.

"See here," he said, taking my little hands in his, 'here are ten little fingers, and down there inside your shoes are ten little toes; and inside that mouth is a little tongue; and at each side of this neat brown head is an ear; and looking straight up at me are two brown eyes. Now, these are all your servants, or 'talents,' given to you by God to use—while many little children are lame or dumb or deaf or blind—and you are His little servant, and I want you every night to 'take account of your servants,' and find out if they have been pleasing God or only pleasing yourself all through the day.

"For all those servants of yours are 'talents,' or gifts from God, and mother to love you, no brothers or He is watching every day now what you give them to do, and one day he will make you give an account of their doings.'

"And then, after I had promised to do as he told me, he kissed me and set me down, and away I ran, to my old friend, Thomas, to tell him in my own way all about what Uncle William had said.

"And from that time until my aunt took me away to live in the country, old Thomas never forgot every night to say, 'Don't forget to take account of your servants, Miss Nannie.'"—Great Thoughts.

THE HOME SAVINGS AND LOAN COMPANY

(LIMITED)

ASSETS, \$4,000,000.

Offices: 78 CHURCH STREET,
322 QUEEN ST. WEST.

3 1/2 %

INTEREST ALLOWED ON DEPOSITS.

HON. JOHN DRYDEN, J. BLACKLOCK
President. Manager.

No restlessness or discontent can change your lot. Others may have other circumstances surrounding them, but here are yours. You had better make up your mind to accept what you cannot alter. You can live a beautiful life in the midst of your present circumstances.

Deafness and Catarrh Cured

By "ACTINA."

*Ninety-five per cent. of all cases of deafness brought to our attention is the result of chronic catarrh of the throat and middle ear. The air passages become clogged by catarrhal deposits, stopping the action of the vibratory bones.

Until these deposits are removed a cure is impossible. The inner ear cannot be reached by probing or spraying, hence the inability of specialists to always give relief. That there is a scientific cure for most forms of deafness and catarrh is demonstrated every day by the "Actina" treatment. The vapor currents generated by "Actina" pass through the Eustachian tubes into the middle ear, removing the catarrhal obstructions as they pass through the tubes, and loosen up the bones (hammer, anvil and stirrup) in the inner ear, making them respond to the slightest vibration of sound. "Actina" has seldom failed to stop ringing noises in the head. We have known people troubled with this distressing symptom for years to be completely cured in a few weeks by this wonderful invention. "Actina" also cures la grippe, asthma, bronchitis, sore throat, weak lungs, colds and headache; and all other troubles that are directly or indirectly due to catarrh. "Actina" is sent on trial postpaid. Write us about your case. We will give free advice and positive proof of cures. A valuable book—Professor Wilson's 100-page treatise on Disease, Free.
