(NEW AND REVISED EDITION,) THE LIFE OF ST. ELIZABETH OF HUNGARY,

by the Count de Montalembert. The Life, translated by Mary Hacket, and the Introduction, by Mrs. Sadlier. 12 mo., of 427 pages, with a fine steel engraving. Cloth, 5s; cloth gilt, 7s 6d. The first edition of Three Thousand having all

been sold, and there being many calls for the work, we have put to press a New Edition. The translation has been read over with the French copy and carefully corrected.

Of the merits of the work, we can safely say, that no biography ever issued from the American Press equals it—it's as interesting as a romance.

The Press have been unanimous in praise of the

first edition. We give extracts from a few of them : "The book is one of the most interesting, instructive, and edifying that have been produced in our times, and every Catholic will read it with devout thankfulness to the Almighty God, that he has been pleased to raise up, in this faithless age, z layman who can write so edifying a work. It is marked by rare learning, fine artistic skill, and correct taste; and breathes the firmest faith and the most tender piety. His work is as refreshing as springs of water in a sandy desert....Let every one who can read purchase and read this beautiful Life of one of the most lovely and most favored Saints that have ever been vouchsafed to hallow our earthly pilgrimage.' Brownson's Review.

"The whole introduction shows the hand of a master, and it loses nothing in Mrs. Sudlier's racy and elegant English. It enhances the merit of the work, which, in the Dublin edition, was published without this essential preface. Of the Life itself, we without this essential preface. Of the life tiself, we cannot speak too highly. The exquisite character of 'the dear St. Elizabeth,' (as the good Germans have at all times styled her), is brought out with a clearness, a tenderness, and a vigor, which bring tears from the heart. We do not think there is any book of the kind in English, at all to be compared to this

Life of Saint Elizabeth."—American Cell.
"We might say much in praise of the narrative and Life of St. Elizabeth, attending which, from the beginning to the end, is a charm which cannot fail to attract and secure the attention of the reader, did not the well known abilities of this distinguished author render it unnecessary We cheerfully recommend the work to our readers."-Pütsburg Ca-

"This magnificent work of the great French Tribune of true liberty, has at last been translated into English. The name of its Author is a sufficient guarantee for the value of the work. Montalembert is one of the lights of the age-a man who combines rare powe. of intellect, with unsworving devotion to the cause of liberty and the Church. Let every one who desires to study the spirit of the Middle Ages, read this book."—Catholic Telegraph.

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon

Agrox House, New York City, March 5, 1868.

House: Ayer, Lowell: I feel it a duty and a pleasure to inform you what your Cherry Perforal has done for my wife. Sie had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could precure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well. Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been based a their utmost to produce this best, most perfect purpative which is known to man. Innumerable proofs are shown that these Prits have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteom of all mon. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purgo out the foul humors which bread and grow distemper, stimulate sluggish or disordered organs into their natural action, and impact healthy tone with strength to the whole system. Not only do they cure the every day complaints of every body, but also formidable and dangerous diseases that have baffied the best of human skill. While they produce powerful effects, they are, at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely regetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantisted by men of such exalted position and character as to forbid the suspicion of untruth. Many eminont clergymen and physicians have leat their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my sfflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use, and certificates of their cures of the following complaints:—

Thoy also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neurnigia and Narrous, Lytichillis, Dermesurers of the Liver and Citature.
