As regards reciprocity, the feeling of the people of Canada is that there should be the closest possible relations between Canada and the United States consistent with our ties with Great Britain. In other words, we want the closest possible commercial union with the United States. Political union, which is spoken of very often nowadays, is but the visionary hope of a few. A long letter from Archhis of St. Boniface, Manitoba, in reference to the separate school question, is published in Montreal French papers. The Archbishop declares that the present non-sectarian schools are in reality Protestant schools and makes a strong plea for separate institutions. The old regime, he says, respected faiths and placed all citizens on an equal footing in harmony with their religious convictions. while the new regime on the contrary pretends to offer the same to all. In conclusion the Archbishop makes an elo quent appeal for equal rights to all and declares his allegiance to the British Crown.
