

MACROBBIE DEATH STILL A MYSTERY

Rumor Says Provincial Police Have Taken Hand in Hamilton Case.

INQUEST TONIGHT

Fingermarks on Molding Do Not Compare With Those of Witnesses.

Hamilton, Friday, Aug. 31.—That the provincial police had stepped in to help throw some light on the mystery connected with the death of Dr. Douglas MacRobbie, was the information given to the World last night.

All hope of clearing up the mystery by the use of finger prints was shattered yesterday when it was said that a report had been received from the bureau of identification at Ottawa, giving the information that the finger impressions on the piece of molding did not compare with any of those taken by the police and forwarded to Ottawa for comparison.

Exactly what the medical testimony of Dr. Laing and Dr. Parry will be, is much a mystery as how Dr. MacRobbie met his death. His report, however, was presented, as expected, to one of the most complete of its kind ever presented at an inquest in this city.

The often-expressed theory that Dr. MacRobbie suffered from one of the ailments which resulted in his death, during the tumbly light, was disproved yesterday by a statement of Dr. Laing and Dr. Parry. They both stated that the body of the doctor was not battered or bruised very much.

A rumor in circulation yesterday was to the effect that one of the crown's star witnesses had been making every effort to appropriate to himself the credit of the case in time for the inquest tonight. His name could not be ascertained. It was said that great hopes were held that the case would be cleared up by the evidence which would be given in the inquest.

Great interest is being taken in the inquest tonight. It is a possibility that the medical testimony will be submitted. While it is not the present intention of the crown to call Dr. Laing and Dr. Parry, they will likely be put in the box if the evidence of the other witnesses can be taken quickly. To date the police have issued twenty subpoenas. Associate and Bell, who were called at the first inquest, will likely have their memories refreshed again by Crown Attorney Hamilton, who will check up their answers with their previous statements.

John Kyle, 231 Munro street; Roy Criss, 39 Empire avenue, and John Horton, 382 Logan avenue, were brought back from Niagara Falls, Ont., last night by Detective Cronin on a charge of stealing a motor car. It is alleged the young men stole the car from the Bennett garage, 1700 Bolton avenue, proceeding to the Falls. There the car stalled and they fell asleep in the machine. The arrest was made by the Niagara Falls police.

Ira Wilson, 21 Jarvis street, was arrested last night by Detective Mitchell on a charge of stealing a watch and five dollars from Mrs. Alexander, who lives at a Jarvis street apartment house.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

THE Italians are running a desperate race with the Austrians in an endeavor to move up heavy artillery and munitions before the enemy moves up reinforcements from the Rumanian front. The Italian infantry gave the Austrians such rapid pursuit on the Bainsizza Plateau that the new Austrian line until the big guns arrive. The loss of the whole plateau to destruction by the Austrians exposes the remainder of the Isonzo to Trieste and Falbach, to the confusion of the enemy's staff.

The Russians are adopting stronger measures against soldiers who refuse to fight and who yield ground to the enemy without sufficient cause, as well as another order to obey the orders of officers, and its committee on discipline proceeded to move amendments while the soldiers made off. The situation and he broke up and scattered the mutinous battalions. The men are now outcasts and have to shift for themselves. The Italians have got the hammering at his gates and exploit any temporary advantage in the east.

The present spell of bad weather on the western front has probably ended fighting for several days more, for, after the storms pass, the British are waiting for the ground to dry. The delay is exasperating last autumn when fighting on the Somme had been about due, as it was rain. Unless the allies secure better conditions for ground to fighting shortly, it will result in the postponing of anything decisive until the winter months, perhaps, until spring. Von Hindenburg then may have his opportunity to retreat from a tight predicament as he had last spring, so as to further prolong the agony.

After their recent big battle the Canadian divisions engaged in it passed in review before Sir George Perley at the front. The latest news is that they met and defeated no fewer than 51 German battalions. Fresh drafts from Canada are necessary to keep the divisions up to full fighting strength. The bad weather has stopped all except artillery fighting before Lens.

