

MANITOBA CITY.

W. F. Ellis, barrister, solicitor in Chancery, &c., late of Winnipeg, has opened a law office here.

Messrs. McEwan, Dunsford & Co., of Nelson, are arranging to remove their banking establishment to this place.

Thomas Greenway, M P P, is about to remove from Crystal City to this place to open a money broker's office.

Messrs. Walton & Bird, hardware merchants, of Emerson, are preparing to remove their business from that town to this city.

Mr. Thomas Saunders, of Emerson, has leased a store now in course of erection here, and will in a few days open out a large stock of stoves, tinware, &c.

The Messrs. Bethune, general merchants, are erecting a large store on Main street, and will in a few days remove their business from Archibald to this place.

Capt. Marlton, hotelkeeper, of Emerson, has arranged to have a store completed by the first of October, when he proposes to open a large wholesale-liquor business here.

We have quite a building boom on hand. Carpenters are getting from \$2.50 to \$3 per day, but one great drawback is the delay in getting material. We also need more hotel or boarding house accommodation.

Dr. McConnell, of Nelson, has been negotiating for the erection of a large building here, to be used as a drug and stationery store, and if satisfactory arrangements can be made he will remove to this city and commence the practice of his profession here.

Mr. A. Bethune, postmaster of Archibald, we understand has got permission from the department to remove the post office from Archibald to this place. As soon as this change is made it will be a great convenience to our business men and we ought then to be allowed a daily mail.

American vs. English Nails.

One unfortunate consequence of this difference to brand and quality on the part of shippers is the steadily growing demand for American nails, not only in the Australian Colonies, but in the markets of South and Central America. American nails, indeed, are now an important item of our trade with the markets alluded to, and it is only in exceptional cases, or by adoption of direct representation, that English makers of reputation are able to hold their own. The home demand was reported fairly good until the reduction declared a few years ago, which appears to have had the contrary effect to that intended, and buyers have since been holding off as if in doubt whether prices had really touched the bottom yet. In the export department the principal trade stirring of late has been with Australia, Chili, and the north of Europe. Steel nails continue in rising favor, and some makers are doing rather a brisk trade in triangular and grooved nails, which are said to possess considerable strength and holding power relatively to their weight. *London Ironmonger.*
