BRITISH PRESS STUPID SAYS WEEKLY NATION

Pacifist Newspaper Has Kind Words for Woodrow Wilson.

QUITE WITHIN RIGHTS

Effort to Do Belligerents a Good Turn is Misunderstood.

The Nation, carefully analyzing the note, declares that it is completely devoid of offence to the entente allies and proceeds to argue that if Germany is willing to abandon the idea of mastering Europe and will drop desires of annexations and exploitations and take her place in the society of nations, the basis President Wilson seeks for peace has been found.

The article thinks that the entente allies can have no quarrel with a note seeking to end an interminable war which might tempt the allies to commit themselves to a punishment of Germany not, maybe, exceeding her deserts, but well in advance of what they have the power to inflict, without calling down a penalty heavy penalty on their own heads.

"If there is a force behind President Wilson," the Nation concludes, "to direct the war at the point of security and fix it there, the government may not know what to say to it, but millions of fathers and mothers will call it blessed."

"When a prairie fire is raging a planter has the right and duty to look to his own homestead. A conflagration enveloping human society is no domestic broil, as with all its indirect consequences to mankind, was the American civil war. This war is a flame which daily devours or deteriorates the world's stock of labor, food, raw materials and implements of industry, including America's share of these necessities, while at least one of its possible and even early developments threaten her peace.

"But we do scant courtesy to Mr. Wilson's presentation if we treat it as a piece of national egoism and write out from its measured sentences their reasoned passion for human welfare."

Glorious Soldier of Marne and Yser Worthily Rewarded.

Paris, Dec. 29.—Gen. Lyautoy, minister of war, delivered his maiden speech in the chamber of deputies today when the subject of the nomination of General Joffre as a marshal of France came up.

"I regard it as a high honor," said Gen. Lyautoy, "to have been called upon to raise to supreme distinction the man who has saved this country."

Mr. Viviani, minister of justice, said the government had determined on the decree making General Joffre a marshal because it was their duty to recompense worthily the glorious soldier who has saved the country and the government in so doing was in accord with the opinion of the country and the army. Mr. Viviani added:

The debate was brought about by an interpellation by M. Accambray as to whether the question if General Joffre has been legally elevated to the rank of marshal should be discussed. The chamber voted to consider the interpellation when it is called upon to ratify the decree.
