DUKE OF COURLAND'S DEMAND. Under the protection of so powerful an overlord the honest Dutch merchants probably promised themselves a period of peace; but in 1664 the Duke restitution of Tobago from the Dutch. This was, of course, refused (among the prehensile folk of Holland it is not a national failing to surrender too easily that which has been once acquired), and the aggrieved duke sought redress at the hands of Charles II. of England, of all unlikely allies. Charles promptly presented the duke with a grant of the Island of Tobago, to which was attached the sole condition that it should be colonized exclusively by British subjects.

Armed with this document, the duke set to work to organize a filibustering while waiting for the dinner bell to expedition, certain merchants of Lon- ring.
