SLATER SHOE STORE

Opportunity Makes Another Call to You

The good things in shoe leather step 'round your way again, and it's for you to make a Thanksgiving "coup" in seasonable and fashionable footwear.

"New Boots"

We have an almost insatiable appetite for trade—and it's commendable while we're giving the people such values as we are these days. October sales up to now have set a high record—but we want to force it higher still. The more we force the more the people save—and isn't now a great time to be saving from a dollar to two and three a pair on the finest of fall and winter boots—men's and women's? And so the Men's Boots at \$3.45, and the Women's at \$1.99, will tinue to be the popular tickets for the next few days.

Men's Boots

Ladies' Boots

Buy them Friday and Saturday—have them on Sunday to wear on Monday, the holiday. Open evenings.

Ro sevelt when they to'd him "that but Little benefit will come to the Steel Corporation from the purchase."
Interlocking Directorates.

Interlocking directorates thru which those in power in the Steel Corporation held positions of influence on the diectorates of other powerful corporations, are referred to as "a method more refined, more euphemious, but nevertheless more effective than pools. The bill goes on to allege the formation of illegal pools known as the "Steel Plate Association, the Structural Steel Association, the Structural Steel Association, the Steel Rail Combination, the Wire Rope Combination, the Rubber-Covered Wire Combination, the Horse Shoe Manufacturers' Association, the Underground Power Cable Combination, the Underground Power Cable Combination, the Underground Power Cable Combination, the Earl Combination, and the Bare Copper Wire Combination." These are alleged to have been illegal agreements to suppress competition and fix prices in the commudities indicated by their names.

It was not generally supposed that action against the giant corporation was so near at hand. Many believed that the attitude taken by the corporation's officials in recent public statements probably accelerated the carefully-laid plans. The former secretary of war's retention as special counsel became known for the first time today, when the bill was filed.

Will Fight for Its Life. tions, are referred to as "a method

day, when the bill was filed.

Will Fight for Its Life.

NEW YORK, Oct. 26.—The United States Steel Corporation is prepared to fight for its existence. The announcement took the steel men completely by surprise, and they declined to make any comment for the time being. The attitude of the corporation is set forth clearly, however, in a statement which it issued a month ago to-day. In that statement it procsaimed its belief that it was within the law. It declared over the signature of J. P. Morgan that it would not dissolve voluntarily.

The stock of the Steel Corporation is now selling about 25 points below the high price of the year.

Word of the dissolution suit did not reach Wall Street until almost an nour after the close of the stock market for the day, so that its effect upon securities has not been registered. The steel shares were heavy all thru the session. The pressure against the stock was attributed to many rumors of pending unfavorable developments following the directors' meeting. Brokers made pre-

afavorable developments following the irectors' meeting. Brokers made pre-arations to place orders in the London tarket, which opens before the begin-ing of trading on the New York ex-hange to-morrow morning.
