City Council.

The Minister of Agriculture asked for information about certain lands applied for near Windsor Lake, and he wished to know whether the said lands were within the boundaries of the reserved water shed that the Council is expropriating. A plan will be sent to the Minister of Agriculture.

Mr. M. A. Bastow offered to supply kerosene oil to allay dust on the street. The matter was deferred.

The Commercial Cable Company asked the Council to reconsider their application for permission to dig up the streets of the city in the East End in order to lay their cable right into the town, and to allow them to have the privilege of doing so at a lower rate than \$2,000 a year. The question will be taken up later in the season when the full Board is present.

Miss M. J. Malone sent in a complaint about the annoyance caused by the smell and smoke from the Tobacco Factory (Imperial), and asked that the Council order the Company to raise the chimney higher.

Fred Moore asked to have the sewer extended on Freshwater Road. The Council will do this and will levy a tax on the vacant land through which the sewer will be laid. The tax will be remitted when the land is built on.

John J. Neville sent in a complaint that matter is being deposited in the watering troughs of the city. He asked that a continuous flow of water be secured to keep them clean.

F. W. Knight wrote about the subject of reduction of fire insurance premiums and wanted to know whether the Council intended to supply a harbor fire boat. The Premier will be interviewed on the question.

Mr. I. C. Morris wrote to say that the hours for watchmen on the street cuts were too long. He advised that two watchmen be employed to relieve each other. Nothing will be done in the matter.

Harvey & Co. sent in a complaint of the insufficient water pressure at oil house. Orders were given to the Engineer to investigate.

Miss Furlong asked leave to put up a storm door. Granted, provided it be taken down in the spring.

H. O. Herder and J. C. Ryan asked permission to install motor engine. Applications were referred to the Engineer.

The plans of printing office for Daily News sent in by Butler & McDonald were approved.

On report of Engineer Ryan Job's Cove will be repaired at a cost of \$200.

The Health Officer reported one case of scarlet fever and two of typhoid for the week.

A sewerage pipe will be laid on Dunford Street on the mention of Councilor Channing.

The Plumbing Inspector reported that 98 people had installed sewerage during the year.

Councilor Martin proposed that the name boards that had fallen off several street corners be replaced. Motion carried.

After passing the pay rolls the meeting adjourned.

Fellow Citizens!

Just a few words on
This momentous occasion.
Don't wait for an attack of
the grippe to force you to
buy your

**HEAVIER
UNDERWEAR,**
get it now and be ready for
the drop in temperature.

We've imported a fine
stock of the Best

Unshrinkable Underwear
from the best mills in the world. So we are ready to give
you exactly the kind of UNDERWEAR you want, and at the
LOWEST PRICES:

\$1.00 a garment up.

PERFECT FITTING UNDERWEAR

Couldn't Get Shelter. S. S. Prima Arrives.

There are now a large number of outport people in the city, and as a result all the boarding houses in the city are taxed to their utmost capacity. By the Prospero there arrived last night 135 passengers, and most of these people had a hard task to get shelter. Several men and women tried house after house but all were filled up, and some private houses had to receive the visitors, who otherwise would have to seek shelter in the lockup. Mr. A. Poole, on Adelaide Street, refused lodging and board to forty applicants.

Injured Man Arrives.

By last night's train Capt. James Carroll, of Placentia, arrived and was taken to Hospital in the ambulance. Capt. Carroll arrived at St. Lawrence in his schooner, the Annie B., on Wednesday after the vessel was badly buffeted in the stormy weather of Monday and Tuesday, as reported in the Telegram. The main boom broke and falling on the wheel wrecked it, also breaking Capt. Carroll's leg. He was treated by Dr. Smith's assistant, and as the break was a bad one he suffered intensely. The captain's wife accompanied him to the city, as did also Inspector Collins, who is his brother-in-law, and every attention was given him both on the Argyle, in which he arrived at Placentia, and also on the train.

Lunatic Arrives.

