ALBERTA TO SUPPLY **ONTARIO**

Fifty Trainloads of Coal Will Come Into This Province in Few Weeks.

TOTALS 100,000 TONS

Experiment To Bring About Total Independence Backed by Government.

Special to The Advertiser by a Staff Correspondent.

Toronto, March 28.-Canada's first serious effort to make herself less dependent on coal from the United States will take almost dramatic form within a few weeks, when more than fifty trains of Alberta coal will move eastward into Ontario, to be sold to the householders of the province. None of it will be usea for commercial purposes. It will displace American anthracite. An offiannouncement from Queen's Park in regard to this development is

Perhaps even more important are the plans now nearing completion at Ottawa, whereby it is hoped coking plants will be established in all the large centers across Canada with the dominion government subsidies. These subsidies will be given the expectation that soft coal from Nova Scotia will be made into coke to compete with hard coal from the states, and that many industries based upon the by-products of coked coal will be

Means Fuel Independence. These two developments, the find

ing of an Ontario market for Alberta and of a Quebec market—and later on an Ontario market also—for Nova Scotia coal, will bring Canada with-in sight of the day, government offi-cials believe, when she will be independent in matters of fuel supplies.

The Ontario and dominion governments have been working hard on the plan to bring 100,000 tons of coal from Alberta for use in this province. The huge shipment is an experiment, designed to show that coal in large quantities can be moved at the mine mouth and \$2.50 paid for marketing the coal in Ontario, the charge to the consumer here will be \$13 per ton, which is regarded as the thought the householders would welcome Alberta coai, which has proved very satisfactory to citizens who have tried it.

An ordinary train of coal consists of 50 cars, each of 35 tons capacity. whole trainload thus made u

Government Aids Experiment. It is understood that the Mackenz King government is setting aside sum of money to facilitate the Alberta experiment, and that the excess of cost above \$7, if any, of transporting the coal to Ontario, will be paid out of that amount instead of an addition being made to Canadia National railway deficits. Those pro noting the experiment are confiden that the 100,000-ton shipment will convince everybody of the feasibility of making Ontario a permanent mar-ket for Alberta coal

The Weather

FORECASTS winds: fair today and on Sunday; not much change in temperature.
The depression which was over the Ottawa Valley yesterday morning is now cen-tered in New

England.

Another important depression is developing in the western states and Alberta, while to the northward in the Mackenzie valley the pressure is high and the weather very cold.

Snow is falling in Eastern Ontario. Temperatures.

provements favored by city town getting into the new addition next planners Construction of a new September. bridge at the foot of Richmond street and the building of a new thoroughfare along the course of the old Traction creek will provide a short, direct route that will be one of the most important town planning de-velopments in the history of the

ity. By means of a proposed street which will link Elmwood avenue at Ridout with Richmond street south, the great bulk of traffic from London South would be centered on this route. The scheme is partly the re-Richard Arthurs Was Burned sult of contemporary plans and is founded on recommendations of Thomas Adams, town planning ex-

> Partial development of this scheme is expected this year, when part of the proposed street from Elmwood avenue to the river will come into being. Plans now being revised by Col. W. M. Gartshore, who owns property in the vicinity of Carfrae Crescent, call for a street back of the Crescent. This street will be two short blocks in length, running to a Contents, a few pennies. The loose blind end at the southwest end and stopping at Carfrae street on the north. Later the street will run northerly across city property to the river, and then the construction of a bridge across to Richmond street will reverse the police have not traced the thieves.
>
> Canadian National officials said this morning that aspiring robbers ness district.

Not Being Urged.

Completion of the scheme is not now being urged by town planners because of the expense of bridge building and purchase of property for the final link to Elmwood avenue. At the same time, the Ridout street route is becoming a more and more unsatisfactory thoroughfare for folk from the south. The heavy grades, the proximity to the Thames park playeround the danger corner at the playground, the danger corner at the public utilities sub-station at Horton street, and other factors make this route a detriment to safe and quick travel.

The old Victoria bridge at Ridout treet enters into its second half century of usage this year.

Much of the traffic to London south

ESTIMATE CUT MADE BY BOARD

Shrinking Plan Is Started and Approximately \$15,000 Reduction Is Made.

CAREFUL STUDY

Total Comes Within \$10,000

Board of education estimates wer reported this morning "to be shrink. ing, but not shrunk.'

The advisory-executive committee. consisting of Administrator V. K. Greer, M.A.; Principal E. A. Miller. M.A., and Principal H. B. Beal, met this morning and scrutinized the estimates with the result that between \$15,000 and \$17,000 can be cut from the estimates by the board at the special meeting called for this

The repor of the advisory-commitee is understood to have pared the puble school estimates to the extent of \$8,000, the Technical high school estimates by \$4,000 and the collegiate institute estimates by nearly \$5,000. Such reductions will bring the board's estimates down to about \$963,140, and \$46,422 for the separate schools, which may also be reduced by about \$3,000, or to within \$10,000 of last year's educational expendi-tures, which amounted to \$999,815. In the public schools the \$2,500 is being dropped for cadet uniforms. this in view of the request of the council and the fact that while the board receives back from the federal government more in time than is paid out for the uniforms only one-quarter of the item would be paid back this

vear.
Repairs and renewals in the public schools are cut about \$2,000 or \$3,000 something over \$2,000.

The bulk of the saving in col-legiate institute estimates will be accommodation will be provided for Direct access to the heart of Lon-don South will be provided from Richmond street, according to imnecessary for a period of two years.

SALE OF BEER BY GROCERS BRINGS WOMEN TO ARMS

Ontario W. C. T. U. Will Make Final Effort to Have Selling Clause Amended.

REGARDED AS MENACE

Bring Strong Influence on Members of Legislature.

Canadian Press Despatch. Toronto, March 28 .- Energetic acivities of the Ontario Women's Christian Temperance Union, in connection with the "stronger beer" amendment to the Ontario temperance act, threaten to make things lively for the members of the legis-

home towns and counties. Although the amendment Gxonians, after rowing about two miles in very rough water, were forced to abandon the contest owing to the water-logged condition of their to the water-logged condition of their Temperance Union is bending its en ergies, provincially and locally, in all the constituencies towards getting the constituencies towards getting some changes into the clause relating to the conditions of selling, and les-sening of the number of places in which 4.4 beer may be legally sold which 4.4 beer may be legally sold.

The proposal to allow the strength ened liquor to be sold in stores has roused the special opposition of the organization. The central executive of the Women' Christian Temperance Union in amplificate signal and the Women's control of the Women manifesto signed by Mrs. Emr Pugsley, president, and Mrs. Mary Edgecombe, has called upon members of the organization all over the prov-

ince to bring the matter before their respective representatives in the legislature and urge them by their vote and influence to avert, at any rate, the proposal to give permits to grocers to sell the new beer.

This aspect of the amendment is oundly denounced as retrograde
