

# BUY A WORLD EVERY DAY.

TUESDAY MORNING, NOV. 28 1922.

## LOCAL NEWS PARAPHRASED.

Alderman Booth returned from Winnipeg on Saturday.

A baby was left on a doorstep at 283 Carleton street last night.

Mr. Gilray, barrister, is not coming out for the council, but as trustee.

A special sitting of the court of revision was held yesterday afternoon.

The police court fines for October amounted to \$17,425; fees \$554.75.

After next week the water department will not put in any water services until the spring.

The snow on many parts of the sidewalks has fallen in ice, making them very slippery.

Mr. Nicholas Murphy left the city yesterday morning to hold court at Markham and Sutton.

John Murphy of 45 Richmond street was confined at No. 2 station charged with assaulting Robert Akim.

The Comopolian club of this city will give an entertainment at Fort York a week from to-night.

Chief Draper of the police force is away on leave of absence. He will not likely return for about a month.

A special examination for admission to the Royal military college will be held at the old fort commencing to-day.

A lady slipped on King street yesterday afternoon near Yonge, dislocating her left arm and inflicting a severe contusion on the forehead.

A hall used as an Orange lodge on St. David's street, was broken into on Sunday night and an attempt made to carry off a sword and banner; but the burglars, being unprepared, dropped their booty and disappeared.

Mr. H. Cushing was in town last night making final arrangements for the matinee of the Fak Jubilee singers at the gardens on Saturday, December 9.

The company sang in Brockville last night and are meeting with the old record of success wherever they appear.

The latest additions to the zoo are pair will go from Mr. Peter Bell of Michigan, chief Hudson Bay company's factor for Lake Superior district; pair silver pheasants from Mr. T. H. Lavy; Hamilton; shark's mouth and skin from Mr. William Trotter of Brampton.

Miss Blow of the St. Louis kindergarten schools will continue her lecture of another column, in the Normal school at 2 p. m. to-day, when she hopes to see many parents as can make it convenient to attend.

The probable adoption of this system by the public schools of the city makes it a matter of great interest.

Hazel, the champion walker of the world, said to a New York reporter, in the course of conversation: "St. Jacob's Oil is a wonderful medicine; I do not know any other pedestrians would do without it, for it is their best friend. A rub of St. Jacob's Oil after leaving the track makes a new man of one and its him again for the contest."

A Considerate Arkansan.

Probably the politest and most considerate man who ever lived was General Bradshaw of Arkansas. Some time ago, boarding a train, he perceived his son, whom he had not seen for twenty years, occupying a seat, reading. The old gentleman sat down immediately behind the young man. After the train had gone about thirty miles the young man laid aside his newspaper and discovered his father, seized the old man with affectionate warmth. "Why didn't you let me know that you was on the train father?" "Better not," replied the old gentleman, "I saw that you were reading, and I did not wish to disturb." "That would have made no difference." "And besides," continued the father, "I thought that you might want to borrow a few dollars."

The Diamond Dyes for family use have no equal. All popular colors easily dyed, fast and beautiful. 10 cents a package.

Politis and Business.

Well Street News.

Some men don't seem to understand the difference between political assertions and business facts. Three or four days before election a Baltimore lawyer made a political speech in a country village. Being a rest-hater he naturally gave the democratic party the best he knew of, and among other things asserted that in case of democratic success the country would have to pay the confederate bonds. Two or three days after election a man went into the lawyer's office, opened a valise and took from it \$20,000 of red bonds and said: "What are they worth?" "Four cents a pound," "But the democratic party has triumphed." "What of that?" "Bakewell's country have to pay these bonds." "Not by a jugful." The bondholder looked steadily at the lawyer for a long minute and then slowly said, "Well, by gum! After ninety-six of us republicans who listened to your speech went and voted the democratic ticket in order to realize on our bonds you now tell me that you didn't mean what you said!"

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer. \$1.

Catarh—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for catarh. Out of two thousand patients treated during the past six months fully ninety per cent have been cured. This is none the less the start of a new era in the treatment of catarh. The most scientific men of the world are now presenting themselves to the patient who is benefited, while the patient himself, ever after cured, claims the catarh is cured. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a specific and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street west, Toronto, Canada, and enclose stamp for his treatise on catarh.

