MARKET STUDIES FOR SOUTH AND SOUTHEAST ASIA

The Minister for International Trade, the Honourable Pat Carney, announced today that a number of recently completed market studies on specific sectors in South and Southeast Asia countries are being made available to Canadian exporters. The studies concentrate on export opportunities in the areas of oil and gas, telecommunications, forestry, high technology, food processing, sporting goods, and aerospace. They were commissioned and funded under the Asia-Pacific component of the National Trade Strategy.

These papers will be sent to Canadian companies on request. They are also being provided to provincial governments. "The studies serve to define promising areas of opportunity for exports and joint ventures for Canadian suppliers in India, Pakistan, Thailand, Indonesia, Malaysia, and Singapore", the Minister said. In these growing markets, Ms. Carney underlined
