LOCAL MATTERS.

THE public are hereby cautioned against paying subscriptions or amounts for advertisements to any person on behalf of the STAR, unless said person hold written authority from me to collect and receive the same.

J. E. COLLINS, Ed. "Star."

A Large Egg.

Our worthy townsman Mr. Regan exhibited last week in his shop window a hen egg weighing a quarter of a pound. The egg was laid by one of his own hens, and the same hen lays two or three such eggs every week.

A Mean Dodge.

The patriotic element of the Grit party here have now determined to have the "boat race" the day Sir Charles, and Sir Leonard and Hon. Peter Mitchell will be here.

Mr. Muirhead and Major Call in Thunder Bay.

In the Thunder Bay Sentinel of Aug. 19th, we find the following:— Wm. Muirhead, Jr. Esq., son of Senator Muirhead of Chatham, N. B., and R. R. Call, Esq., of the same place were among our visitors on Wednesday last.

Star Agency.

Messrs. Staples and McAllister of Newcastle, have now the Star agency at Newcastle, and will see that our Newcastle friends are not short of the Chatham Star.

Messrs. Staples and McAllister are our agents, for they are two of the most enterprising young men in the county.

Their establishment is a marvel of success and business propriety. They deal in confectionary, temperance drinks, ice cream, biscuits, cigars, &c., of superior quality.

Drowned at Black Brook.

On Sunday night, three sailors belonging to the bark Glengarden, left Black Brook in a small wherry, to go on board of their ship. They were all the worse for liquor, and upset the boat.

One of them, a colored man named New, belonging to Jamaica, and Stewart of the ship, drowned almost instantly. The other two clung to the bottom of the boat, and drifted down the river.

Capt. Cameron, who had charge of a raft below Black Brook, heard the cries, and putting out rescued the two unfortunate fellows.

Appointment.

We are glad to learn that W. D. H. Kenny, Esq., of St. John, has been appointed manager of the Mutual Life Insurance Company for this Province and Newfoundland.

Hitherto the company has had foreigners to do the Provincial work, but now we are glad to say that it has adopted the sensible plan of having "one of ourselves."

Mr. Kenny is a first-class business man, and represents a first-class company. He is doing a good deal of business now at the Miramichi. We understand he will appoint Mr. R. B. Adams, Barrister, etc., his agent for Chatham.

A Nelson Critic.

The Nelson correspondent of the Advertiser, who is the greatest game poacher in Nelson, though a miserably bad shot, takes exception to the Star, saying "the sportsman is preparing for the 1st of November."

So he is, but there is, we suppose, other game beside partridge. There is in this province, we believe, such a bird as a plover, a snipe, and a piper, or "sand peep," as the clumsy poacher of Nelson calls it.

Brother Advertiser, don't publish these things, if you want to keep your correspondents out of trouble.

The Dredge St. Lawrence.

The dredge St. Lawrence concluded her summer's work on the Horse Shoe bar, Saturday last. She left this morning, for Picton. The dredge has done a creditable summer's work this season, on the bar. Indeed to put it simply, there is now no Horse Shoe bar. There is a good staff in the dredge.

Capt. Thompson is an officer who pays no attention to anything but his duty, and this he does intelligently and well. Mr. James McMurray is the engineer, and is the right man in the right place, while of the first-class qualities of Mr. Allan MacEachran as a pilot, we need not say anything. They have done first rate work—that is the best praise can be given them.

A Scandalous Bridge.

There is a bridge over Stewart's brook, three miles or so down the river road on the other side, which is a standing disgrace. The bridge spans a chasm fully 30 feet deep, and one wonders why horses are not driven over it, or men do not walk over it on dark nights, for it has no railing upon it.

More than this, dangerous holes are appearing out towards the bridge, and some time a horse will stumble into one of these and go over to his destruction. The bridge seems to be 30 or 40 years old, is substantially built, and one time evidently had a kind of ginger bread rail to it. What should be done at once is, fill up those dangerous holes, put a new top timber on either side of the bridge, and on this put a substantial railing. We wonder why the supervisor or whoever he may be that has charge of that portion of the highway, does not notify our County members of the dangerous condition of this bridge. We wish Messrs. Adams and Davidson would send a drive down to it—if they did we are sure the danger would soon be removed.

Black Brook Notes.

Messrs. A. & R. Loggie & Co., Black Brook, are building a large freezer at Pokemouche, Tracadie, Gloucester Co. They are their own patentees for this freezer. It is surprising that merchants in that locality have never been energetic enough to have had a freezer there before this.

It is said at that place and near St. Davions inlet the bass are very plentiful and of a large size, from 10 to 25 lbs. and uncommon weight. The Loggies must be National Policy men, for they believe in building up their own country, and to prove they are succeeding, is this written: At Black Brook they are building an enormous building for a smelt packing house. The upper story for smelt packing, and a tin shop for lobster packing. They are wonderful boys.—Com.

Mr. Muirhead and Major Call in Thunder Bay.

In the Thunder Bay Sentinel of Aug. 19th, we find the following:— Wm. Muirhead, Jr. Esq., son of Senator Muirhead of Chatham, N. B., and R. R. Call, Esq., of the same place were among our visitors on Wednesday last.

Mr. Muirhead is the owner of a large quantity of valuable mineral lands in the western portions of the township of McIntyre and is here to look at them, and we hope will do something toward their development.

Mr. Call previous to his departure was the recipient of a very handsome gold watch and chain which he had as much traffic with the Indians, as the person in Chatham who wrote the letter sometimes has when he comes down here, he might perhaps look like one.

I am glad to see some correspondent pointing out the necessity of a preventive officer down here. One is needed, as there is a first rate chance to land smuggled goods here from St. Pierre or else where.

A Budget of News by Cable.

THE LONDON SEASON—A COWARDLY CROWD—ANTIC EXPLORATION—POLAR CONFERENCE—TUNIS THREATENED—THE FRENCH ELECTIONS—FATAL ACCIDENT ON BOARD A SPANISH WAR VESSEL.

The London season is dead; society is on the Continent or in Scotland, and the society papers to fill up are chronicling the movements of Messrs. Irving and Toole, the actors; one large interest in its columns, has sold the right to the Alexandra Palace Company of exhibiting the last letters received from its lately imprisoned correspondent at Merv. The Saturday Review devotes two columns of laudation of Sheriff Garret, who shot "Billy the Kid," and thinks him exactly the man from county Galway. Commenting on the suggestion made by a New York paper that dynamite should be tried on Donovan Rossa, it says that "this suggestion has already been anticipated by a very factious school-boy in Great Britain."