Const. Grouchy arrived here last night with a woman for the Lunatic Asylum. The poor creature has been demented for some time past, has been very violent the past few days and had to be carefully looked after on the train.

Pupils Welcome Him.

When Sir Thomas Grattan Esmonde visited the Convent of Mercy Schools, Military Road, yesterday, he received a hearty greeting from the good Nuns and pupils as well. An original ode of welcome to Sir Thomas was sung by the talented daughters of Capt. T. Fitzpatrick, Misses Alicia and Elsie, while the pupils also sang in unison "Believe me if all those endearing young charms." Sir Thomas complimented teachers and pupils alike on the excellence of the Convent as an educational institution.

The Prospero Here.

The S. S. Prospero, Capt. A. Keen, arrived here from the Northward at 7.15 last evening. Leaving on the 5th inst. she had fairly fine weather on her voyage north, which continued until Monday past, when while on the run from Battle Harbor to Quirpon she experienced a N. N. E. gale with a big sea and was pretty badly buffeted. On reaching Quirpon the ship lay up there for the night out of the storm. She left next day and since had very stormy weather up to reaching this port. Thursday she had a very severe snow storm which did not cease until late at evening. She brought a full cargo of fish, oil, etc., and the following passengers:—

Messrs. Croncher, Moore, Jackman, Mrs. Osmund, Roberts, Hodges, Scott, Rees, Simnett, Cook, Maddock, Rev. G. Templeton, Ollthead; Messdames Taylor, House, Jackman, Ewan, Curtis, Rees, Reader, House, Kennedy, Adams, Blanchard, Boone, Winsor, Adams, Fitzpatrick, Curtis, Clark, McEwan, Blandford, Rees, Reader (2), Graham, Morris, Callahan, Donnelly, Kent and 93 in steerage.

Football Contest.

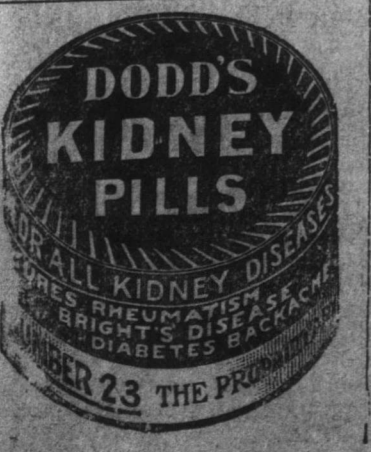

Bishop Feild College team were beaten by one goal to nil in the match with the boys from H.M.S. Brilliant last evening at Llewellyn Grounds. The game was a lively one and some fine combination play was witnessed. The Fieldian team were: Temple, Rowsell, Rendell, Jerrett, Shaw, Winter, Wood, Bernard, Trebble and Raley.

Schr. Almost Ashore.

As Mr. P. Keough's schooner, of Caplin Bay, was running from Petite Fort to Little Paradise on Tuesday night, in a gale of wind, she narrowly escaped going ashore and had to anchor under the shelter of Long Island all night. She had her foremast torn up in the gale and had considerable damage done to her head gear.

A Record Salmon.

