THE CAMPBELLTON GRAPHIC

15 YEARS
A DYSPEPTIC

Forced to Live on Stale Bread and Porridge.

"FRUIT-A-TIVES" CURED HIM

SPRINGDALE, N.B., October, 1914.
"I have been a great sufferer from indigestion for fifteen years. I was forced to deny myself all such hearty foods as beans, meat, potatoes and could not drink tea or coffee. For the past two years, I lived on porridge, stale bread, etc. I had treatment from two doctors, and tried nearly every kind of medicine, but got worse. Finally I saw a testimonial of 'Fruit-a-tives' and concluded to give them a trial. I took nearly four boxes of 'Fruit-a-tives' and they have made me feel like a new man. I can eat all kinds of hearty foods without suffering, and am no longer constipated."

LEWIS, A. W. BROWN.
Many people look on 'Fruit-a-tives' as a miraculous medicine. It has indeed performed what have seemed like miraculous cures in hundreds of cases of chronic indigestion, dyspepsia, constipation and biliousness. 'Fruit-a-tives' is the only medicine in the world made of fresh fruit juices and valuable tonics. 50c a box, 5 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

WHAT CANADIANS
ARE DOING

THOMAS GRIGG
Qu'Appelle

For nineteen years Thomas Grigg has farmed near Qu'Appelle, meeting setbacks, but prospering. Although a Canadian, he and his wife came to the Springbrook district from South Dakota. Generally speaking, wheat-growing has been the mainstay. Horse-raising, also, has received attention to an extent sufficient to lead Mr. Grigg to give opinion that a man can make as much money on a half section of rough land raising colts as he can on a red good quarter at wheat-growing. Hogs, also, are kept, and on different occasions have helped him "out of a tight place." He finds that, as a rule, there is enough feed around to fatten a bunch. The farm comprises 240 acres of which about one-quarter is summer-fallow annually. Wheat is grown for two years, and then oats or barley. Recently, Mr. Grigg has rented his farm for a year in order that he and his good wife may spend the winter in California and take a well-earned rest.

HON. HUGH J. MACDONALD
Police Magistrate
Winnipeg

Mr. Hugh Macdonald who was lately appointed Police Magistrate of the Gateway city was formerly premier of Manitoba. Probably the importance of the magistracy lies principally in the fact that the man he succeeded was the famous late T. M. Doherty, and though Mr. Macdonald is not in his famous father's rank, he is big hearted enough to make the attempt to fill a big man's shoes. Nothing attempted, nothing done is certainly not in his make up. Mr. Macdonald is a son of the late John A. Macdonald, and might have been premier of Canada today, if he had remained in Dominion politics, and followed closely in the footsteps of his dad. But he chose the nearer honors offered by a provincial premiership and got out of the running for the post of prime minister of Canada.

DR. A. BEVERLEY WELFORD
Woodstock

It is well for this country that the doctors take such a large and disinterested part in its public life. True they cannot take an active interest in the larger problems because it would

Dr. A. B. WELFORD
President of Canadian Club,
Woodstock

mean their giving up their professional duties, but in every community you will find at least one medical man taking an active interest in the local affairs.
Such a one is Dr. A. Beverley Welford of Woodstock Ont. who is one of the members of the Canadian Club movement in his district, though the doctor's energies are not confined to this laudable work. He is practically connected with every movement that has for its object the raising of the standard of life.

NELLIE L. MCCLUNG
Canadian writer

Mrs. McClung has lived in Manitoba for the last three years, having come from Owen Sound, and her parents in the very early days of this settlement. However, she is always very ready to explain that she was only a "mere child" at that time, and yet her stories of some of the hardships of the long journey by ox-team from Winnipeg to the point on the Souris river where her parents located, are so vividly told that we are forced to believe that the most have been a very bright child for her years.

Mrs. McClung, who before her marriage was Nellie L. Mooney, received her education at a country school and afterwards at the Central Grammar School in Winnipeg. She taught school for five years and then married Mr. E. W. McClung, who was engaged in the fur business in Manitoba, and they lived in Brandon until last summer, when they removed to Winnipeg, and have taken up their residence on the south side of the city. Mrs. McClung is the author of the Canadian Women's Press club.

Mrs. McClung has written two books, "The Canadian Women's Press club" and "The Canadian Women's Press club".

