A Nervous Toronto Woman Walked the Floor During the Night for Hours

at a Time-She Makes a Statement. TORONTO, ONT .- "I was troubled with nervousness. It was impossible for me to keep still and if the spells came over me during the night I had to get up and walk the floor for hours at a time. My blood was very poor and I was subject to bilious attacks. My feet would swell and I was not able to do my own housework. I treated with two of the best physicians here but only received relief for a time. I became discouraged. One day a friend called and advised me to try Hood's Sarsaparilla. I laughed at the advice but I was prevailed upon and procured one bottle. Before I used it all I began to feel better. I took several bottles and also several boxes of Hood's Pills. Now I can eat and drink heartily and sleep soundly. Hood's Sarsaparilla has entirely cured me and also strengthened me so that I now do all my own work. I cheerfully recommend Hood's Sarsaparilla to all sufferers from nervousness, weakness or general debility." Mrs. H. F. PARM, Degrassi Street.

WEEKLY REVIEW. This week closes quiet, with only a

few changes in values since our last weekly report.
Wheat shows no change.

Oats had a big drop early on in the week. Quite a good trade was done at the decline. Today there was a slight reduction. The low point for the week was 80c; today 83c to 85c was paid. Very little peas or other kinds of grain offered.

Eggs were scarce and sold readily at 17c to 18c for fresh in basket lots. Butter got a set-back. On Saturday and Tuesday receipts were too heavy for the demand, and lower prices had to be accepted. Best rolls closed at 15c to 16c; crock, 14c to 15c, wholesale. Turkeys brought 7c to 9c per lb; until

today they sold at 9c to 10c; the supply was moderate. Geese were plentiful, at 5c by the lot. Ducks sold at 60c to 80c a pair.

The supply of beef and lamb was good-some days too good. Prices were barely steady. Dressed hogs ruled firm, at \$5 25 to \$5 35 for light, and \$4 75 to \$5

for heavy.

Apples sold at 25c to 75c a bag; sup-

lots came in, and some just as poor. The range was 55c to 65c by the load, and 65c to 70c by the bag. Hay-Sales ranged from \$6 to \$7 a

ton.
Live hogs sold at \$3 90.

HOLOCAUST IN SAN FRANCISCO

Ten or Twelve Persons Perish in a Hotel Fire.

The Baldwin Hotel and Theater De stroyed-A Dozen Persons Perish and Many Are Missing.

San Francisco, Cal., Nov. 23.-The Baldwin Theater caught fire about midnight after the conclusion of the play, "The Secret Service." The fire spread quickly to the Baldwin Hotel, the theater and the hotel being part of the same building. The hotel, which is second only to the Palace in consequence, was crowded with patrons. An yesterday that with the best intentions in the world the commissioners might alarm was sent all through the house, yet fail to agree. In all reciprocity but the fire burned so rapidly that some of the guests had to jump for their lives. A Mr. Morris, recently returned from the Klondike, was hurt in jumping, and died in the receiving hospital.

NUMBER OF LIVES LOST. N. D. Noon, of St. Louis, was taken to the hospital with a sprained ankle

and numerous bruises. While the roof was in flames, a man in a night-shirt clambered out of an upper window. To those below it seemed as though he had fallen back in the

death. They and several other employes have not been accounted for. The interior of the building was still burning like a furnace at dawn.

Shortly after the flames broke out, two women were seen at the window of the cupola on the northwest corner of the building. Several gentlemen on the street volunteered to go to the rescue, but they were prevented by a police man from doing so. Soon after that two other women were seen in one of the upper story windows, and they have not been accounted for. The members of the "Secret Service" company are all accounted for. It does not appear that the loss of

life will be as great as was at first feared, owing to the warning given to he guests, but at this hour it is impossible to state definitely as to the number of victims or their names. BUILDING COST \$1,500,000.

The hotel and theater building were owned by F. J. Baldwin, and with the urnishings are estimated to have been worth \$1,500,000. The building was of brick, with a high mansard roof, and a lofty tower on one corner that flam-ed like a great torch. It illuminated the city and could be seen far at sea. The firemen had a difficult time keep-

They Are Free Lumber and Free Fish.

American Commissioners Disinclined to Grant Them-May Defy Reciprocity.

Washington, Nov. 23-[Globe special]. The Canadian commissioners are somewhat pessimistic at present as to the outcome of the discussion on the other two important questions still open —free lumber and free fish. Were the lumber difficulty adjusted it is believed that the reciprocity schedule could be speedily put in shape, but up to this time lumber stands in the way of progress. One of our commissioners said negotiations heretofore free fish and free lumber have been regarded as assentials from the standpoint of and walks being completely blocked. Canada. Indications pointed to a failure to secure free fish, al-though they had not altogether given up hope. If, however, the Americans meant to do business at all ed he could speedily bring things to a head. In the meantime little progress is being made, except on non-essential questions. Next week, however, when the gentlemen described as the "storm centers" of the senate return to Washington, there will be a few quiet talks at the White House or in Mr. Dingley's apartments at the Hamilton, which will settle the matter one way or the other.

Mrs. Dowson, of Toronto. Cured of Fe male Weakness by Dodd's Kidney Pills.

Toronto, Nov. 21 .- The case of Mrs. Ellen Dowson, of 640 Gerrard street east, who has been restored to vigorous health by the use of Dodd's Kidnev Pills, after six years of agony from Female Weakness, and Palpitation of the Heart, is causing widespread in-terest in the East End.