By the last mail Mr. Charles A. Walker the well-known artist and expert on foreign pictures, 20 Beacon Street, Boston, sent me a photograph of the monster salmon he took on the fly at Delaney's Point, Little River, Codroy. When he first struck the large fish it made a mighty leap and then rushed down the river. For an hour and three-quarters Walker fought the big salmon, at last it became exhausted and turned on its side, when the guide, Laurence Delaney, waded into the pool waist deep and cleverly gaffed the fish. The gaff broke but fortunately did not pierce and Delaney pulled the fish—making a terrific struggle—ashore. It was sometime before it was weighed when it tipped the scales at 41½ lbs., but it was fully 42 lbs. when first captured. It was 47½ inches long and 30 inches in girth. It is the largest fish taken in Newfoundland with a fly up to this date. J. F. Daggett, of Boston, captured one of 38 lbs. Mr. Wagstaff took another of 33½ lbs. The record fish captured by Mr. Walker was taken on a No. 6 grey double hook. At Fox Island River Mr. Charles A. Walker caught some very fine sea trout—one after being cleaned and gutted weighed 10 1-3 lbs., as it came out of water it must have been nearly 15 lbs. Quite a number of persons were present when Walker landed the big fish, and that evening there were high festivities at Tompkins's. Both Mr. Walker and Mr. Daggett are great admirers and dear lovers of Newfoundland. They have been coming to the West Coast for the fishing now for a good many seasons. On the 13th September, on the same trip, Mr. Walker took another big salmon weighing 28½ lbs. I shall endeavour to make Newfoundland known to the world, not only for its magnificent scenery and its lordly caribou, but also for its splendid salmon and trout. Mr. Walker is an artist as well as an expert angler. He is making a fine picture of the big fish and giving me a copy for the new edition of my Newfoundland Guide Book.

GRAVEL, RHEUMATISM, BRUISES, DIABETES, BACKACHE, NEURALGIA

23 THE PROMENADE

Man's Narrow Escape.

When the schooner Mary J. from Petite Fort to St. John's, was passing Cape St. Mary's, Thursday night, she was beset with snow squalls and received a drubbing. Some of her sails and gear were damaged, and in the jibing of the boom the sheet block burst and narrowly escaped hitting James Fowler, one of the crew. It passed his head by a couple of inches. Had it hit the man he would have been killed instantly.

Twitching of the Nerves

Wonderful cures brought about by DR. A. W. CHASE'S NERVE FOOD. It is only by watching the symptoms of nervous exhaustion and applying restorative treatment that you can ever hope to ward off locomotor ataxia and paralysis.

Mrs. E. J. Vanderburgh, of Eastern Welland Ave., St. Catharines, Ont., states:—"For twenty-one years I was badly afflicted with heart trouble, nervousness and cramps in the limbs, twitching of the nerves and neuralgic headaches. I became weak, debilitated and emaciated. My condition was distressing and I was made worse through worry and loss of sleep.

"I tried a hundred remedies in vain after having used half a dozen boxes of Dr. Chase's Nerve Food my old troubles had entirely vanished, and I was enjoying better health than I had since girlhood."

Such cases as this prove the wonderful efficiency of Dr. A. W. Chase's Nerve Food. It cures in Nature's way, by enriching the blood and its benefits are lasting. 50 cts. a box, all dealers or Edmanon, Bates & Co., Toronto.

OUT OF THE STORM.

The s.s. Fiona harbored at St. Lawrence yesterday out of the storm. She will proceed to Flower's Cove when the storm abates, calling at Harbor Briton on the way.

MINARD'S LINIMENT RELIEVES NEURALGIA.

A Dog's Sagacity.

Yesterday evening a big dog exhibited remarkable sagacity on Military Road. The brute while laying in the centre of the street was unconscious of the swift approach of an automobile until it was almost upon him. The animal jumped up when the machine was a short distance away and had not time to avoid it. He, however, did the next best thing, and making a rush at the carriage leaped completely in over the front and landed between two lady passengers in the vehicle much to their consternation. The beast's quick decision to jump and his promptness in acting on it saved his life. Before the auto slowed down the animal jumped out; showed every symptom of terror at his narrow escape, and ran down over Cochrane Street howling.

Wanted An Earthquake

Dr. Maclagan greatly appreciated the point of a reply which the witty vicar of a sleepy Yorkshire village sent to him when asked to lend his church for the purpose of giving the people of the district a "quiet day" for meditation. "My dear Lord Archbishop," wrote the vicar, "your very kind letter to hand. But what the people in this village want most in their spiritual life is not a 'quiet day,' but an earthquake."

CARD TOURNAMENT.

The first prize in the card tournament at the Mechanics' Hall last night was won by J. Wilcox. A hundred players took part. W. O'Toole won second prize.

Twisting of the Nerves
