## Day's Doing in West Toronto YORK COUNTY

### EAST TORONTO WILL BE WELL LOOKED AFTER

Will Get New Fire Hall and Efficient Service—Two for Mayor in West Toronto.

"We're going to do the very best we know how for the safety of East Toronto from our standpoint," said Fire Chief Thompson to the World last night. "I have been down over the ground," continued the chief, "and we have made arrangements with the local volunteer fire companies by the way, a fine lot of fellows to retain their present positions until the close of the year. By that time we will have some definite arrangements made. The one great drawback at the present time," said Chief Thompson, "is the lack of telegraphic, or some other, service between all central points in case of fire. It will be remedied in the near future. One of the first things that will be necessary, then, is to provide a suitable building somewhere in the heart of the town for the proper storage of the hose wagons and other equipment necessary. The building ought to be built, allowing the men to radiate easily in all directions.

"Will a fire engine be installed down there?" the chief was asked.

"I do not think a fire engine will be necessary, especially when the new high pressure system is installed," said Chief Thompson. "There are five or six high buildings, and with the good system already installed, I think we will be well equipped. However," said the chief, "it is found that the highest efficiency cannot be obtained without a fire engine, why we'll have one down there, that's all."

And all of which goes to prove that the chief will keep a vigilant eye out for the welfare of our newly-acquired citizens in the east.
