

## LINARIA MINOR, Desf.

Along the G. T. Ry., near the Cove Bridge, west of London, Ont., June, 1898. (*J. A. Bulkmill.*) Only one other Canadian record—St. John, N.B.

## COLLISSIA VERNA, Nutt. ; Can. Rec. Sc., Jan. 1895.

In woods between Putnam and Ingersoll, Ont., 1896. (*J. Dearness.*) Second Canadian record.

## MIMULUS MOSCHATUS, Dougl

By a brook on the farm of Mr. Peter Cavanagh, Middle Settlement of Barney's River, Pictou Co., N.S. (*Miss Maria Cavanagh*) Not before recorded from Nova Scotia. Though probably introduced or adventitious, the conditions under which it is growing make it appear possible that this species is indigenous in Nova Scotia. It is at any rate well naturalized. Miss Cavanagh writes : ' I have seen it growing there for four or five years. Previous to that time I had no opportunity of examining the brook. It grows luxuriantly and in great abundance in an elevated region along the ridge of the watershed between the rivers flowing north and south. The place is too cold for plum trees "

## STACHYS GERMANICA, L.

Well established near Guelph, Ont. Collected in two widely separated localities near that town. 1897. (*J. C. McCalla*) New to Canada.

## AMARANTUS CHLOROSTACHYS, Willd.

North of Leamington, Essex Co., Ont., 1892. (*J. Dearness.*) Not before recorded in Canada.

## CHENOPODIUM VULVARIA, L.

Plentiful around waste heaps and along roadsides at Galt, Ont. (*William Herriatt.*) Probably introduced in foreign merchandise. New to Canada.

## ACALYPHA VIRGINICA, L.

Among small stones and grass along roadsides at Clearland, N.S. (*Dr. C. A. Hamilton*) Not recorded east of Quebec.