## THE ALDERMANIC BOARD

GIVE PART OF RIVERSIDE PARK FOR AN INDUSTRIAL SCHOOL.

How Shall R. Hay & Co. Be Taxed—By the Foot or the Block—Afternoon Session Proposed—Other Business.

City Council met last night, Mayor McMurrich in the chair. There were present Ald. Turner, Booth, Blivins, Kent, Mughan, Adamson, Lave, Clark, Search, Hallam, Irwin, DeLoe, Ryan, Evans, Turner, Sheppard, Bell, Farley and Trees.

Communications were read from the lord bishop of Toronto asking for a grant of land in the island park for a site for a church and parsonage. From DeLoe, Black, Reesor and Keefer claiming \$5000 for Messrs. Hay & Co. for damages done to their premises on Beverley, P. and Subo streets in consequence of alterations of the grade of those streets.

From the acting commissioner on inland revenues acknowledging the receipt of a petition from the council respecting the quality of gas furnished to the city. From George A. Cox, president of the Midland railway company, acknowledging the receipt of a memorial from the city regarding an eastern passenger station, also from the Grand Trunk and Northern railways saying that they would give this matter full consideration and report to the council at its next meeting.

Petitions were read from Joseph Bowers praying for an appointment on the fire brigade, from Christopher Moore for a share of chimney sweeping from W. J. Egan praying for permission to erect a building within the western market for the sale of food, from Robert Wilson against erecting a shed in the cattle market.

A statement of the taxes to be levied for 1923, as passed by the council of revision, was read from the city clerk. It reads as follows:

	Addition.	Reduction.
St. Andrew's	\$85,001	
St. David's	4,874	
St. George's	838,460	11,841
St. James's	1,200	600
St. John's	2,750	14,648
St. Lawrence	1,900	27,566
St. Stephen's	30,779	29,129
St. Thomas	4,100	19,197
Total	\$87,430	\$23,478
Less total additions	\$83,474	
Less total reductions		\$6,430
Total assessment for 1923 as revised by council of revision	\$83,474	\$6,430

The council then went into a committee on the whole to consider the report of the executive and other committees, Alderman Carlyle in the chair. Ald. Booth, in reference to the report of the committee on property, which recommended the grant of part of the eastern park for the purpose of erecting an industrial school, said he could not see why park property should be used.

Ald. Blivins said it is done every day.

Ald. Booth said this land is now used only for a cow pasture, and if the industrial school be started the grounds would become unutilized, and in consequence the park extended. Besides all this the school would do much good and ought to be recommended to the council.

Ald. Davies said that as there is no time specified in the report for the lease to run out, he believed it would be well for the council to take action in the matter after the Ontario legislature shall have passed their decision on the subject. He was not prepared to give away 70 acres of Riverside park without knowing how long the city would lose control of it.

Ald. Evans said that, in Mr. Howland's opinion, this would be a better way to reform the wild, wanton youths of the street than by sending them to jail, and, moreover, that larvae would be more reliable to employ them coming out of this institution than if they had just got out of a reformatory.

Ald. Bonstead thought that since Mr. Howland had taken so much pains to get the matter into shape the council ought not only not to go against it but to give it their hearty support.

Ald. Davies wanted to know why the term of lease could not be limited to five years.

Ald. Booth answered that one of the clauses on which the lease would be granted is that the property shall revert to the city at any time if not used for the purpose designed. Ald. Davies' amendment that the property be leased for five years was lost, and the original motion carried.

In reference to the clause of the property committee referring to the releasing of the property of Messrs. Hay & Co. and to valuing it at block, Ald. Low moved that it be struck out.

Ald. Booth said that Messrs. Hay & Co. have been the largest employers of labor in the city, and if the other manufacturers had any desire to oppose this we would have received more than one petition against it. And how would the city regard it as a punishment were we to drive out of our city such men as Messrs. Hay & Co.

Ald. Low said it was a very bad principle for the council to instruct the arbitrators that they would receive all information from the solicitors of both parties.

Ald. Clark moved as an amendment that the clause of the report which recommended the council to instruct the arbitrators be struck out. The clause as thus amended was carried.

