INTO DEADWOOD CAMP, B.C.

Continued from Page 12.

developing under the direction of Mr. Fred. Arner, M.E. is very large, measuring some 200 feet across at the surface, and carrying copper pyrites and shothite. The deposit occurs in contact with crystallized lime and rock of diabasic character. The property has been developed to the 800-foot level, with numerous crosscuts and drifts, and the ore body is understood to maintain its full width at that depth.

The values in the ore are chiefly gold with some copper. Assay tests have run from \$5 and \$6 up to \$20 to the ton. Of course it is understood that a great deal of the ore body is of too low a grade to mine and smelt at a profit, and that the high class vein matter runs in chutes.

As the Mother Lode is soon to begin shipping ore to the smelters, its owners will shortly have a practical test of the commercial value of their deposit.

The Sunset property, which belongs to the Montreal-Boundary Creek Gold Mining Company, and the claims being developed by the Buckhorn Gold Mining Company, of which Mr. Rufus Pope of Sherbrooke, Quebec, is president, is hoped to take up in a succeeding letter. There are, of course, a number of other properties in Deadwood camp which are as yet mere prospects, out of some of them give considerable promise.

FRANK D. L. SMITH.

In New Ontario.

Mr. R. H. Ahn has just returned from Montreal, where he has met with great success and has been able to place a number of large blocks of stock at good figures in the Crown Point mine, which is situated on Bag Bay, Lake of the Woods, adjoining the Mikado, and the claims being developed by the Buckhorn Gold Mining Company, of which Mr. Rufus Pope of Sherbrooke, Quebec, is president, is hoped to take up in a succeeding letter. There are, of course, a number of other properties in Deadwood camp which are as yet mere prospects, out of some of them give considerable promise.

A Good Property.

The Cumberland mine, on War Eagle Mountain, which was recently sold to a Montreal syndicate, is creating considerable interest. A. Winze is being sunk at the 200-foot level, 100 feet north of the shaft, to connect with the 100-foot level, to prove the ground and for ventilation. In this winze they have encountered a large foot of new ore coming in from the hanging wall, very rich in gold, and giving them fully 15 inches of ore where they were least expecting it. All the development work since the company has taken over is highly gratifying to the manager, who says that every foot of progress has added to the value in sight. The strike in the north winze is especially pleasing, as that block of ground has been long regarded as of doubtful value. Rich ore is everywhere in evidence throughout the mine, stripped and ready for stamping. The ore runs from six inches to two feet in width and the chutes are full of it, showing ample evidence of its increasing richness.

GALLIFER HAS THE FLOOR.

There's a Little Tangle Between Him and the Duke of Orleans, and Explanation is in Order.

Paris, Sept. 29.—Marquis de Gallifler, the Minister of War, having written to Figaro asserting that he had never written to the Duke of Orleans since the end of 1898, when he declined the latter's invitation to shoot at Woosness, the publishing office of the morning paper, the Duke, in a letter, which the paper says, was seized among the papers of the Duke, and which was recently placed on trial before the Senate sitting as a High Court of Justice, on charges of having conspired against the State.

THE BUBONIC PLAGUE.

Outbreak of the Malady Discovered at Oporto—A Small Riot.

Oporto, Sept. 29.—Confirmation has been obtained of the report that the bubonic plague has made its appearance at Hagia, a village outside the city of Oporto. The disease was introduced by a patient in the hospital. Last evening a carriage in which a patient was lying on his way to attend a post mortem examination here was stoned by a number of persons. The police drove off the assailants and the doctors escaped unhurt.

A TEXAS TRAGEDY.

Boy Killed by a Racehorse and the Owner of the Horse Killed by the Boy's Father.

Cooper, Tex., Sept. 29.—James Ryder, who owns a race horse, put a boy named Fulkerson on the horse to exercise the animal. The horse became unmanageable and threw the boy and broke his neck. The father of the boy was sent for. On seeing the lifeless body of his son, he attacked Fulkerson with a dirk and stabbed him to death. Fulkerson surrendered to the authorities.

THE RAIN IS OVER.

Weather Fine at Darjeeling and People Doing Their Best to Get Over the Troubles.

Calcutta, Sept. 29.—The weather is fine at Darjeeling, the scene of the recent disasters caused by the late rain. The people are doing their best to get over the troubles. The rain has been a great help to the people, but it has also caused a great deal of damage. The people are doing their best to get over the troubles.

Saugen Mineral Water.

Prof. A. R. Prye, M.B., Toronto University, M.C.P. & S., Ontario, Dominion Analyst, has analyzed the Saugen Mineral Water, and found it to be a pure mineral water, containing no harmful ingredients. It is a pure mineral water, containing no harmful ingredients. It is a pure mineral water, containing no harmful ingredients.

The Great Wonder.

That's what everybody remarks after reading the book, "The Great Wonder," by Dr. J. Collins Browne. It is a pure mineral water, containing no harmful ingredients. It is a pure mineral water, containing no harmful ingredients. It is a pure mineral water, containing no harmful ingredients.

A BRAVE WOMAN.

How a Drunken Husband Was Made a Sober Man by a Determined Wife.

A PATHETIC LETTER. She writes: "I had for a long time been thinking of trying the Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and the thought never entered my mind. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming at all hazards. I sent for four Samaria Prescription next morning and administered it to him, and I then watched and prayed for the result. At 10 o'clock he was sober and all right. I never suspected a thing, and I then told him the whole story. He was very much surprised, and he said that he would never drink again. He has been sober ever since."

Next Meeting in London.

Washington, Sept. 29.—The committee charged with the selection of the next place for meeting of the Pan-Preventive Alliance decided this morning to hold the meeting in London, Eng. No determination was reached, however, as to the time of the meeting, which will be held in London, Eng. No determination was reached, however, as to the time of the meeting, which will be held in London, Eng.
