Gas and Hospitality.

The sound of motor wheels heralding the arrival of unexpected guests has no terrors for the housewife whose menage is run on up-to-date lines. While the visitors are removing the traces of travel, with the hot water which a gas water-heater keeps always "on tap," a match to the gas fire makes the drawing room a place of warmth and pleasantness for their reception; and the children love to "help mother" by toasting the crumpets before the clear and smokeless glow.

The gas cooker (or the modern gas trivet by the drawing room gas fire) boils a kettle of water in no time, and within a quarter of an hour after their arrival the guests are enjoying a cosy chat over the cup that cheers. Should they be persuaded to stay, the invaluable cooker makes it possible, even at such short notice, for the experienced housewife, after a raid upon her emergency store cupboard, to set before them a dainty dinner of which no hostess need be ashamed. Gas means ever-ready hospitality.

We Know Just How You Feel!

You need an engine for your boat and you are worried almost to death trying to decide which is the best one to buy. One fellow tells you to buy his machine because it is cheaper than others.

Another firm advises you that they have been in the engine business longer than anyone else and therefore their machines are the best.

Then along comes another chap with an engine which he claims is entirely new and better than anything else on the market.

NOW LISTEN.

DON'T buy an engine or any other piece of machinery because it is cheap; probably it has been made cheap.

DON'T experiment with new designs, let the other fellow do that.

DON'T depend too much on what any manufacturer says about his own product. Ask someone who has used it.

We would like to give you names of parties using FERRO Engines.

Write for catalogue with prices and terms, also ask for list of prominent men throughout Newfoundland who are using FERRO Engines. Ask them what they think about the FERRO.

L. M. TRASK & CO.,