Alderman Booth then moved, seconded by Ald. Search, that since the Fruit Growers' association of Ontario have decided to hold their annual meeting in Toronto and have expressed a desire to hold it in the city hall, that the council chamber be granted for their use during the last week in January.

Ald. Turner moved, seconded by Ald. Booth, that a by-law be introduced to change the hour of meeting of the council from 7 in the evening to 3 in the afternoon.

Ald. Booth said that the year was nearly completed and it would not be proper to regulate for the future council. It would also prove a source of interference for business men to leave their business and attend this meeting. Ald. Kent said that the people's right to attend the meetings of their representative bodies ought not to be infringed, and that they would be infringed now if the council met in the afternoon, since most of the people would then be at work. Ald. Clarke suggested that the meetings be held alternately in the afternoon and evening.

Ald. DeLoe—"We would then have night and day aldermen."

Ald. Geo. M. Evans thought it was the proper time to make the change. Many good men and managers would be anxious to attend. Ald. Ryan said that the council meets in the evening. Let, therefore, the future aldermen know at what hour they will meet.

Ald. Ryan said he thought that if the council met in the afternoon the business would be more thoroughly transacted, since now it is very important business is hurried over as it approaches 11 o'clock.

The original clause that a by-law be introduced for the council to meet every Monday afternoon at 3 o'clock was adopted.

The council then adjourned.

Kidney Disease.

## Banking Matters in the Dominion.

From *Revue of Banking, New York.*

The banking inflation in Canada continues to attract considerable attention and has been the subject of no little discussion in the newspaper press. It is discovered by a leading newspaper that we are passing through a period of inflation. Another devotee a column and a half of space, bristling with statistics, to show that "the situation is one which demands the gravest consideration and the promptest action too upon the part of all business men."

The alarming rapidity with which the people of Canada are getting into debt is a text for a much needed booklet by a third, and if that people are not saved from the consequences of their own folly it will not be for the want of warning on the part of those who watchmen on the towers, the newspaper press. But there is, as yet, no sign of any increased caution on the part of bankers. On the contrary, the current loans to the public, which in August had reached the unprecedented amount of \$170,000,289, increased in September to \$180,000,000, and in October to \$190,000,000, and the liabilities increased three and a half millions in the same time. Neither is there any attempt at strengthening the gold reserve. The Bank of British North America maintains a gold reserve in Canada and New York of some 40 per cent on its liabilities, the Bank of Montreal about 35, and the gold reserves of the rest of the banks range from three to five per cent. Under these circumstances it is not easy to see where a sudden demand for gold to settle European balances could be met.

And that such a demand is by no means a remote probability is the opinion of many prominent bankers. They point out that on an average one but the limited foreign demand and consequent low prices are preventing it from being exported to most of our foreign liabilities. These liabilities, too, are heavier than in any previous period. Like money in summer. The small handful of gold held by government will vanish in a trice. The banks will apply to the government for gold which the government will not have to give them, and the government will appeal in vain to the banks for the return of the twenty millions on deposit there. The consequence of building a house of cards will be plainly visible, and a deluded people will have cause to regret the day when they entrusted a needy ministry with the power to issue notes for circulation. A retired Canadian of the rank of a Canadian greenback system, is credited with the scheme which has not worked well, which means, of course, that it is unsound in principle. The only remedy is to hold the gold by the banks, which means, like money in summer. The small handful of gold held by government will vanish in a trice. The banks will apply to the government for gold which the government will not have to give them, and the government will appeal in vain to the banks for the return of the twenty millions on deposit there. A retired Canadian of the rank of a Canadian greenback system, is credited with the scheme which has not worked well, which means, of course, that it is unsound in principle. The only remedy is to hold the gold by the banks, which means, like money in summer. The small handful of gold held by government will vanish in a trice. The banks will apply to the government for gold which the government will not have to give them, and the government will appeal in vain to the banks for the return of the twenty millions on deposit there. The consequence of building a house of cards will be plainly visible, and a deluded people will have cause to regret the day when they entrusted a needy ministry with the power to issue notes for circulation. A retired Canadian of the rank of a Canadian greenback system, is credited with the scheme which has not worked well, which means, of course, that it is unsound in principle.
