

## TO-DAY'S MESSAGES.

**BORAH AGAIN.**  
WASHINGTON, July 25.  
Postponement of Allied debts re-funding, until after the proposed Disarmament Conference, was advocated in the Senate to-day by Senator Borah, Republican, Idaho. If foreign governments are unable to agree with United States on disarmament programme, he said, "United States people will be justified in insisting that they promptly meet their debts and interest also."

**NO COMPROMISE.**  
DUBLIN, July 25.  
The Irish Bulletin, official organ of Dail Eireann, dealing to-day with comments in the British press on Irish negotiations, expressed resentment at hints that refusal to accept reasonable terms will result in a renewal of terror, and declares that Ireland has its own views, and will accept nothing which is the negation of the right of self-determination. On the contrary Ireland will return to the will of the people, rather than accept anything compromising her national honor and national independence.

**WAITING ON JAPAN.**  
WASHINGTON, July 25.  
If the expectations of officials here are realized, the next day or two will see Japan's attitude towards the proposed Disarmament Conference definitely defined, and the way cleared for more formal diplomatic exchanges that are to actually bring the Conference into being.

**POLICE RECONSTRUCTION.**  
BELFAST, July 25.  
Plans are under consideration for the complete reconstruction of the Irish police force, and the early disbandment of Auxiliaries. Proposals to this end will be submitted to the Irish Executive to-morrow.

**HERMAN REGAINS BELT.**  
NEW YORK, July 25.  
Pete Herman of New Orleans regained the World's bantam weight championship at Ebbett's Field to-night, by receiving the Judge's decision over Joe Lynch of New York, after a fifteen round bout. Herman, staging a sensational comeback, had the better of thirteen rounds, one was even and the other went to Lynch.

**MAURETANIA ON FIRE.**  
SOUTHAMPTON, July 25.  
Fire broke out to-day in the first cabin of the Mauretania of the Cunard Line, a sister ship of torpedoed Lusitania, and spreading rapidly, developed into a most serious conflagration. At eight o'clock to-night, many hours after the outbreak, flames were still eating into the interior of the great vessel, and it was certain that fire fighters would be at work throughout the entire night. The fire is supposed to have originated from a lighted cigarette dropped upon carpet in the main saloon.

**POLITICAL BLOODLETTING.**  
ROME, July 25.  
Twelve Communists, and one member of fascist or extreme Nationalists, were killed to-day in fighting in the village of Roccastrada, near Grosseto, Fascist terrorized village.

**INDEPENDENCE DEMANDED.**  
LONDON, July 25.  
Nothing less than National Independence will content Sinn Fein leaders. The Irish Bulletin, official organ of Dail Eireann, makes this declaration from headquarters in Dublin, while nothing is actually known of the nature of Government proposals, beyond a general outline of Dominion Home Rule and fiscal autonomy. Bulletin contains an outburst against the assumption of the British press concerning negotiations, which appears to show that proposals are unsatisfactory so far as Southern Ireland is concerned. A British Cabinet Council, to-night, decided to bring the Session of Parlia-

ment to an end on August 29. "Unless Irish settlement makes an autumn session necessary." This provisional decision is taken to mean that the Government is still hopeful of peace in Ireland. Lloyd George declared that all published statements regarding terms of settlement were inaccurate.

**TURKS IN RETREAT.**  
ESKI SHEHR, Asia Minor, July 25.  
Greeks have entered Eski Shehr, headed by Prince Andrew, but did not stop there. They continued their pursuit of retreating Turks into the open plains beyond the city. The Greek advance was made with the utmost rapidity by night and its path was lighted by scores of immense bonfires all along the road and up the mountain side, consisting of burning villages, which had been fired by retreating Nationalists. Turkish prisoners say it is the purpose of Kemal Pasha, if he must withdraw in this district, to leave the Greeks nothing but homeless refugees to feed. Roads are choked with fleeing Turks, refugees from burning villages making their way towards Brussa in carts and on foot. They say their villages were looted by Nationalists before being set on fire.

**TURKS TRANSFER SEAT OF GOVT.**  
LONDON, July 25.  
The Turkish Nationalist Government, owing to successful Greek advances in Asia Minor, has been obliged to transfer the seat of its Government to Sivas, according to Constantinople despatches to the Exchange Telegraph Company.

**HEAVY LOSSES.**  
ATHENS, July 25.  
Announcement by the Greek official agency, late yesterday, said Turkish losses in killed, wounded, prisoners and missing amounted to 75 per cent. of their entire fighting strength in Asia Minor.

