The celebrated CHENEY TIES
at \$1.00 to \$1.30 each.**At the City Hall.**

Weekly meeting of the Municipal Council was held yesterday afternoon. Mayor Cook presided and Messrs. Vincombe, Collier and were present. The preliminary business being disposed of, the following matters were given attention:

Communication was tabled from the Secretary of the G. W. Memorial, Garrison Hill, in

which he referred to the necessity of having some of the poles used as stays for the Street Railway and also telephone poles removed. During the week several of the poles which were in the way of the improvements being made at this place, were taken away, but as the removal of the poles carrying the conduit lines would involve a large expenditure, the Council could not see its way clear to arrange for same. A contribution has been promised the Association towards the improvements made, but finances will not warrant

a larger outlay. A largely signed petition was received from the residents and business people along Duckworth Street, protesting against what they considered a very unsatisfactory street sprinkling service. They also called attention to the fact that vendors from the nearby settlements, after disposing of their products, throw hay, moss, boughs, etc., along the street, which gives it an untidy appearance. The Sanitary Supervisor was instructed to arrange to have the main traffic thoroughfares of the city

given better attention as regards sprinkling, and is also to see that the sweepings are regularly and promptly carted away. In many cases the Department is censured for work for which they are not responsible, particularly as regards the above, as same is strewn around after the Department has made its daily rounds. C. F. Garland suggested that the handrail on the west side of Carter's Hill be removed, and that concrete steps and centre rail (similar to that on Garrison and Court House

Hill) be erected. The Council is unable to carry out this suggestion. Thos. Kennedy applied for position as timekeeper on Municipal Works. The Council has no work of this kind to offer, but the application will be placed on file. C. J. Dutoit, on behalf of the Methodist Guards Band, asked permission to hold band concerts in Bannerman and Victoria Parks during the coming season. This matter was left in the hands of the City Clerk, as it is more than likely the other Brigades will send in their applications in due course, and the matter will then be dealt with and arrangements made as hereafter.

Mr. George Hampton complained of conditions near his residence, Mundy Pond Road. The matter was referred to the Sanitary Supervisor for immediate attention. R. W. Horn asked that water service be extended to his dwelling, Alandale Road. The applicant is to be asked to call at the City Clerk's Office and make the necessary arrangements as regard installation and supply.

In the matter of Fish Vendors from the nearby outports throw off all into the city surface drains and gratings, the Health Officer reported instructions had been given the inspectors to look into same, and the guilty parties will be promptly dealt with.

Rev. Dr. Facey stated that he could not, as Principal of the Theological College, Forest Road, withdraw his protest against the erection of machine shop and garage by the Churchill Marine Engineering Works in that vicinity. He considered such an erection near the College would be a serious cause of annoyance to the students. The protest of the Rev. gentleman and also the application sent in by Mr. Churchill were referred to the City Solicitor.

The application of G. E. Taylor to have the sidewalk, Patrick Street, properly graded, was referred to the City Engineer.

The following plans were passed, subject to the approval of the City Engineer, and conditional upon the applicants conforming to the Municipal Act:—Mr. J. Smallwood, (annex) LeMarchant Road; P. O'Mara, (new building) Water Street.

A. Samuelson, Southside, asked permission to erect dwelling, and George Payne to build garage, Bonclody Street. Permits were withheld, until ground plans are submitted.

The question of repairs to the fish market, Steer's Cove, were discussed. As this building is in very bad condition, it was thought advisable to have same replaced by a new market, and the City Engineer was instructed to prepare plans and specifications for next meeting.

Councillor Ryan called attention to the necessity of having a dam built at the Mundy Pond River, which he stated would be of great benefit for fire fighting purposes, particularly in view of the water mains not being extended to that locality. The Engineer is to submit estimate of cost of this undertaking.

Report of Health Officer for the week showed 18 new cases of Scarlet Fever and three of Diphtheria.

