

DEMAND FOR TANLAC BREAKS ALL RECORDS

Amazing Success Achieved by Celebrated Medicine Not Only Phenomenal, But Unprecedented—Over 20,000,000 Bottles Sold in Six Years—Foreign Countries Clamor for it.

Never before, perhaps, in the history of the drug trade has the demand for a proprietary medicine ever approached the wonderful record that is now being made by Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout this country and Canada. As a matter of fact, the marvelous success achieved by this medicine is not only phenomenal but unprecedented.

The first bottle of Tanlac to reach the public was sold just a little over six years ago. Its success was immediate and people everywhere were quick to recognize it as a medicine of extraordinary merit. Since that time there have been sold throughout this country and Canada something over Twenty Million (20,000,000) bottles, establishing a record which has probably never been equalled in the history of the drug trade in America.

Fame Is International

The instant and phenomenal success which Tanlac won when it was first introduced has been extended to practically every large city, small town, village and hamlet in North America. Its fame has become international in its scope and England, Japan, Mexico, Cuba, Hawaii, Alaska, Porto Rico and many European countries are clamoring for it.

From coast to coast and from the Great Lakes, Tanlac is known and honored. Millions have taken it with the

most gratifying and astonishing results and have pronounced it the greatest medicine of all time.

Tens of thousands of men and women of all ages in all walks of life, afflicted with stomach, liver and kidney disorders, some of them of long standing, as well as thousands of weak, thin, nervous men and women apparently on the verge of collapse, have testified that they have been fully restored to their normal weight, health and strength by its use.

Restored to Health

Still others, who seemed fairly well, yet who suffered with indigestion, headaches, shortness of breath, dizzy spells, sour, gassy stomachs, coated tongues, foulness of breath, constipation, bad complexion, loss of appetite, sleeplessness at night and of terribly dejected, depressed feelings, state that they have been entirely relieved of these distressing symptoms and restored to health and happiness by the use of Tanlac.

BAPTIST MINISTER CHARGES INTRIGUE

Charges that on account of political intrigue and the action of certain magistrates the enforcement of the Prohibition Act is now in a worse state than it was a year ago, were made Wednesday by Rev. A. L. Tedford in reading a report of the Temperance Committee at the morning's session of the Southern United Baptist Association, held in St. John, N. B. The report further stated that Rev. W. D. Wilson had resigned because he refused to submit to dictation. Who wished to dictate was not mentioned, but presumably was some one connected with the provincial government. Chief Inspector Hawthorne was criticized in the report for the reappointment of former sub-inspectors and for renewing certain vendorship permits that had been cancelled.

The report also recalled that Rev. W. D. Wilson had been refused an increase in salary, the present inspector afterwards being appointed at an increased figure.

Chief Inspector Hawthorne was commended for his stand in regard to the opening of a wholesale liquor depot here.

Mr. Tedford in his report said that the Baptist clergy had a great duty to perform in arousing the public conscience in the forthcoming referendum, and urged that Rev. W. D. Wilson, provincial organizer, be strongly supported and that members see that temperance literature be given wide circulation.

The report aroused intense interest and lively discussion. Rev. Dr. Hutchinson at first advocating that the report be published with the most striking portions underlined. He afterwards modified his opinion.

Other members were in favor of publication, saying that the report confirmed previous suspicions as regards the enforcement of the Prohibition Act.

Rev. S. S. Poole urged caution in the matter. It should be definitely decided whether every statement was true, and if true susceptible of proof. He particularly referred to the allegation made against magistrates.

Rev. J. H. Jenner supported the speaker.

The report was adopted by the meeting and a motion that it be published amended to the effect that it be submitted to the resolutions committee.

IMMIGRANT'S IDEA OF SAFETY AT SEA

Comment has been made recently on the fact that emigrants from Oriental countries to the Pacific coast prefer to travel on steamships with more than one funnel, and consequently dummy funnels were added to some of the ships on that service. Steamship officials on the eastern seaboard state that the desire for ships with two, three or four funnels is not by any means restricted to the Orientals. Third class passengers from Continental Europe have the idea that to be absolutely safe in their passage across they must travel by the biggest boats and the four stackers are by far the most popular with them. The extra stacks seem to represent stability and security to these people, especially those who have spent their lives inland. And officials state, this tendency to patronize the ships with the most funnels is not confined to the immigrant class, as the very best class of passengers generally wish to book on these steamers. Therefore several of the big Atlantic steamers also carry dummy funnels.

However with the advent of the oil burner the ship with several stacks promises to become obsolete as the new mode of construction calls for only one funnel. Also most of the new steamers will be considerably smaller than ships of the Olympic or Berengaria type, though equally luxurious and secure, and quite as good sea boats. No trouble is anticipated in demonstrating to the cabin travellers that the new boats represent the latest in steamship construction and that the larger vessels belong to a class that is not now being produced, but it is expected that steerage passengers will have to be carefully educated to the newer boats before they can be persuaded to book passage in them instead of with the old favorites.

