

The Telephone Situation

The World at the Telephone

The demands upon the telephone nowadays are enormous. Everybody telephones. As a result the complexities and perplexities of the business were never so pressing.

Wherever you turn, especially in the larger cities of this continent, telephone men are wrestling with the greatest difficulties they have ever faced.

Very heavy demands for new connections have come right atop of world-wide shortage of vital material.

The heaviest traffic loads in the history of the business have come when facilities were lacking because of the scarcity of material and when labor unrest and unsettlement were most acute.

Expanding business in all lines means insistent demand for extension of telephone facilities. The cumulative requirements of a fast growing community like ours tax our resources to the limit!

We were never trying harder than we are today to make our facilities and service meet the demands of a difficult situation.

CROWN PRINCE FORCED TO BORROW TABLE AT WHICH TO EAT HIS FOOD

CHICAGO, March 25—In Serbia the nobility is working fifteen hours a day at any sort of work to be had farming, street cleaning, public kitchens, welfare and reclamation work and in Belgrade Crown Prince Alexander sits upon a borrowed chair and eats from a borrowed table. This fits in very nicely with the new order of things in Europe, but Helen Losanich is here plead for some assistance, in caring for Serbian war orphans. The nobility will get by somehow but the helpless children, are in dire need of help.

Miss Losanich says there are 300,000 half orphans, 70,000 orphans and thousands of other children whose parents are unable to provide for them. The orphanage in Chachak formerly was used for a barracks. Its heating system is ruined, and there are no window panes. Contagious diseases break out frequently and the orphanage workers are sadly hampered by lack of clothing and medical supplies.

"We need these children for the rehabilitation of Serbia, which is an agricultural country," said Miss Losanich, who is understood to be the representative of the crown prince. With assistance from America, the Serbians are establishing small orphanages in various towns, but they have an immediate and vital problem. Starving children or those suffering from disease must have attention at once which accounts for the drive now on in this country to raise a \$2,000,000 fund and upon success or failure of this prospect hangs the fate of thousands of little ones and the future of Serbia.

SHOT SON TO SAVE HIS SOUL WAS EXCUSE

CHICAGO, March 25—Frank Pinano, jun., today was at the County Hospital with three bullet wounds in his body. Frank Pinano, sen., was held at a police station where officers said a murder charge would be placed if the 18-year old boy died.

"I shot him to save his soul," the aged man told the police. "I would rather kill him myself than have the police do it. For months I have been worried every time I heard of a 'stick up' for fear my son had been killed. I tried to get him to buckle down, but he would not do it."

Frank, jun., according to court records slipped into a near crime record when he was fourteen years old. Two years later he had become a recognized gangster, and repeatedly cognized gangster, and repeatedly was arrested. A year ago his father carried him bodily to the police, and had Frank jun., confined to a boys' home. Two months later he was released at the instance of Mrs. Pinano.

Between sobs, the aged father told the police of how for two years he had herded his family of ten other children to the Church of Our Lady of Pompeii on Sunday, but that Frank jun. always was missing—"hanging out with his gang."

Last night, Pinano sen., continued, he determined to make a final effort to reclaim his boy. Encountered with friends at a street corner, the youth sneered, and walked away to escape "being bawled out by his goody-goody old man," the father said, and he fired five times. The bullets hit Frank Jr. in the legs and the third seriously wounded him in the back.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

C. N. R. WILL NOT ELECTRIFY LINE

"The rumors in connection with the electrification of the roads operated by the Canadian National Railways are unfounded, so far as the general system is concerned," said President D. B. Hanna yesterday. "We have taken over the railway known as the Toronto Eastern Railway, and also some other lines, and we have an agreement with the Hydro to sell these roads to the Hydro Commission, and when taken over by the commission they will naturally be electrified. This also concerns that line known as the old Central Ontario Railway, where passenger traffic is far in excess of the freight transportation, but

this applies to that section only, not to the Central Ontario Railways in general, some people have understood from my speech to the Canadian Club in rockville.
"So far as the increase in rates is concerned, we are simply marking time awaiting the decision of the United States Interstate Commission of Railways," he said. "The Railway in that country has practically agreed that the railways are entitled to an increase, and it has been our policy so far to follow generally the United States in that matter." Mr. Hanna said he did not think that the increased motor traffic would have any effect whatever on the traffic on the railways.
