

# Canada—Ocean to Ocean

In envelopes ready for mailing  
50 cents

The finest book of views ever issued showing the most striking scenes in Canada from the Atlantic to the Pacific. 68 pages of views, some in colors, of mountain, river, lake, prairie and city. Just the thing to send to friends abroad in place of the tiresome Christmas card, which they never look at. Send this book which will be appreciated and which costs very little more than a card.
