THE POPULATION OF EUROPE.—A Berlin paper, with a weakness for figures publishes some curious comparisons of the condition of Europe at the present time with its condition a hundred years ago. Europe now has three hundred millions of inhabitants; then in had about sixty millions. The six principal powers of Europe now engross four fifths of its population, Russia, 71,000,000; Germany, 40,000,000; Austria Hungary, 36,000,000; France, 36,500,000; Great Britain, 32,000,000; Italy, 26,500,000. A hundred years ago the five great Powers had but half the total population.
