POLICEMAN MAY DIE BULLET IN HIS HEAD X-Ray Reveals Critical Condition -Officers Spend Busy Day on the Kinrade Case.

HAMILTON, March 5.—(Special.)—The condition of Constable Harry Smith, who was shot last night, is critical, but he has a fighting chance, according to the doctors. When he was examined this afternoon by Dr. Cummings and an x-ray photo taken, the doctors expressed the opinion that he had a very slight chance of recovery. Only one bullet entered his head, but it split and one part of it sank into the brain to a depth of about half an inch. The other part of the bullet went into the back of the ear and into the skull. This afternoon an operation was performed by Drs. Cummings and Bingham, and both pieces of the bullet were extracted. The constable at last was able to rest easy after a late hour to-night was resting easy and the doctors think his chances of recovery very greatly improved. The constable suffered excruciating pain and begged for an opiate.

Altho Mayor McLaren called to-day for a general cleanup of the streets and sidewalks, not a single arge was made. No clue was afforded by the Kappeler House, which contained only clothing gathered up in the house. Mayor McLaren thinks the city should be divided into districts and in charge of plainclothes men and a number of each held responsible for all the loose characters that hang around. It is stated that a confidential informant has a continental fame, is allowed to pass thru the shooting of the constable that members of the police force are a few in the centre of the city. Are kept a few in the centre of the city. Are kept a few in the centre of the city. Are kept a few in the centre of the city.

Citizens' League Meet. At the annual meeting of the Citizens' League this evening the report of the secretary, Peter Bertram, was adopted. It commended the magistrate for his action in dealing severely with the cases of disorderly houses that came before him; commended Mayor McLaren for calling attention to the tippling habit of some of the officers; charged that gambling was still very prevalent in the city, and asked for the appointment of a morality officer. Mr. Bertram scored the authorities for not punishing the men who were caught in raids. The following officers were elected: Sir Thomas Taylor, president; George Rutherford and C. C. Copple, vice-presidents; Peter Bertram, secretary; J. J. Greene, treasurer. W. L. Clarke, Leamington, delivered an address on the social evil.

ATLANTIC CITY IS THE IDEAL WATER RESORT

Golf, Roller Chair Riding, Baseball, Swimming Pools, Horseback Riding and Other Amusements.

Perplexities often arise when one is endeavoring to decide upon a resort to which to spend the winter and early spring. It is therefore with a great deal of pleasure and confidence that the hotel resort of Atlantic City is recommended to those who would find a delightful retreat. Atlantic City is neither warm, nor is it cold, but it is just what a great majority of the people are searching for, and thus Atlantic City's population and success are assured.

There is a delightful climate in Atlantic City. It is different from other resorts of the New Jersey coast; it is even different from the climatic conditions of the mainland of Atlantic County, which is but a little more than fifty miles away. No one has ever found a solution of the atmospheric problem of Atlantic City. The resort is located on five miles out from the mainland. It is warmer than any other place in this section of the coast. Show rarely makes its appearance, and even when it does it seldom lasts more than twenty-four hours. The climate is just what a great majority of the people are searching for, and thus Atlantic City's population and success are assured.

Another big feature is the boardwalk. It extends from Absecon Inlet to Ventnor, a little over five miles, and in some places the waves wash beneath it. This great ocean esplanade is clean, brilliant and unobscured at night and well lighted. Women unattended and children are as safe on the Atlantic City boardwalk as in their own homes. Roller chair riding—and there are thousands of these luxuriously equipped chairs—is a reasonable rental—is one of the favorite pastimes of visitors.

Almost every one of its large hotels employs an orchestra and concerts are played every afternoon and evening. There is music and dancing and in-door games at all hours. The resort is a place where one can bathe without taking it directly in the surf. There are three theatres now in operation in Atlantic City. The land and buildings are many splendidly built roads, and the finest automobile and horseman. The resort and the mainland are connected by a 60 foot wide boulevard across the marshes, which has a number of fine stretches of road in New Jersey.

There is no city or resort in the world which offers a higher standard of living. Nearly all the large hotels have their own supply of water drawn from artesian wells. Atlantic City is one of the finest cities in the world. There are more than a hundred trains a day, in and out of the resort, and these are the fastest operated in any section of the world. The leading houses, The Marlborough-Blenheim, The Traymore, The Seaside House, The Charles Hotel, Haddon Hall, The Dennis, The Chalfont and The Penhurst—are among the largest and finest in the world, and visitors are well taken care of.

Mr. Livingston's Thorobreds. COBORUG, Farm 5—A fine stallion at the Wellwood Farm, recently purchased by Mrs. Livingston of New Jersey, there are 13 brood mares, one two-year-old, one year-old, one imported stallion: Stanhope II, by G. Florizel II, full brother to the King's Derby winner, Persimmon, and Diamond Jubilee. Among the brood mares there are three by imp. Leamington's Sensation; one by Loochabee, son of Onondaga, out of Top Gallant mare. Another is by imp. The Rose and Tea Tray, out of Cinderella, dam of Plaudit and Hastings, one of the greatest sires and one of the best race horses of his day. Two are by Stratford, another by imp. Leamington; one of these mares is Madeline, whose mother was a well-known race mare. The other Stratford mare is Curlew, another is Mr. Cassatt's breeding, namely, Athleen, a ten-year-old bay, by the Bard, out of Athlark G. Gilroy. There is one imported mare, by Isobar, a son of Isomony, out of a mare by the St. Leger winner, Wenlock, sire of imp. Madeline. The imported mare is Dal, a chestnut, by imp. Mortimer, out of the Leamington mare, Katie Pearce.

Sunderland Are Champions. SUNDERLAND, March 5.—A Tri-County League hockey match was played in Cambridge on Thursday night between Brechin and Sunderland for the championship of the eastern group, resulting in a win for Sunderland by the score of 5 to 4. Waggoners refereed in his usual good style. Brechin (4)—Goal, McPhail; point, Herd; cover, Andrew; right wing, Watson; left wing, Hutchison. Sunderland (5)—Goal, W.
