# THE TRUE WITNESS AND CATHOLIC CHRONICLE.

## NATIVITY OF THE BLESSED VIRGIN TRIDUUM.

8

The following letter from His Grace the Archbishop of Toronto was read in all the Catholic Churches of the diocese last Sunday :-

REV. SIR, -Our Holy Father the Pope has appointed a Triduum to be celebrated in preparation for the Festival of the Nativity of the Blessed Virgin, which falls on the 8th September. The object of this devotion is to implore God, through the intercession of His Immaculate Mother, to cause to cease the persecutions of the Church, especially in Italy, including Rome, France and some other countries. The temporal rulers of these unhappy countries are doing all that human ingenuity, aided by the Spirit of Darkness, could invent to uproot the religion of Christ from the hearts of the people. They have suppressed Religious Communities, banished religious teaching from the schools, allowed the greatest license to the press to vilify everything that is sacred.

The Church of God has never been free from persecutions. If she enjoys peace in one part of the world, she suffers persecution in another. Wc, who are enjoying, in our own happy country, peace and religious freedom, should not forget our brethren in other parts who are deprived of those blessings. It is the holy will of God to grant freedom of action to His creatures here below. A forced ser-vice would be unworthy of God and of reasonable beings. Hence, there has been, from the beginning, a rebellion where there should be obedience, and unreasonableness where reason should guide. This war of evil against good rages especially around the "Rock of It can never be taken, but it can be Peter.' grievously harassed. It is the duty, therefore, of all Christians, to bring the succour of their prayers to aid Our Holy Father in His struggles against impiety and all the assaults of Satan and his agents in this world, for this appears to be their hour and the power of darkness.

To encourage the faithful to come to his succour by their prayers, he unlocks the treasures of the Church. He grants seven years and seven times forty days' indulgence to all who assist at the religious exercises of the usual conditions.

We ordain, therefore, that in each parish of the diocese, and in each religious community, priests shall say Mass each day of the "Tri-duum," and shall recite after Mass the Litany of the Blessed Virgin, that there shall be in the evenings Recitation of the Beads, a short instruction of reading, a meditation from the "Glories of Mary," or from the "Devotions for May," followed by Benediction of the Most Blessed Sacrament.

The priests will also attend their confessionals each day, at times most favorable for the people. All children who have made their first Communion should be earnestly exhorted to perform these devotions, which are to commence on the 6th September next. It is with the will of God that we should pray, and pray with spirit and earnestness, for all things co-operate for good on account of the elect. Persecutions will animate the fervor of Catholics more and more, and give them opportunities of gaining Heaven more securely; whilst the reprobate operate their own ruin the more quickly and surely. The com-ing of Christ has been set up as a sign whereby the just become more just, and the wicked more iniquitous.

The intercession of the Mother of God has been always most efficacious. The triumphs of the Church after last Jubilee were most remarkable. We trust that the united prayers of the faithful in the coming " Triduum" will be signalised by other triumphs.

GIVEN AT ST. MICHAEL'S PALACE,

Quite a pleasing incident occurred in connection with the proceedings of Branch 30, C. M. B. A., Peterborough, at their regular meeting held on Monday, the 1st instant. The members had heard that trustee John Donegan was about to leave for Cornwall, and they determined not to let him go without manifesting towards hun then solution of good will. Accordingly they procured 'rom Mr. J. P. Tansey, jeweller, Montreal, a 'now Mr. J. P. Tansey, jeweller, Montreal, a now employed as a carpenter at the Grand Other by Mr. Louis Seymour, of Memphis, now employed as a carpenter at the Grand the proper moment arrived the members arose, and the president, turning to Mr. Donegan, presented him with a pin in the name of the members, and also the following ad-

dress :---DEAR SIR AND BROTHER,-We, the members of Branch No. 30, Peterborough, of the Catholic Mutual Benefit Association, have heard with deep regret that you are about to take your departure from amongst us.

This regret is, however, to some extent modified by the agreeable intelligence that such departure is occasioned, not by any dis-like to our thriving town, but by the fact that your abilities in your own sphere of life have received a well-deserved recognition at the hands of an enterprising manufacturing firm in Cornwall, who we learn have offered and from whom you have accepted a situa tion much more lucrative and more in keeping with your merits than your present one.

We desire, however, before you go, to place upon record the fact that since the formation of Branch 30 you have been second to none in your efforts to promote its growth and to facilitate the performance of business at meetings of cur branch.

As a trustee of our branch you have been indefatigable in seeing that none but persons who comply with the requirements of our constitution are admitted as members of our society.

As a friend and brother we have always found you true and sincere and the sentiments of friendly feeling and brotherly love which the Church during the "Triduum," and a plenary indulgence to those, who, having as-sisted at some of the exercises, approach the Sacrament of Penance and Holy Eucharist on the guan conditions clasp your hand in the warm grasp of friend-

ship. Such being our feelings toward you, you cannot therefore be surprised if we take advantage of your last evening with us to give expression in a more tangible form to our sen

timents of regard. We present you, therefore, with this pin not, indeed, for its intrinsic value, which is

but slight, but with the hope that whenever you wear it you will rest content with the earnest assurance now given that it is the tribute of that warm feeling which animates us toward yourself, and that you will be able to give a kind thought to the members of this branch. When you gaze upon the emblems with

which it is adorned, emblems typical of the Catholic faith, you will be able to reflect that in our prayers you and yours are not, forgot

ten. To yourself and family we wish continued and increasing prosperity and happiness, and we feel confident that your well known business capacity and integrity will always insure for you those desirable ends. Signed on behalf of the members of Branch No. 30.

