Mining Market Eases Off Again But Some Strong Spots Are Shown

Great Northern on Up-Grade Under Responsible Buying-Porcupine Stocks Show Small Declines-Cobalts Generally Easier.

Cobalt Lake

SILVER MARKET.

Bar silver in London, 244d oz. Bar silver in New York, 525c oz. Mexican dollars, 45c.

World Office.

Monday Evening, March 20. ing exchanges to-day, but the general trend to prices was reactionary and small declines were in evidence as a result of the disposition to liquidate holdings. One or two strong spots served to offset the losses elsewhere in Standard Stock and All Stand the list, but any advances were due to special causes and were not indicative of the real tendency of the market. Porcupine issues sold off during the day, the demand for stocks not being of sufficient weight to take care of the selling which was in evidence. Presselling which was in evidence. on East Dome dropped two points at moved. Swastika lost four points at Gifford. 59 1-2. Vipond over a point at 58 1-2. Great Northern Hollinger sold back under \$8, and West
Dome did not reach the figures recorded on Saturday, this stock maintain. ed on Saturday, this stock maintaining between \$3.15 and three cents higher. The decline in gold mining stocks was due to the selling from those whose holdings show a profit over the underwriting prices where the stock was taken on. Good buying of this class of securities was in evidence thruout, but the floating supply of

shares was too large to be absorbed without a lowering of values, and this occurred in an entirely natural way. Great Northern was the only real strong point in the list. This stock was bought on an upward scale, and the price mounted to 19 1-2 before the

PORCUPINE

NTEREST in Porcupine is broadening, and the camp promises to develop sensationally, both in a mining way and in the amount of public attention which will be attracted to it. As is commonly the case in new gold discoveries, opportunities are very broad for making profits, and even broader for incurring losses. The irresponsible promoter will not overlook these opportunities, and the public is certain to have presented to it a multitude of worthless stocks, with alluring arguments why these stocks should be purchased.

We believe in the ability of proved acreage in the Porcupine District to "make good" in a mining way. We warn traders and investors not to be enticed into the purchase of stock representing ground outside of the proved zones, and that may never develop anything more substantial than exists in the imagination of promoters who mine the public purse instead of the ground. We would suggest, in this relation, that opportunities in Porcupine will be just as broad in one, two or three weeks as they are to-day, and that no one should be stampeded into the purchase of these stocks until after he has thoroughly inform ed himself as to what is, and what is not, really meritorious.

We have in course of preparation, and will have READY FOR DISTRIBU-TION FRIDAY A SPECIAL REPORT (including map) of the Porcupine District. This report will cover every phase of the Porcupine situation, and will be invaluable to those who wish to know where the opportunities for profits lie, and to be safeguarded against the pitfalls. We shall not engage in the flotation of Porcupine stocks, and our report will present only the plain, unvarnished truth, differing greatly from much of the matter issued, and to be issued, by promotion houses. If it serves to prevent losses we shall be satisfied. This Porcupine report will be prepared for free distribution; but it will be sent only to those sufficiently interested to ask for it. In requesting it, please do not include in the letter or postcard of request any orders for the purchase or sale of stocks, or any requests for information on general securities.
