**CRAIG'S ENGLISH DICTIONARY.** Being a TECHNICAL, ETYMOLOGICAL, AND PRONOUNCING DICTIONARY OF THE ENGLISH LANGUAGE, embracing all the terms used in Art, Science, and Literature.

The rapid strides made of late years in the arts and manufactures, as well as in science, has occasioned the introduction into our language of a vast number of new words, some of them of foreign extraction, others the invention of new theorists or scientific discoverers. This extension of our language has, to a certain degree, made all the Standard Dictionaries extant imperfect. A new and entirely complete work was therefore considered a great desideratum, and it has lately been completed, after seven years of hard and laborious mental exertion, under the superintendence of JOHN CRAIG, Esq., F.G.S., and Geological Lecturer at the Glasgow University.

From numerous literary critiques, the undermentioned are selected as giving a fair and impartial character to this important publication.

"The work before us fills up a decided desideratum in the English language. He would indeed be most unreasonable who did not own the debt due to the author in giving us the singular information of the traveller, the deep learning of the divine, the curious play of the philologist, the succinct definitions of the mathematician, the technical terms of the manufacturer, the terminology of the naturalist, the newly-formed instruments of the musician, the gentle science of the herald, and the abstruse information of the physiologist."—*New Quarterly Review*.

"\* To suit the convenience of all classes, the work is issued in 6d. fortnightly numbers. The Publishers will be happy to forward a number free by post, as a specimen of the work, on receipt of six postage stamps; being fully persuaded that Craig's Dictionary needs only to be seen, to be at once appreciated as the most complete and best English Dictionary published
