Professor Percy E. Nobbs, M.A.,
Faculty of Applied Science,
McGill University.

Dear Sir,

I have been instructed to ask you to submit to me a definite statement of the amount, if any, which McGill University owes you or the firm of Nobbs & Hyde for services rendered to date. The Board of Governors of the University deem it wise to ascertain just how they stand with you and with your firm.

Will you also state clearly what is your appreciation of what you call "vested interest" in the future building programme of McGill University?

Yours faithfully,

Principal.
