PREDERICTON, N. B., November 14, 1888 The Roads and Streets. many names are mentioned for the various positions, but there seems to During the late heavy rains, the roads in the city, and the conduct of be quite a general agreement that road committee have come in for Blaine will not be a member of Harrisome mild critism in one of our newspapers. Some people are apt to find is not because the man from Maine fault without being thoroughly informed concerning the subject matter for having taken such a conspicious of their complaints, and without even place in the late contest, he is in a taking any pains to so inform them- position to dictate terms, but because selves. In the present instance, we it is believed he does not care to asare satisfied that a careful investiga- sume the responsibilities and labor tion of road matters will lead any fair attached to a cabinet office. There minded person to the conclusion that are several places open to Blaine, but minded person to the conclusion that the one which it is believed he will ing preparations to furnish the E-lison electhe roads and streets committee are
the one which it is believed he will ing preparations to furnish the E-lison electric light to stores, offices and residences in were traversed every few minutes during the dent-elect of the United States and grandson entitled to praise, and not to blame at prefer is that of Minister of England, that town. the Bands of their constituents. On a very nice position with a good the 31st of October, 1887, the road de-salary, partment had overdrawn its account to the extent of \$930, and from that date up to the time the present committee position of Secretary of State, which took charge, a further large sum was is practically the Premiership. Sherexpended for snow ploughing, keeping the back roads open during the in the Government he would find the common that the common the common that excellent means of advancing his winter, and for other purposes. The present committee decided to keep the expenditure for the present year anything. s rictly within their income, and the result has been, that on the 31st of October, 1888, the road account was only over drawn \$50, and it would have been in credit but for the fact that the local representatives did not, New York governorship and Gen. before that date, reimburse the committee for a necessary expenditure on the Brick Kill road which they promised to do, and which the committee fully and reasonably expected would lation. There is no doubt the Repubbe placed to their credit before the lican party have abundance of mate end of the fiscal year just closed. We are sure that this action on the par of the road committee was a wise one. and it leaves the road account at the end of the fiscal year in a better position than it has been for a long time. After these old balances had been wiped out, there was not enough money left on hand to rebuild any of the streets completely, and the chairman of the committee, who has given party. Not only have the Republia great deal of his time to the interests cans elected Harrison and Morton, Preof the city during his term of thee, sident and Vice-President; not only decided that it would be wiser to have they held their majority in the make repairs only to Queen street during the year, and that next year the committee with plenty of money available, there being no old debts to the whole Federal Machine is theirs for the next four years. pay off, would be in a position to have it put in thorough condition. The vote for the Presidency :use of Grand Lake gravel has not CLEVELAND. given the satisfaction that was ax pested, but one of the main difficulties which meets every road committee is Beloware the obtaining of proper material for the making of roads. The stone used in the past for macadamizing has been generally condemned, as it is of New Jeney, too soft and friable a character and South Carollus too quickly, with heavy traffic over it, Texas, such as that on Queen street, grinds into powder. Many people during several years past have complained of

all probability have given a reasonable degree of satisfaction. Next year's Council will have to face the question of the improvement of Queen street. Will they gravel, it will be an 8 page 64 column paper, macadamize or pave it? When Mr. to stand by him in the matter, ap- issue :neared before the Road Committee in reference to the block pavement ques tion, the Mayor drew his attention to the City of Saint John accounts. which showed that the cost for paving two blocks on Prince William street was over \$7000 00, and on this basis it would cost \$14.000 to pave Queen street, with cedar blocks, from Saint John to Northumberland. Mr. Chest. But expressed his doubts as to whether the cost in Fredericton would be so great, but the Road Committee subsequently obtained figures from Mr. Fisher which showed that the cost would reach very nearly the last figures. It is evident that this amount could not be met out of the assessment, it would take a full year's assessment to pave one block, and the only way in which the cost could be met would be by a large addition to the city's debt. We do not believe it will be well to do this at the present time, and think that the citizens for some years to come will have to put up with the streets made of broken stone. It will, however, be the Council's duty to endeavor to obtain for the purpose, a better quality of stone than that which has been used in the

the Council continuing to use broken

stone, and up to this season there was