Mr. Donegan, who was completely taken by surplise, said he had not expected to receive from the Branch such a flattering testimonial It was impossible for him to express fully the gratitude he felt for the kind sentiments

WEEKLY REVIEW-WHOLESALE PRICES.

There have been additional buyers in town. and business has looked up a little. Excur-sion trains have brought large numbers into the city for the Exhibition, and a general "stir up" has taken place all round. We expect an improved local trade from this out. Some interest has been created by the official declaration of war by China by France. A London cablegram says :-- The Chinese war has sent up the prices of tea, coffee, pepper and tapioca. Trade is fair, is looking up, and trade papers express the belief that the long period of depression, lasting eight years at least, has ended."

In the West the manipulation of corn and provisions is still the speculative feature. for many years, and with large surpluses at readily even if the war above alluded to should be continued and extend over a wider

area. GROCERIES, -Large lots of granulated have been sold by refiners at 64 to 65c. There have been no transactions in raw. We quote :- Porto Rico 53 to 54c, Barbadoes 54 to 54c, granulated 64c, yellows 54 to 6c. DRY Goods .- An improvement has occur red owing to the presence of Western buyers. It is expected this improvement will be main-30, but in the formation of Branches in all tained next week when the army of buyers ingnt 10c was bid and refused. A sale of 1,000 boxes was reported at 10gc. Some will arrive, Most of the travellers for fall orders are now back, and will soon start on their sorting up trips. Cottons and Woolens.-The demand for cotton is improving and stocks are moving off slowly. The quantity now car ried by merchants is said to be smaller than at this season informer years. If the present policy of the mills in keeping down the pro-duction is followed, the difficulty now existing will rectify itself in a short time. In the demand for woollens there is a decided im-provement. There is no doubt that prices have touched bottom, as there is an upward tendency in raw materials, the lower grades of wool having advanced, and the price being very firm. The general tone of business is better. Payments are unprecedentedly good. FISH.—Some small lots of new dry cod have just been received, and are selling at \$4.75 to \$5.00 per quintal. Cape Breton herrings have also been received, but are not much in demand. They are held at prices ranging from \$5.25 to \$5.50. Canned lobsters are firm and likely to advance in price, although just now the demand is light. There is no new mackerel yet in the market, and the stock of old is small and prices firm. The demand for fish is confined to that required for the retail trade. We quote :--Brit. Col

able in this market, have undertaken to ship knowing from experience that it will work its own cure. The market to-day had a downward tendency, and the best cattle offered did not realize more than 5c, which was the top price paid, although something prime might command 54c. We hear of several lots changing hands at 40 to 5c per b, live weight as to quality. Last year at this date good to choice shipping cattle sold at 54c to 54c. Cattle freights are strong and higher at 70s to 80s per head. Export sheep are dull, weak and lower, there being no disposition to buy. A few lots sold at 31c, and we quote 31c to 4c per lb, live weight. Last year at this date export sheep sold at 5½c, which gives a clear illustration of how New Zealand mutton has affected our trade. At Viger market the receipts of cattle num-bered 350 head, which brought low prices. The general range was from 3c to 4c per lb, live weight, but few sales were made by weight. The supply of sheep and lambs was smaller, about 600 head. Demand ruled fair and prices steady. Lambs sold at \$2.50 to \$4 each as to quality. About 40 live hogs sold at 64c per lb. Regular exporters Mexico and Spain have all recently shown a look upon this course with equanimity, willingness to 'cultivate' the 'Canucks,' as our Yankee friends still call us, and the ex. tension of our trade with foreign countries in the past few years will, we trust, encourage a greater spirit of enterprise. The next decade should bring about a wonderful exten. sion of our commerce, as there are few great ports in Europe with which a profitable trade in Canadian products could not be established.

## SUPPOSED MURDER.

CHICAGO, Sept. 6.-Wm. H. Downie, meniber of the Board of Trade, was found dead in the basement of his house last night with a bullethole in his temple. He was alone in the house. It was first supposed to be a case of suicide, but no weapon could be found, and it was then concluded the man had been mur-dered. He had frequent quarrels with his brother, Chas. J. Downie, over an undivided estate left them by their mother. Vesterday there was a stormy scene between them, when Charles attempted to brain his brother with an axe. This with the fact that Charles ouce shot at William, led to the suspicion he was murdered. The police arrested Charles on his way from the city to his suburban home. A

revolver with a chamber empty was found on his person.

