stalments over two years ago, and at the end of last year all rules relative to standard time, time tables, and the use of visible, audible, and train signals were in effect, and all employes thoroughly conversant with them. For the introduction of the balance of the rules papers were prepared for the instruction and examination of all employes concerned, and were given to the men last Dec., and about a month later instruction classes were opened at various points, where employes were given the opportunity of attending lectures and asking questions on the The result has been that the employes, realizing the expense and trouble the Co. has taken to educate them, are taking every advantage of the opportunity afforded, and a becent inspection of the system, including the racific division, on which the rules are in effect, has shown that the men who have been examined are thoroughly competent to handle trains under the new rules.

G. T. R. SEMI-ANNUAL MEETING.

At the semi-annual meeting in London, Eng., April 10, the following report was presented for the half year ended Dec. 31, 1901: The following summary shows a comparison of the half-year's revenue account with that of the corresponding half-year, ended Dec. 31, 1900. As the receipts and working expenses of the Cincinnati, Saginaw, and Mackinaw Co. are included in the accounts of the past half-year, the figures of the corresponding period have been altered for the Purpose of comparison:

gross receipts Expenditure per	68.38	67.56	0.82	
train mile	48,50d.	45.44d.	3.06d.	l

The train mileage of the half-year compares with that for the half-year ended Dec. 31, 1900, as follows:-

Description.	1901.	1900.	Incr'se.	Decr'se.
Passenger Freight Mixed Trains	3,673,824 4,478,410 542,7 5 9	3,483.780 4,669.763 538,136	190,044	191,353
Total	8 694 993	8.691.679	3.314	

The G. T. gross receipts for the half-year show an increase of £134.063, or 5.50%; the working expenses, including taxes, an increase of £111,627, or 6.78%. The train mileage shows an increase of 3,314 or 0.04%.

The length of the line has been increased during the half-year by 3½ miles, by the con-

struction of extensions of 2.08 miles at Meaford, and 1.42 miles at Beeton.

The total charge to capital account during the half-year was £283,100 4s. 4d., of which, £213,138 was in respect of the acquisition of £212,600 G. T. Junction 5% ist mortgage bonds, and £615 of Chicago, Detroit, and Canada G. T. Junction shares, by which an annual saving in the net revenue charges of over £2,000 was effected.

The outlay for new works, etc., on capital account during the half-year was as fol-

Instalment on Portland city elevator loan. New works, sidings, etc. Double track. Improvements to rolling stock. Land purchased.	£445 47,004 10,036 4,702 7,772	18 2 18	4 3 3
-			

£69,962 4 4

£37,174 18s. 8d., being £11,490 premium on debenture stock sold during the half-year, and £25,684 18s. 8d. received from the Royal Electric Co. for the right to use the Victoria jubilee bridge for its electric cables, has been placed to the credit of capital account, thereby reducing the charge of £283,100 4s. 4d., as above stated, to £245,925 5s. 8d.

No additions to the rolling stock at the

expense of capital were made during the half-year.

Eight passenger and 9 freight engines, and 5 passenger, 300 furniture, 26 box, and 3 derrick cars were built in the Co.'s shops during the half-year on revenue account, and at Dec. 31 there remained £79,81218s. 11d. at the credit of engine renewal fund, and of £47,006 7s. 5d. at the credit of car renewal

fund, applicable to future renewals. In the report for the half-year ended June 30, 1898, the proprietors were informed that it had been decided to charge to revenue over a period of five years a portion of the cost of the reconstruction of the Victoria jubilee bridge, and the cost of renewing the bridges between Montreal and Portland, and on the Southern division Office Victoria jubilee Southern division. Owing to the special amounts credited to the renewal of bridges account in the half-years ended Dec. 1899, Dec., 1900, and June, 1901, the total amount already expended, and of the estimated cost of completing these renewals, has been charged against revenue account in four years, thereby curtailing the period originally contemplated by one year.

It has not been found practicable, owing to the high price of materials, to complete renewal of the bridges on the Southern division, and of the \$230,000 estimated to be required for that purpose \$222,625 (£45,745) has not yet been expended, and forms part of the amount of £75,745 at the credit of renewal of bridges account in the general balances.

In pursuance of the policy announced in the report for the half-year ended June 30, 1901, and explained by the President at the last general meeting, it has been decided to proced with the renewal of the bridges between Montreal and Hamilton, Toronto and Sarnia, and further bridges on the Southern division. It is proposed to charge the cost of renewing these bridges to revenue account, as also a portion of the cost of the bridges on the new double track between Hamilton and Niagara Falls, spreading the amount over a period of five years, so as not to unduly bur-den the revenue of any particular period £30,000 specially credited to the renewal of bridges account in the amounts of the past half-year will be appropriated to this purpose.

The gross receipts of the G.T.W. Rv. Co. for the half-year were £442,503, and the working expenses £371,902, leaving a net profit of £70,601. The net revenue charges for the half-year were £60,010, so that there was, on Dec. 31, a net revenue credit of £10,591, which is carried forward, as, under the provisions of the income mortgage, the accounts