THE GREAT BEAUTY
OF FARMING

Ald. Butler Pleads For More Interest
in the Most Beautiful of all the
Professions.

At the last meeting of Newcastle Agricultural Society, No. 122, Ald. T. W. Butler, in the course of an able and interesting address, spoke in part, as follows:

"It may seem strange to some of you to see a Lawyer at this table considering this and explaining it to you. I have dug the ground for a living and have tilled the soil. There was a time when the term farmer was a term that meant something degrading. I remember when I went to school and there was a dull boy in the class, the teacher would say, well he will do for a farmer. I remember, even after I came to this town, when I took occasion to go into farming, somebody passed the remark, he looks more like a farmer than a lawyer, and my friend Deputy Sheriff Irving, gave the answer: Well, you can call him a farmer and you cannot pay him a higher compliment. And you cannot pay a man a higher compliment to-day than call him a farmer. Farming does not require a dunce. It is the most beautiful of all the professions. There is more room for brains in tilling the soil than there is in practicing law, and I think I have done fairly decently well for both professions. There is more room for brains in tilling the soil than there is in practicing medicine, or any other profession. I care not what it is, and there is nothing more interesting, nothing more beautiful.

"From the Farmer's Agricultural Teacher of Canada, Professor Robertson, we have the words 'The man with the hoe is in partnership with God.' I do not think he is right. It is a beautiful thought, but the man with the hoe is the servant of God by God's first command.

"The great difficulty of farming is our want of faith in the occupation, and want of faith in the soil we live on. There is not in the world to-day a better farming market than the Miramichi. There is not in the world more fertile lands than those on the Miramichi. There is not in the world purer water than that which flows from our streams and brooks, and there is, best and above all, not in the world a more hardy, honest and honorable people than the people of the Miramichi, and yet we are not seen nor heard, and not a photograph of our rivers, not a sound from our country at all in any of the great papers, and we have been furnishing the best blood that first stimulated the farming industry of the West. We have furnished a large portion of money that goes there. 'It is up to us to get together, study the work we are at, and work together. I say work together. The man who does not work is a pest to the nation.

"One of our great poets said: A nation's peasantry when once destroyed can never be supplied. Wrong. It can be supplied. Encourage the boys to stay at home, encourage the girls to do the same, give both the same chances for education. Marry the girl or boy when ready and impress upon them their first duty in the world, to increase and multiply and replenish the earth."

NA-DRU-CO
Ruby Rose Cold Cream

A toilet delight, with the exquisite fragrance of fresh roses. Makes chapped hands smooth and soft and keeps them so. Preserves the most delicate complexion against exposure to the severest weather. Try it—you'll certainly appreciate it.

Best facilities for taking care of rush orders for repairs of all kinds. None too large—none too small.

MACHINERY TO ORDER

We make any kind of mill machinery to order and carry a stock of Shingle Machines, Double Belzers, Stock Gangs, etc. Let us quote prices on any of these.

We also make a specialty of Consumers, Conveyors and all kinds of Iron Structural Work Mill, Locomotive, and Steamboat repairs promptly attended to.

FOUNDRY & MACHINE WORKS LTD.
CAMPBELLTON, N. B.

FREE SPEECH

Serious trouble is reported from Vancouver, arising, in the first place, from great lack of employment and, in the second, from the civic authorities forbidding the unemployed and their sympathizers, the Industrial Workers of the World and other Labor Unions and the Socialist Party of Canada, to air their grievances in open air meetings upon vacant lots and open spaces where the Salvation Army and others and, for years, the Labor men and Socialists themselves have been allowed to congregate and hold meetings of protest or any other meetings they liked. Very recently the attitude of the authorities has changed and the meeting of the unemployed in an open space a few days ago was forcibly broken up by the police, some of the speakers and spectators being badly cut up. In consequence, the victims and their friends have held indoor meetings since at some of which the British flag has been roughly handled.

The tearing down of the Union Jack which in Great Britain and Ireland protects all political parties—Liberal, Conservative, Socialist, and Nationalist—in holding meetings either in halls or in the open air, was ill advised. The flag should not be blamed for the actions of the Mayor and Council of Vancouver. The wrongs do not make a right. It would seem that something is radically wrong in British Columbia, first, the Public that all men have a right to work at just pay and secondly, that all its citizens are secured the same rights as people are guaranteed in the