**FIRE PUT OUT.**  
SOUTHAMPTON, July 25.  
A fire, which broke out yesterday on the steamer Mauretania, while she was lying at her dock here, was extinguished at four o'clock this morning. Decks C, D, and E were completely destroyed amidships.

**WILL MEET IN PARIS.**  
LONDON, July 25.  
The Allied Supreme Council of the League of Nations will meet in Paris on August 4, according to an official announcement this morning. It is understood the session will be brief, dealing only with the Silesian question. Lord Curzon and A. J. Balfour will represent Great Britain and it is improbable that Mr. Lloyd George will be able to leave London.

**In Different Classes.**  
(From the Boston Transcript.)  
A visitor in an Australian home inquired of his host's little son, "Do you go to school now?"  
"Yes sir."  
"And what do you learn—reading, writing, sums?"  
"Oh, yes, and I learn religion, too."  
"Religion?"  
"Yes, I learn the little religion which teaches that we all come from Adam. But my older brother is in a higher class; he learns the big religion, and that teaches that we all come from monkeys."

## DIAMOND DUST

Nothing But the Truth—Without Fear or Favour.

**THE MOUNT CASHEL SERIES.**  
The Irish motto last night was "Soe et taum"—for while their football section were treading the Cadets, across the road the B.I.S. baseballers were hammering the champion Lions in the Mount Cashel series. There was only a small attendance, due to the importance of the footer game, but the game was well contested and very interesting. The first clash was between the Cubs and C.E.I., and things went along very nicely until the fourth frame when the Hall gang smote the old pill here and there and everywhere and the fusillade of hits caught the Institute unawares. For a time it was an endless procession of Cubs around the sacks. They also did some heavy poling in the final round, with the result that they waited home victors by 11 out of 10. Canning was in great form and allowed only four scattered hits.

The second stanza produced some excellent ball between the Lions and B.I.S. Rocky Donnelly was on the mound for the latter, with Robertson twirling for the Red Legs. The first round was fruitless but in the second the green-and-gold youth crossed twice through fielders' errors. Nothing undaunted, the clan of the famous Hiltz went to it and equalized matters. The third found both teams striving for supremacy, with the Lions successful in grabbing one more. In the fourth the Irish equalized matters, and the fifth found both tied. In their frame the Lions could not improve their score but the Irish did, and with greatest of spirits they go to Mount Cashel to-morrow afternoon to play off with the Cubs for the magnificent silver cup which has been presented.

Lives of some great men remind us, We may toll with brain and mitt, And departing leave behind us Footprints where we used to sit.

**TO-NIGHT'S GAME.**  
There is a great chance for the C.E. I. in to-night's regular League game at St. George's for the Cubs are sadly crippled by the absence of some of

their regular men. If the Institute sluggers can get wise to Canning's offerings they will give the old-timers a great run for their money. It will be remembered that in their former League game the maroon-and-grays gave Claude's outfit a great fright, and they hope to do even better to-night. According to the News this morning Jimmy Alderdice has discovered a new find who promises great things, and will be seen in action to-night. Lamping the horizon we can see nothing in sight except of course A. Harty himself. The umpires will be Messrs. Chesman and Fulmore.

**YOU SAID IT, BO!**  
Buffalo, July 17th.—Jersey City lost the last game of the series to Buffalo, 6 to 1 here to-day. Umpire O'Brien and Pitcher Tomlin came to blows over a decision. The ump used his mask cutting the pitcher's face. The hurler planted a haymaker on the official's left eye, knocking him down. Both were arrested. Four Bisons were ejected from the game for arguments with Umpire O'Brien.—Ex.

Ches says he can handle any pitcher in our League without using his mask.

**NAUGHTY CHILDREN.**  
Claude Hall, manager of the Cubs, and Jimmy Alderdice, manager of the C.E. I., were yesterday afternoon hauled before the Bar of the House for having the temerity to take upon themselves the liberty of postponing games without permission of the Baseball Executive. After drinking in all the unkind and harsh things that were said about them, and absorbing the rules laid down, they both made the amende honorable and were let off by Judge Orr with a caution as it was their first offence, which caused our poet to break in thusly at the meeting:—

Claude and Jim mused their schedule up, they say, It was a wicked and a fearful thing, Before they did, the world seemed bright and gay, But now the universe is worrying.

### The Obliging Don.

(From the London Morning Post)  
It was winter and a young lady was being shown over the gardens of Worcester College, Oxford. Her guide was a charming and learned old don. As they walked along, he was intent on the trees and the water and the different walks. Presently two men in running clothes passed them. The don did not notice them, but the lady shivered. "Dreadfully cold," she said, "to be without stockings." The don started, blinked, stammered, "I'd—er—I think perhaps if you—er—my wife I'm sure could lend. . . ." And she blushed beautifully.