SOBEY—MCDONALD

At the home of the bride's father Lawrence McDonald, Chapin Island Road, Annie May McDonald was united in marriage to Henry C. Sobej, on Wednesday June 29th at high noon. The ceremony was performed by Rev. J. B. Champion. Thirty or more of the couple's immediate relatives and friends were present and after the wedding enjoyed a sumptuous repast. The young couple left on a motor trip for Moncton, Sackville and Amherst, and on their return will reside at Maple Glen. A large number of valuable gifts were received by the bride showing the esteem in which the young lady was held.

SUNNY CORNER

Sunny Corner, June 2—Miss Mary Doyle is visiting Mrs. Sullivan in Red Bank this week.

Mr. and Mrs. James McDonald spent the 26th in Millerton.

The many friends of Miss M. A. McDonald will be glad to hear she is improving in health.

Mrs. William Hogford, Trout Brook is the guest of her mother, Mrs. William Nolan.

Mr. D. A. Cain spent the latter part of the week in Chatham and Napan.

Mr. and Mrs. Lea Johnston were visiting at the Corner on Sunday.

Mrs. Allan Mullin, Exmoor, spent Friday with Mrs. Allen Tozer.

Baseball is the chief past time at the Corner and some swift games are being played, three times a week.

ESTIMATE OF NINE MILLION POPULATION

Toronto, June 28—A special despatch to the Star from Ottawa says it is estimated that the present decennial census will show that the population of Canada has gained 1,000,000 since the census of 1911. The population is estimated at between 8,750,000 and 9,250,000 based on statistics already available in Ottawa.

NURSES TO BE GIVEN A SEND OFF

The public health nurses who are being sent out by the Provincial Red Cross are to be given a send off from the Red Cross Depot, on Prince William street, Thursday afternoon, when they will be addressed by Hon. Dr. Roberts, Mrs. G. A. Kubring, and R. T. Hayes, M. L. A., President of the society. It is also expected that the convener of the various committees engaged in Red Cross Work in this locality will be present to extend the good wishes of their societies to the nurses and wish them success in their future work.

The first of next week the nurses will proceed to their various stations, the pioneers in New Brunswick of a movement which has already assumed large proportions in Ontario and Nova Scotia, and which will, doubtless, become national in its scope before long. Four nurses, well equipped with supplies that have been made or purchased by the ladies of the Red Cross, are being sent out: Miss Ethlyn Armstrong, to Bay du Bin; Miss Jessie Murray, to Campbell; Miss Elizabeth Alyward, to Riley Brook; Miss Geta Ferris, to Minto. Another nurse has also been engaged, but she will not be sent out for a little while yet.

PROVINCIAL REPRESENTATIVES

Although the census returns cannot be made public for some time, there is much speculation as to the count in the Province of Quebec, because it is on the population of that province that is based the representation of each province in the House of Commons. The Provincial Secretary of Quebec is credited with estimating the population at two and a quarter millions, an increase of twelve and a half per cent., while previous estimates had placed the figure at two and a half millions. It is pointed out in an Ottawa despatch that if the Provincial Secretary's estimate should turn out to be correct the change in the electoral strength of other provinces with regard to Quebec may not be so great as heretofore expected. "That figure, if correct, would mean that the number of members sent to parliament by other provinces would be determined by dividing 34,615 into the populations of each instead of 40,000 as formerly expected. The average number for each constituency in Quebec now is 32,242." The Maritime Provinces are particularly interested in this matter.—St. John Globe.

F-R-E-E

1000 watches absolutely free. Owing to the enormous success of our previous puzzle advertisement, which gained for us hundreds of new clients, who, being so pleased with their free watch, that they are now our permanent customers, we have decided to further advertise and gain recognition in 1000 new homes, by giving away another 1000 valuable watches, to those who are clever enough to fill in the missing letters in the following phrase:

T-E-S- W--CH-S A-E F-L-Y G--R-NT-ED

By correctly filling in the missing letters, you can obtain absolutely free a watch, that will equal for time any solid gold watch made, which is sufficiently proven by the large number of testimonials that we have received. Solve this puzzle correctly and comply with our simple condition of which we will write when we inform you if your reply is correct, write clearly, your name and complete address, so that we may without delay inform you of your success.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Distinctive - Exclusive

In the higher grade of tea there should be something more in its appeal than merely quality. There should be that distinctive character which separates it from the mass. King Cole Orange Pekoe has a richness of flavor entirely its own. It is the King Cole judgment of what is delicious in a cup of tea.