The methods of fighting the submarine have constantly improved. American destroyers are taking an increasing part in the convoying of ships across the Atlantic Ocean, and a new depth bomb has been effective in destroying submarines while traveling under the water. The aim of the allies is to patrol the seas so closely as to keep the submarines pretty well under the water. As each boat can travel on an average not more than 150 miles, submerged, it is believed that close patrolling of waters within 150 miles of German submarine bases will go largely to eliminate the peril.

MONTREAL POLICE DISPERSE RIOTERS

Twenty-Five Persons Injured. Shot or Bruised in Demonstration.

WINDOWS SMASHED

Anti-Conscriptionists Fire Revolvers at Charging Bluecoats.

Montreal, Aug. 30.—Four policemen were injured, one man shot thru the left arm, a score or more received cuts and bruises, and windows in half a dozen establishments were smashed tonight when the police and anti-conscriptionist paraders clashed. The trouble started at Phillips square, where a command to disperse the paraders was given. The "ants" broke and fled in various directions. Some of them, however, made a stand, and stones were thrown and some revolver shots were heard, but the police used their batons and won out. Part of the crowd went down Beaver Hall hill followed by a score of policemen who were under the impression an attack was going to be made on The Gazette or Star offices, but the rioters dispersed when they realized the situation.

With cries in French of "down with conscription," the rioters smashed shop windows, street car windows, etc., on Atwater avenue and St. Catharines street prior to their appearance at Phillips square, and they were exceedingly noisy when the police took a hand in the affair.

BENNETT ATTACKS C.N.R. PURCHASE

declared himself opposed to public ownership. Mr. Nesbitt (North Oxford) thought the high court of parliament should pass upon the value of the C. N. R. stock instead of constituting a court of arbitration. He did not know why the judges were being appointed to all these commissions and arbitrations. The average judge, he said, was usually the ordinary lawyer who had not made much headway practicing law. Mr. Carroll (S. Cape Breton) had nothing to say against Chief Justice Meredith, but failed to see what qualifications he had as an arbitrator on the value of a railway.

PARSON IN UNIFORM NOW IN HOSPITAL

Became ill yesterday and is Detained in Special Ward.

HAD MENTAL TROUBLE

Has Been Under U. S. Secret Service Surveillance for Years.

Rev. Benjamin Edwin Parkinson, who is being held by the police until a member of the United States secret service arrives to investigate his affairs, is believed by doctors at the General Hospital to be mentally deranged. He became ill yesterday and was immediately removed to the mental trouble ward, where he is detained in a ward, which is barred and the door locked.

Parkinson, masquerading as a downtown hotel on Sunday last as a colonel in a United States honor guard regiment, and it is also alleged he posed as a member of the secret service of that country. According to the story he told at the hospital yesterday he came into Canada "wearing a uniform which was not an authorized colonel's uniform but that of a scoutmaster."

He stated that he had been in the rank of colonel had been removed and brass buttons substituted. In place of an officer's belt, he said he wore that of a scoutmaster. He was accused by a captain in the United States, who spoke to him in tones of authority, leading him (Parkinson) to make an attempt to flee, which, he believed, was the cause of his arrest.

As a result of their examination the doctors who visited him at the hospital yesterday are certain there is nothing the matter with his physical condition, neither do they think the mental trouble was brought on by worry over his detention. Rev. E. Parkinson told them that he suffered previously from mental disorders, which caused him to give up his work as a minister and become an insurance agent. Later, however, he returned to the ministry, he said.

According to the police the United States secret service has had the man under surveillance for two years. According to information received at headquarters some statements he has made since his detention are true. It has been ascertained that he was ordered at Naumeg, Ohio, and recently was in charge of Fire Fronting at Church, Waterloo, Ohio. Previous to that he was at Montpelier in the States. He is alleged to have several aliases. He is alleged to have which he is known as Rev. Elliott Parkinson, B.A., Ph.D., and Rev. Dr. E. Parkinson.

It is claimed that at one place in the States he produced a diploma to prove that he was a fellow of Toronto University. But this was proved to be a bogus document. On another occasion he claimed to have served with the Canadian contingent in South Africa, but this was also found to be without foundation. Rev. E. Parkinson's wife and child are at present living on McGill street, and he has sisters residing in Toronto.
