

HYSLOP, SON & McBURNEY

SUCCESSORS TO

HYSLOP, CAULFEILD & Co.

Manufacturers and Importers

OF

BICYCLES

The Bicycle business has grown with us to such immense proportions that our Mr. Hyslop, realizing that he could not do two things well, has sold out his interest in the Men's Furnishing business, which is the best of its kind in the Dominion. He will hereafter devote his whole attention to the Bicycle trade, in which we have already attained the leading position in Canada, a position which we intend to keep.

We have determined not only to offer the best wheels in the market, but to sell a really good machine at a lower price than any other firm dare offer. Consequently we are offering the

“ROYAL MAIL”

For \$50 Cash

It is an honest wheel at an honest price, made by one of the principal makers in Great Britain, who has a reputation at stake. Therefore it is not made from trash or shoddy material. We challenge the trade to produce its equal for \$75. You want to see it. We court critical examination. We caution our customers to beware of the many cheap American wheels with which the market is being flooded and into which so many small dealers are rushing. American really high-grade wheels are alright, but even they are never in it for material, strength or durability with British wheels. We are importing the world-renowned “WHITWORTH” and the celebrated “RUDGE” from Britain, as well as the “ROYAL MAIL” before mentioned.

We are also manufacturing the

‘HYSLOP,’ ‘REGENT,’ ‘FLEET’ AND ‘CUPID’

The first “HYSLOP” made was ridden last Autumn in about a dozen track races and was never beaten. We have made some improvements in it and expect that it will this year make a brilliant record.

In American wheels we represent the “CRESCENT,” manufactured by the Western Wheel Works, the largest manufacturing concern in the United States. Their motto is “Honest Wheels at Honest Prices.” We have no hesitation in recommending their goods, whether in Men's, Ladies', Youths', Misses' or Children's Machines as equal to anything produced in the States. We have the largest Bicycle Warehouse in Canada and an aggregation of wheels from which we can please the most fastidious tastes whether male or female, old or young, short or tall, light or heavy, for racing, business or pleasure. We also carry an immense stock of all Bicycle Accessories. Everybody interested in Cycling is always welcome to inspect our warerooms. Agents wanted in every City, Town and Village in Canada where not already represented.
