United States Wheat Crop.

The Chicago Daily Bulletin estimates the wheat crop, as per Government report, 618,543,000 bushels, but makes the average yield per acre in 22 of the important wheat States somewhat greater than the Government return. Applying The Bulletin yield per acre to the Government acreage the production in these States is 44 million bushels more than in the Washing-

Wheat Crops of Europe. London Statist publishes an estime wheat crop of the countries in in 1808, with a comparison with

HOFBRAU RICE LEWIS & 8

As a preparation of Mait and Hops, combined with the least percentage of alcohol, Hofbrau stands first. True, Hofbrau has been copied and pirated by many respectable (?) concerns, but it still stands as the Leading Mait Extract of the day. Nothing more wholesome can be found for the convalescent, the invalid, the nursing mother or the bon vivant, or any who may require a helpful, healthy and hearty mait tonic. Try it. It is not a drug, yet you can get it at any first-class drug store. Wine and liquor merchants all keep it. Reinhardt & Company, Brewers
