## Tint Your Walls With Alabastine

Beautiful, Sanitary,

Easy to Apply

You'd be surprised how easily you can produce beautiful decorative effects, almost limitless in variety, with Alabastine, which is the correct wall coating for all apartments where pure air is necessary and durability desired. Alabastine is a chemical and sanitary compound that will not harbor disease germs or insects.

BETTER THAN WALL PAPER.

Alabastine is the most economical and satisfactory of all wall coatings. Paste and perishable glue are used with wall paper and kalsomine. Alabastine is clean, sweet, and gives the walls a chance to "breathe."

You can apply Alabastine to plaster, wood, canvas, wall paper and other interior surfaces. It comes in 21 beautiful, unfading tints, and in white.

Ask for Alabastine Color Folder, at our Paint Department, street floor.

Store Hours:—8.30 to 6. Close at 1 p. m. on Saturdays till the end of March.

W. H. THORNE & CO., LIMITED.  
HARDWARE MERCHANTS

## LOCAL NEWS

### STILL SEIZED.

The local liquor inspectors this morning received a small bottle filled with a murky brown liquid from Inspector A. S. Belliveau, at College Bridge, asking that the contents be analyzed. A letter accompanying the bottle was to the effect that the liquid was taken from a still seized by the inspector.

### WELDON ALLEN MCLAN.

The home of Mr. and Mrs. Hamilton McLean was saddened on Wednesday morning, March 29th, when their youngest son, Weldon Allen, passed peacefully away at six o'clock. He was aged three years and six months. Besides his father and mother he leaves one brother.

### CIRCUIT COURT.

In the circuit court, this morning, the case of the King vs. Stephens, an indictment of theft and receiving stolen goods, was heard. The defendant is accused of stealing and receiving cloth, the property of the C. P. R. Several witnesses gave evidence and adjournment was made to this afternoon. Dr. W. B. Wallace, K. C., appeared for the prosecution, and J. A. Barry for the defence.

### THE BAY SERVICE.

J. M. Woodman, general superintendent of the C. P. R. New Brunswick district, left this morning on the steamer Empress for Digby. He was accompanied by M. McDuff, manager of the Great Lakes Steamships for the C. P. R., and Angus Cameron, chief engineer of the Great Lakes Steamships. They are looking over the Bay service prior to its amalgamation with the New Brunswick district of the C. P. R.

### DOWN RIVER.

Some residents of Carter's Point reached the city yesterday in a motor boat, having successfully navigated through the large mass of floating cakes of ice. They said the Reach is still holding and from present indications will not run out for some days. They brought with them a quantity of eggs and country produce. The eggs were disposed of for thirty-five cents a dozen.

### FIRST ANNIVERSARY.

Members of the Little River Community Club met last evening in their hall, to celebrate the first anniversary of their inauguration. A delightful programme of musical and literary numbers was carried out by the members of the club, assisted by P. Johnston, of the city. Refreshments were served and those present voted the affair a grand success.

### CLASS ENTERTAINED.

Miss Grace Dureen entertained the Crescent Class last evening at her home, 216 Sydney street. During the evening auction bridge was played and the prize winners were Miss Pease, Thurber and Benjamin Robinson. Consolation prizes were awarded to Miss V. Lennox and William Griffiths. Following a musical programme, which included piano solos by Mrs. H. Flewelling, refreshments were served.

### FOUR-MASTER.

The sailing of four steamers this morning and one last night eased the congestion which has prevailed in the harbor during this week to some extent. However, this morning there were still five steamers lying in the stream waiting for berths. The only arrival this morning was one of more than usual interest, as it was the four-master schooner, Maurice R. Theriot, of 1172 tons. She is the largest schooner which has entered this port for some time. She brought a cargo of fertilizer from Baltimore. There are not many more steamers scheduled to arrive during the remainder of this week, while their will be numerous sailings, so that those vessels now in port will be fairly well along with their loading.

### STILL PROGRESSING.

What enterprise and thrift will do for ambitious boys is demonstrated in the success achieved by Columbus and Cohen, proprietors of the "News Boys' Cigar Store" in Dock street. Three years ago they were selling papers in the city, making their stands at Waterloo and King streets corners and on the ferry boat, and today in addition to owning the business in Dock street they consumed a deal by which they became owners of the Junction tobacco store at the corner of Paradise Row and Main street. The boys were popular while carrying papers and since starting in business have made a lot of friends, who have watched their progress with interest.

### ACCIDENTS.

Arthur McKay, a fireman House, West Side, a helper in the C. P. R. blacksmith shop in St. John street, had the back of his hand cut this morning by a piece of flying iron. The injury was treated at the West Side Emergency Hospital and he returned to work.

Last evening about 10 o'clock, Gordon Stevens, a tough-looking man residing at 20 Simonds street and working at No. 6 shed on the Minnedosa, had three fingers of his right hand bruised by a piece of heavy chain. He was dressed and he went to his home.

On Tuesday evening, C. F. McCluskey, a carpenter working on the steamer Orithia met with an accident resulting in an injury to his hand.

