Set Lever Harrow

Disc Harrow

Our Set Lever Harrow is the best spring tooth Harrow in the world. It is made of more expensive material than the other harrows on the market and is therefore somewhat higher in price than the cheap harrow. The difference in price is however more than made up by the difference in quality. Convince yourself by examining them.

Our Disc Harrow is the best machine of its kind on the market. Its superiority is so great and self-evident that we are ready to place it alongside of any other disc in the market with full confidence in the result. It cuts an even depth under all circumstances, and the gangs have great flexibility. It is both an inthrow and also an outthrow machine.

Our Seeders.—We have them for one horse, for sowing only both grain and grass seed, that is without any harrow teeth. This machine will sow 9 feet wide. We have also our regular 4 section Seeder with improvements added for this year. This machine is well known and is regarded to be first class in every respect.

We are sole agents for Province of Quebec for the celebrated WILKINSON PLOUGHS AND SHARPS, and are keeping a stock of their repairs as well as their machines on hand. You can get them through our local agent.

FARMERS, GARDENERS & FLORISTS

SHOULD USE THE

Nichols Chemical Co'y. Fertilizers.

It increases crops from 25 to 40 per 100 and in many instances doubles them. POTATOES are much less liable to rot. CORN yield more. TURNIPS, BEETS, VEGETABLES mature earlier, give greater returns when these Fertilizers are used. HAY and GRAIN of all kind are greatly improved. NO BAD WEEDS, or FOUL SEEDS, go with them like farm yards manure.

Every one who cultivates Flowers, Garden or Field, should use them.

2000 Farmers will tell you it pays 100 per 100 to buy those Fertilizers.
