

To do under the circumstances, and concluding by hoping that they would settle their matters without either hard words or ill feeling of any kind.

Mr. Boyd said, that there was one circumstance connected with this subject which he would draw the attention of the committee. At the beginning of the present Session, a Select Committee was appointed to take into consideration that portion of the Excise which related to the duties on spirits, and he would like to know how it happened that the committee had not done their duty. They were empowered to make their report by bill or otherwise; yet here they called upon to vote large sums of money for expenses incurred in suppressing one of these riots, without the report of that Committee being before them, or anything whatever, to guide them in their deliberations.

THE FRENCH REVOLUTION.

THE development of this important event is bearing out the fears entertained by most rational men. Overbearing dictators are deposed, and the rights of the people are restored. The French Revolution is a glorious event, and it is to be regretted that it has not been more generally understood.

THE IRISH ANARCHISTS.

THE Earl of Clarendon has, at length thought it necessary to interfere with the French leaders of the Young Ireland party, who, ever since the news of the French Revolution, have been doing what in them lay to get up a movement *a la Paris* in the streets of Dublin, but whose dismission—or rather the instinct of self-preservation—got the better of their valor as the opportunity of which we have heard.

THE ENGLISH MAIL.

THE English Mail of the 29th March arrived on Sunday evening, having been brought to Halifax in the Royal Mail Steamer *Ubertia*, in 13 days from Liverpool. The news by this arrival is of a very important character—namely the whole of Europe seeming to be in an unsettled and even convulsed state; while the people of France are apparently less satisfied with the present Government than they were with the former.