### BROKE IN, BUT FLED WITHOUT ANY BOOTY

New York is not the only city with "nervous bandits," as was demonstrated last night when a man or men broke into the store of D. Basen in Charlotte street, and left without taking anything. When the store was opened this morning it was found that a small back window had been forced open and that the burglars had apparently made a survey of the possibilities before them. On the floor were a couple of suitcases, taken from the stock, and two suits which had been picked out from the number in the store. The would-be robbers had then apparently left to gather in some more articles when they were frightened by something, and left without the spoils of their break. It is thought that they left in a hurry for the screwdriver and other tools they had utilized in forcing the window were left behind. No explanation has been found of their becoming frightened, and it is possible that the passing of someone on the street led them to believe they were watched and caused them to leave with their work unfinished.

### Graduated From Hospital.

The Misses Eliza Simpson, of Douglstown, Northumberland Co.; Helen Stephens of Bridgetown, Miss Winifred Terry of Avoport, Mrs. Carline Ross of Digby, were among this week's graduates at the Yarmouth hospital training school for nurses.

## AGREEMENT RE C. P. R. TRESTLES

Draft of Proposed Contract Considered by Council—Curbing Tender Goes to a Bathurst Firm—Suggested Improvements for Squares.

The proposed agreement between the city and the C. P. R. regarding the west side trestles was presented to the common council in committee this morning by Mayor Schofield, together with a letter from Hon. J. B. M. Baxter, city solicitor, on the matter. After the meeting the commissioners discussed the agreement with the acting solicitor, W. H. Harrison, after it had been referred to Commissioner Bullock and the city engineer for a report.

Dr. Baxter in his communication said that under the agreement the C. P. R. proposed to pay the present rentals for the trestles. If the railway required any extension of their tracks in Protection street, he said that they should make application first to the city council, and if refused, submit the matter to the public utilities commission.

Commissioner Jones presented the sixty-sixth annual report of the water and sewerage department, referred to elsewhere in this issue.

### Curbing Tender Awarded.

Commissioner Frink reported on tenders for 1,464 feet of granite curbstone referred to him and the road engineers. Tenders were received from B. Mooney & Sons, J. H. Doody, Granite Street Paving and Construction Co., and J. E. & D. P. Connolly, Bathurst. The last named tendered at \$1.33 a foot, which was twenty per cent. less than the next lowest tender, J. H. Doody, who quoted \$1.66. On motion it was decided to grant the contract to Messrs. Connolly.

Commissioner Frink said one of the tenderers had complained that these contracts should be given to taxpayers. He thought that as the call for tenders was not restricted to taxpayers, there was no reason why an outside firm should not get the business if their bid was lower. He said he had had enquiries made, and ascertained that Messrs. Connolly were reliable business men and handled a good quality of granite.

The commissioner said he proposed to pay for the contract out of an unexpended bond balance of \$6,951.26.

Improvement to Squares. The committee on municipalities met this morning and considered bills relating to the city of Moncton. His Worship Mayor Edgett, Alderman Wheeler, Alderman Murphy and City Solicitor A. A. Allen appeared in support of the bill.

## MONCTON BILLS IN COMMITTEE

Getting After Outsiders Who Pay No Tax—Control of Building.

(Official Report.) Fredericton, N. B., March 30.—The committee on municipalities met this morning and considered bills relating to the city of Moncton. His Worship Mayor Edgett, Alderman Wheeler, Alderman Murphy and City Solicitor A. A. Allen appeared in support of the bill.

A bill to amend the city of Moncton assessment act, 1921, was reported with amendments.

Hon. Mr. Robinson, speaking to this bill, said that he was opposed to any city or town imposing restrictions on outside people coming to work, and was opposed to the stifling of competition. In this case, however, the tax was very light, and he believed was justified.

Alderman Wheeler said that union wages were in force in Moncton, but not in Amherst, and Amherst contractors had been able to bring crews from Amherst at a lower rate of wages, and at the same time avoid paying a fair tax to the city.

Mayor Edgett said the desire was to get after outside contractors who would come in, do considerable work, demand police and other protection and receive it, and finally get out again without paying even the moderate rates previously imposed.

Mr. MacMunn proposed that there be a minimum to protect small contractors from the immediate vicinity of Moncton. Mayor Edgett stated that there was no intent to get after contractors of that class and the bill could be amended so as to state that.

A bill to amend acts relating to the incorporation of the City of Moncton was reported with amendments.

Mr. Allen explained that the section doing away with the taking of an oath at the time of filing statements of assessable property was placed in the bill as a matter of convenience of the citizens.

Alderman Murphy stated that too much time was taken up at the city offices in the filing of statements under oath. For the administering of the oath elsewhere there was a charge which was annoying to the people. The Dominion income tax regulations did not require an oath, and Moncton did not need it either. The last civic election had resulted in the election of a council opposed to the oath.

The bill relating to fire limits in the city of Moncton was considered.

Mayor Edgett stated that there had been no revision of the law relating to that for years, and the growth of the city had resulted in an awkward situation. The city found itself with out proper control of the material to be used or the class of building to be erected. On certain streets it had resulted in diminished value for some properties. The bill was intended to remedy the difficulty.

The bill to fix the valuation of Ready's Beverages, Limited, was reported. Committee adjourned until 2.15 p. m.

MR. PRICE HERE TOMORROW. A. Price, general manager of the C. P. R. eastern lines, will arrive in the city tomorrow morning on the early train from Montreal. He is to leave on the 7.10 train, going east over the C. N. R. as far as Norton, where he will continue over the Fredericton and Grand Lake Railway as far as Fredericton.
