NORTHERN ONTARIO

HARVESTING IN NORTHERN ONTARIO

NORTHERN ONTARIO is a vast forest-robed land stretching from the Province of Quebec on the east to Manitoba on the west and extending north for 770 miles from Southern Ontario to Hudson Bay, covering an area of 330,000 square miles.

This fertile land lies one degree south of Winnipeg and is well watered by lakes and rivers. The climate is ideal for perfect health—warm in summer, cold and invigorating in winter. Already there are thousands of miles of colonization roads and

steam railways spreading like a spider's web over that immense new land. A settler can ride from the big cities of Ontario or the West in a Pullman if he wishes almost to his own door. This is something new in pioneer life.

This rich agricultural land may be had by the settler in 160 acre blocks at 50c per acre

Our literature descriptive of this great country may be had free on application.

G. H. FERGUSON,
Minister of Lands,
Forests and Mines.
