

To determine whether wheat flour, or bread be adulterated with chalk.—Mix with the flour to be tried, a little sulphuric acid; if chalk or whiting be present, an effervescence (arising from the discharge of the carbonic acid of the chalk) will take place; but if the flour be pure, no effervescence is produced.

Dr. Radcliff's cough mixture.—Mix together four drachms of syrup of squills; four drachms of paregoric; and the same of syrup of poppies. Take a tea spoonful in warm water or tea, as occasion may require.

1838.—AUGUST begins on Wednesday; hath 31 days.

PHASES OF THE MOON.