### Council Meeting.

After a week's adjournment the Legislative Council meets this afternoon when the principal matter for discussion will be the Municipal Indemnity Bill. At the last session when this Bill was in Committee, Sir P. T. McGrath raised the point as to whether the wording of the Bill should be within the Municipal or Electoral limits of St. John's. The matter of compensation for lands taken and monies expended during the relief works of the same speaker and the information was asked as to the respective responsibilities of the Municipality and the General Revenue of the Colony in the matter.

### Will Gibbons Be Able to Win From Carpenter?

New York.—Tommy Gibbons plugging his hand into Tex Rickard's old plug hat and drew out that stic prize, the chance to meet Georges Carpentier for the light heavyweight championship of the world.

Tex signed the St. Paul boy in Madison Square Garden after a long pow wow with Eddie Kane, manager of the rising boxing light. Carpenter and Gibbons will meet in Madison Square Garden during the second week in October.

Rickard holds Carpenter's signature, the Frenchman agreeing to accept any opponent that Rickard saw fit to select before he sailed for France last week.

The weight has been set at 175 pounds, which will be an easy notch for both men to hit.

Rickard has the chance of two places in which to put on his big show—either the pine saucer at Jersey City or in the apple of his eye, that big U.S. swimming tank in the Garden. In signing, Kane told Rickard that he would have Tom Gibbons in New York three weeks before the day of boxing, or sooner if Tex so desired. Rickard would not give out the terms of agreement. It is certain that Gibbons has received the sum of \$60,000, the amount Kane is said to have hinted at in Chicago a few days ago. Rickard said at the time that he would pay Gibbons no such sum.

Gibbons is a lucky man no matter what amount he is to get. Brennan, Mike, Burke and Johnny Wilson asked for the chance to meet the Frenchman for the light-heavyweight title. Eddie Meade said yesterday before he knew of the closing of the match between Tom and Georges that Burke would box Carpenter for nothing if only to get a chance for fame and a crown.

When he found out that Gibbons had won the plum—and it is a plum—he said that Burke would now devote his attentions to every man who thought he had a chance with Dempsey. Right on down the line through 'em all, Burke is going until he has established himself as a man with a chance against the champion.

Tom Gibbons is the famous brother of the once famous Mike Gibbons. Tommy has been coming, while Mike has been gradually sliding down the chute. A larger man than the St. Paul phenom, Tommy found his way into the light-heavyweight and heavyweight classes. He has piled up a long list of knockouts during the last few months, and while some of his victims were not men of the Dempsey type, still they were put to sleep.

In St. Paul they firmly believe that Gibbons can whip Jack Dempsey. Until Carpenter expressed a desire to meet Tommy for the undisputed light heavyweight title, Gibbons seemed to be travelling toward a bout with the heavyweight champion.

Can Carpenter whip Gibbons? That is going to be a many sided argument for weeks to come. Can Gibbons whip Carpenter. Back and forth they'll talk, this one for Tom and this one for George. Rather a good guessing bee in the bud, eh wot?

### Scent Beats Science.

**OUR INFERIOR SMELLING POWERS.**  
Science has done wonders for the sense of sight. Eye troubles can be cured quickly and painlessly, the oculist can give us spectacles when our sight is failing. The telescope diminishes distance; the microscope enables us to see things invisible to normal vision; and with the aid of the micrograph we can take pictures of those things.

By means of the microphone we can hear a fly walk on a catpillar crawl, and instruments have been perfected with an almost uncanny "sense of touch" to serve us where fingers fail. But science is beaten by the sense of smell. This sense has been blunted by the fact that we no longer need for our preservation to sniff the presence of an enemy, or for our dinner to follow the scent of an animal.

Deer can detect the presence of man or wolf from a distance of two miles. Yet science cannot tell us why, though it has examined the olfactory nerve of the deer. Nor by chemical test can science detect any odour in the air given off by man which would betray his presence to the deer.

### Just a Suggestion.

(From an Exchange.)  
He had not expected much at the little inn, but even the cold roast beef and pickles were stodgy and tasteless.

"And there's nothing else?" he inquired.  
"No, sir," said the waiter, with that grim delight which a certain breed of his kind always take in disappointing hungry customer.

"Dear, dear! That's too bad. Have you no cheese?"  
"Not a bit left, sir."

"Well, haven't you anything in the shape of celery?"  
The waiter hesitated.  
"There's rhubarb," he said.
