The above drama which is to be presented at the opera house on Thursday evening promises to be a great success. The large cast is composed of the best local talent, under the guidance of the eminent actor, Mr. Harry Townsend, who has been engaged to direct the stage and play his great part of Damon. Handsome and appropriate Grecian costumes have been purchased and the play will be put on in an elaborate manner. People are advised to secure their seats early as there is sure to be a crowded house. The plan opens this morning.

The Humane Society Begins Work.

Mathias Bowron, a laborer, who lives near Lambeth, drove to the city yesterday morning with a very old, lame and wornout horse. The poor animal was little else than skin and bones, and had two bad sores on its shoulders. It had very few teeth and could eat but little. A veterinary surgeon was of the opinion that the horse was entirely unfit for work and that it was a case of cruelty. On promising horse was entirely unfit for work and that it was a case of cruelty. On promising never to work the horse again, the magistrate allowed Bowron to go on suspended sentence. Humane Society Inspector Minhinnick laid the complaint. The animal was subsequently purchased by the society, and chloroformed to death.

Chrysanthemums.

The popularity which this the queen of the autumn has attained is shown by the number of exhibitions that will take place during the next few weeks, no less than 37 being announced. The weather has been unusually favorable to develop fine plants, and from present appearances the City Hall will be taxed to its utmost to hold the number of exhibition plants that are being grown, and which, without doubt, are far superior in quality and variety to those exhibited last year. The committee of arrangements have the details well in hand. A day will be set apart for school children, when they will be admitted at a reduced rate. With a view of increasing a love for horticulture, and the popularity of this world-renowned and justly-popular flower, the Florists' and Gardeners' Society intend distributing next spring several hundred plants to school children, for which prizes distributing next spring several hundred plants to school children, for which prizes will be offered at the next fall exhibition.

TRADE FREEDOM THE ISSUE.

A Former Londoner on the Letters from the Clergy.

Change for the Better Can Only be Brought About by the Pocket Argument.

To the Editor of the ADVERTISE I have read your columns teeming with "cures for corruption," furnished by the clergy. What do they all amount to? Nine-tenths are recommendations to place in Parliament "men of character," to inculcate in the schools and at home "reliament is short to render present the schools and at the property of the schools and at the property of the property culcate in the schools and at home "religious principles," in short to render presently effectual the moral and religious teachings of the pulpit, which have been in vogue for centuries. These cures may begin to take effect half a century hence; although, judging by the past, half a century is too short a space for the medicine suggested to operate. What we want century is consisted. What we want is an immediate cure, not the inauguration of treatment which will culminate in the

A TENEMENT DEATH-TRAP. Fatal Fire in New York City_Three Persons Perish and Several

Many a woman shrinks from consulting a physician about functional derangements and weakness, and prefers to suffer in silence. She is sad and pensive, and her neglect of her ailments will prove expensive. It may cost her her life. One of the most skillful physicians of the day, who has had a vast experience in curing diseases peculiar to women, has prepared a remedy which is of inestimable aid to them. We refer to Dr. Pierce's Favorite Prescription, the only remedy for woman's peculiar weaknesses and ailments, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case or money refunded.