Mrs. Dowson writes that she used three so-called kidney cures and was treated by one of Toronto's most prominent physicians, without deriving the least benefit. The first box of Dodd's Kidney Pills

gave her pronounced relief; eight boxes cured her thoroughly. Mrs. Dowson's case furnishes a lesson every woman should learn. Dodd's Kidney Pills are women's best friend

BECAUSE OF

Cattle in Texas, Oklahoma and Other Parts Suffer Severely-Fall of 60 Degrees in Temperature.

Dallas, Texas, Nov. 23.—Reports from the Indian Territory show heavy losses because of the blizzard that has pre-

vailed in those sections since last Sun-The mercury dropped 60 degrees during Sunday night, and the country was generally frozen up. Thousands of head of sheep, half-grown calves and cows have perished. The losses will approx imate several thousands of dollars.

FROZEN TO DEATH. Springfield, Mo., Nov. 23.-George and Ed. Cotter, farmers, were found frozen to death near Ash Grove yesterday. On Monday they went to Ash Grove and drank considerably. They started to their farms, and were caught in the blizzard. It is supposed they fell from

their horses.

IN WISCONSIN Milwaukee, Nov. 23.-Specials from the storm section in Northern Wiscon-son say that the blizzard continues unabated. At Ashland business is suspended. All trains were delayed, and street cars unable to run. Business is practically suspended at Cumberland. The mercury has reached the zero point, and is falling rapidly. The Hudson public schools were closed, streets SOLDIERS SUFFER FROM COLD. Springfield, Ill., Nov. 23 .- The memthe state fair grounds preparatory to

ICE CRUSHER.

One for Russia Just Launched in Eng-Land.

Washington, Nov. 23. - There has just been launched in England at the yards of Armstrong, Whitworth & Co., what is, without doubt, the largest ice-breaking steamer in the world, for its displacement is no less than 8,000 tons. This was built for the Russian Government, which is going to make an effort on a large scale to keep the Baltic open all winter. Besides this vast ice-crusher, the ice-breakers of the great lakes, which are able to crush through four feet of ice, are merely in-

fants. The new Russian boat is provided with a forward propeller which is calculated to vastly assist in the crushing process, by disturbing the water under the ice and depriving it of support. The stern of the ice-breaker is cut into a recess, into which the stern the best blood purifier known. It's the of another vessel can be securely lashed, and thus attain the utmost protection from her powerful consort.

Besides convoying the merchant, ships the ice-breaker is capable of herself carrying a heavy cargo. It is confidently expected that through her agency the principal trade routes which depend on Baltic ports will be kept open in winter, and thus provide continuous employment to an enormous section of the community.

HOW HIS HAND WAS BITTEN

Young Gourko Stole \$12,000 From Senator Polotzoff.

Preferred Death to Trial-The Black Sheep of a Good Family,

Paris, Nov. 23 .- Although the newspapere, in deference to a request from the Russian embassy, are devoting but little attention to the matter, yet the sensational suicide of young Count Gourko in prison here the other night may be said to have monopolized public attention. The young count was the eldest son of that Field Marshal Count Gourko who was the senior officer of the Russian army who held the position of viceroy of Poland until the present czar's accession, and who was the chief commander of the Russian forces during the war with Turkey twenty years ago.

The young count succumbed to the effects of poison within an hour after having received a visit from his brother, and there is every reason to believe that the latter brought the poison to the prison and urged the young count to destroy his life, with the object of avoiding the disgrace which would have followed a public trial and conviction, for Count Gourko was held here for the robbery and attempted murder of Senator Poloizoff at Nice.

The senator, who fills the office of grand secretary of the empire, who has a magnificent mansion here, and one of the most influential

statesmen of Russia, was awakened SE OF
two or three weeks ago at Nice at night by hearing a thief sneaking about in his room at the hotel. On grappling with the intruder he received a serious knife wound, but managed to bite his assailant's hands in such a manner that his teeth met before the fellow got away with the pocketbook, containing about \$12,000. At the request of the police at Nice the trains arriving from the south of France were carefully watched here, and this led to the arrest of a young man whose hand was banthe cattle and sheep raising districts of daged, and who, on bong searched, was Northwestern Texas, Oklahoma and found to have about his person the money of the senator and paper which led to his identification as the eldest son of Field Marshal Count Gourko. He admitted the robbery, but denied his identity, which, however, was established beyond a doubt. The young count was in every sense of the word a black sheep.

TO TUNNEL THE CHANNEL

Scheme for a Railroad From Dover to Calais.

Paris, Nov. 23 .- The problem of crossing the English Channel has been solved by M. A. Mottier, a Frenchman, who proposes to construct a railway at the bottom of the channel and to run vehicles 300 feet long, 125 feet high and 125 feet wide. The depth of the channel is from 130 to 150 feet, and it will not be difficult to level it. Mr. Mottler's roadbed is to be 30 feet higher than the bottom and 13 feet wide, and will extend from Sangette, near Calais, to Deal, in a northwest and southeast direction. It is to be 32 miles long. The wheels are to be 80 feet in diameter, and will support a platform erected upon suitable framework. An engine located on the platform will provide the motive power, either steam or electricity. The engine will support a drum from which a chain is to be wound The platform will accommodate several railroad trains at once, and several calculated as the length of time necessary for the trip. The total cost is to be about \$3,750,000. It is doubtful whether the English Government will sanc-

tion the scheme. "HELLS ON EARTH."

The Rev. A. N. Mitchell, at the Liverpool diocesan conference recently, described Widnes, in the colliery district, as a hell on earth, and St. Helens as the second hell on earth. He strongly attacked many employers who were so full of greed that they cared not for the lives of their workmen. Their hands were stained with blood, and if a life were lost, their first thought was "How can we wriggle out of paying compen-