# RESOLUTION OF CONDOLENCE AN ASSOCIATION PUTS ON RECORD ITS OPINION OF A LATE AND POPULAR

MEMBER THEREOF. The following resolution of condolence was unanimously carried at a special meeting of the I.C.B.U., of Kingston, Ont., held re-

cently :---WHEREAS, it has pleased Almighty God, in His infinite wisdom, to call away suddenly from this life our late brother Joseph Green, whereby his family have lost a dutiful and affectionate son and brother, and this association a member who was active in all work for its benefit, and our country a useful citizen, who was called away on the threshold of what promised to be an industrious and useful manhood, we desire to express the esteem in which deceased was held by us for his many admirable qualities as a cheerful and cdifying companion and a true and devoted friend. We desire to express to his sorrowing and bereaved family, sorrowing as they are for a devoted and affectionate son and brother, who was taken suddenly away in all the hopefulness of a strong young manhood, with all the enjoyments of life before him and everything full of happy promise, we desire to express to them that great as is their sorrow we are partakers in it, and we tender them our heartfelt sympathy, and we pray that God in his infinite love and mercy will give them strength to bear their great loss, and that he will have mercy on the soul of him whom we have lost.

Resolved,-That we tender our sincere and sorrowing sympathy to the family of our late brother, Joseph Green, who was drowned off the steamer St. Lawrence on Wednesday, the 27th day of August last, in the River St. Lawrence.

Resolved,-That copies of the foregoing preamble and resolution be sent to the family of deccased, the British Whig and Daily News of this city; the Montreal DAILY Post and the Irish Canadian.

FRANCE AND CHINA. LONDON, Sept 8.—The Chinese report the damage done to the forts and arsenal on the Min River by admiral Courbet is trifling. The masonry in some places was thrown down, but it will be fully restored. The French landed and destroyed only three guns at the Mingan forts and did not land at Kinpai. The arsenal was not damaged and no war material or stores were destroyed. There was no fire nor explosion. Work at the arsenal is now proceeding as usual. The naval loss was serious, but only two fighting vessels were sunk; the others were despatch or patrol boats. The defences along the river are in as good a condition as before the bombardment.

#### HOW HENRY WAS KILLED.

INDIANAPOLIS, Sept. 6.—Sergeant Fredericks, of the Greely party, corroborates Sergeant Brainard's denial of the story that the expe-dition was divided into two parties. He says dition was divided into two parties. He says the sentence against Henry was executed by himself and Sergeants Brainard and Long. They shot Henry in the back, two balls taking effect, and producing instant death. One gun was not loaded. They were compelled to this course be-cause Henry was strong and active, and had he suspected their purpose could easily have killed them. Fredericks says his experience has not atisfied him, and he intends to visit the Arctic again as soon as possible

fit from his association with them. Were it not for the fact that he had been offered a position which, in a pecuniary point of view, would tend greatly to his advantage, he would not think of leaving. He would still remain a member of Branch 30, at all events until the organization of a branch at Corn-wall. He had heard that a branch was being formed there. He hoped this was true, and he would be glad to give the persons who had the work in hand the benefit of his own experience and assist them in completing the good work. He would never forget branch 30, and hoped to hear of its continued ad-vancement. Were the principles which first, 50e to 55e; good seconds, 37e to 45e. guided its actions and the actions of its sister branches more thoroughly understood the C. M. B. A. would become Catholic in a broad sense indeed in the sense of being universal. He was overjoyed to learn that their venerable and much loved Bishop had looked into its rules and found that they were in accord ance with the teachings of the Catholic Church. Nothing indeed could be more in accordance with such teaching than the object of their society, which was to promote in its members sobriety, integrity and frugality, and to provide a fund for the widows and or-phans of deceased members. Their good Bishop had expressed himself in sentiments of approval of such objects, and he expected to find that his approbation would result not

fail through the apathy or indifference of the parties addressed. The allusions to his own efforts to promote the growth of the present branch he felt were hardly deserved, inasmuch as he had only done his share and others had worked equally hard, nevertheless he was pleased to know that his efforts had not been overlooked. He reciprocated the kind and friendly feelings contained in the address and would always look back with pleasure to the happy days he had spent in Peterboro.

The business of the meeting was then concluded.

#### CREDIT.

Farmers or others, who, for personal reasons, wish to have an open account for their dry goods, are cordially invited to favor us with a visit. We are always willing to open accounts to all those we may consider as safe customers, if they settle their bill at least once a year.

Either for cash sales or on credit, we have only one price, and all our goods being im-ported direct from Europe, we always retail them at wholesale prices.

#### MONTREAL'S FOREIGN TRADE,

The strides which have taken place in the foreign commerce of Montreal within the past decade would strike even a casual observor, Most residents will remember when the Allan and Dominion steamships having driven away the wooden vessels which formerly traded here in fleets transacted the bulk of the trade and took all the European freight to the ports of Liverpool and Glasgow. Now we have numerous other lines and direct trade with many ports. To-day steamers from Montreal go not only to Liverpool and Glas-glow but regularly to London, Queenstown, Newcastle, Bristol, Antwerp and other points, The efforts to establish made with Brazil, though not, very encoaraging, have served to advertise the resources of Canada, and outsiders are getting more and
