El. C. Becher, broker, Bank of Commerce building, received the following by private wire from Bartlett Frazier & Carrington today:

New York, Feb. 11—Noon.—There has been a sort of holiday tone to the trading today, and activity has been restricted to some extent. Professional traders domi-nate the market, and their operations are confined to scalping profits out of fractions. The exception to this was the bear attack on New York Central, lead by a well-known operator on the short side. The stock broke easily and it has exhibited no strength of late. It is said that the company will issue new stock to finance its terminal improvements, or that it will need money in some way. This is the old bear argument, of course, but it is effective. A Matter of Choice.

Really, as a matter of choice, we would rather have 10 persons deposit \$ 1.00 each than 1 person \$ 10.00 10 persons deposit 10.00 each than 1 person 100.00 10 persons deposit 100.00 each than 1 person 1,000.00 10 persons deposit 1,000.00 each than 1 person 10,000.00

True, these smaller deposits give us more labor in caring for them, still, we prefer them for the reason that ten customers telling their friends of our facilities for handling such accounts bring as more business than one larger depositor would.