Some time ago the City Engineer reported that the old 24 main at Mul-lowney's Hill was very much corroded, and that it would be necessary to lay a new line of pipe for a distance of some two thousand feet. This work is most urgently needed, and must be undertaken if ample water supply is to be maintained for protection of the city in case of a conflagration. The required quantity of pipe arrived by the S. S. Digby during the present week, and arrangements are now being made to begin the work with as little delay as possible.

The City Clerk submitted report on Revenue received during the past few weeks. A great number of motor cars have been registered, but there are still a number of owners and drivers who have not complied with the Regulations. The police are obtaining information with regard to these parties, and summonses will be issued in the course of a few days.

It was brought to the notice of the Council that the fencing around vacant property, Duckworth Street, east of the Custom House, should be repaired. The owners of the land will be notified to have this fence made secure immediately.

The office of streets was talked over. Much as the Council would like to use the Tarris treatment on a larger scale than heretofore, their restricted finances make it impossible to do so. The upkeep of the city works—both repairs and new construction—must be paid for out of the Current Revenue, which at its best is insufficient to meet this season's supply of Tarris is to be placed, and same will be used to the best advantage.

Reports of the City Engineer, Plumbing Inspector and Sanitary Supervisor were tabled. Requisitions for several departments were granted, and the accounts for week ordered paid.

The meeting then adjourned.

Why Whine Over it?

NEW YORK, May 31.—(By Canadian Press)—Six patrolmen have been called upon by First Deputy Police Commissioner John A. Leach to explain how eleven barrels of wine they had been assigned to watch after a liquor raid changed to water between 6 p.m. January 23, and 10 o'clock next morning. The liquor had been confiscated by prohibition agents, who found when they came to cart it away, that despite the vigilance of the patrolmen on guard, water had been substituted in eleven of the barrels.

"Dr. Jack" to be Shown at the Nickel.**LLOYD FINDS MODEL FOR NEW ROLE.**

Some people will wonder where Harold Lloyd found the "model" for his characterization in "Dr. Jack," his newest feature comedy, which will be distributed by Pathe Exchange, Inc. The medical profession is full of "Dr. Jacks," or "Dr. Jacks," to be more correct. While Lloyd was making his new comedy, he had visits from many well known physicians, who gave him valuable advice in the development of his story. One was Dr. Peck, an eminent eye, nose and throat specialist of Chicago.

When Dr. Peck had the story of "Dr. Jack" outlined to him by Lloyd, he laughed heartily, for it brought to his mind "Dr. Sunshine," as one of Chicago's foremost specialists in children's diseases is known.

"Dr. Sunshine" affects his cures just as Lloyd does in "Dr. Jack." Sunshine, a little candy, and wonders are worked by this noted Chicago physician, in his own peculiar way. In his medicine case—or what should be his medicine case—he carries jars of jelly, lollypops, and most everything else but medicine. Lloyd had never heard of this doctor before his visit from Dr. Peck, who assured him, however, that in his many years of practise, he had met many physicians who will probably be known as "Dr. Jacks," when the new Lloyd comedy is exploited throughout the country.

THE INCOME TAX. While I am counting up my pelt To swell taxation's store, I find out things about myself I never knew before.

WHAT IT MEANS. The usual advertisement: "The person who picked up pocket-book on Cedar Avenue is known," always means "Maybe the person who got it is boob enough to bite on this time-worn gag."

The Lighter Side.**INCOME CRACKS.**

The income tax, oh, the income tax. It's big enough to break our backs; We can't have wine and we can't have beer, And 'ats how come 'at tax is here.

The income tax, oh, the income tax. Just watch it grow and watch it wax; For the bootleg-guy must have his fun; He pays no tax—the son-of-a-gun.

Reformers' waves are our welfare's graves; (Their jobs their only resources). So we weep and vote—they've got our goat— We have no other resource.

The income tax, oh, the income tax. Our fortunes go with mighty whacks; For the cups that cheer (all forever here) Are sold tax free—now, ain't that queer?

Ryan says you cannot get blood out of a turnip, neither can you get hair out of a bottle.

Mary's Chevy had a horn, But the steam train had no bell. The steam train couldn't stop in time, So the Chevy went to k—

When a man and his wife are drawn on the same jury they might as well pair their votes and stay at home.
