Hilton Belyea Hero Among Oarsmen

Regarded by Boston Aquatic Followers as Fastest Amateur for Distance in World.

Special Staff Correspondence

Adams House, Boston, Mass., July 5.—The officials of the New England Amateur Championship regatta on the Charles River, Monday, decided that as other entries failed to start, Robert Belyea, being the only oarsman on the course ready to start in the Intermediate, should row the mile and a half which the St. John man did and was, accordingly given the Intermediate championship. Belyea was much admired for the way he rowed, and while he had no opponents he rowed well.

Hilton Belyea, the new champion and record breaker, is being congratulated from all quarters, and is looked on as being the fastest amateur oarsman for the distance in the world. The father of Pauline, who finished second in the race, stated to The Standard representative today that Belyea is a wonder and will have no trouble in winning races from any other single sculler. Eugene Buckley, who is an expert writer on aquatic for the Boston Globe, joined with Mr. Pauline in his opinion of the greatness of the St. John sculler.

Joe McNamara, former U. M. C. I. athletic instructor in St. John, but now physical instructor for the Charles Bank Gymnasium, has been a constant friend to the St. John oarsman, who wishes The Standard to publicly thank him for his kind attention. The two St. John champions, Hilton and Robert Belyea, will receive their prizes tomorrow. Today the St. John oarsmen and a party of friends who accompanied them to Boston were the guests of the Union Boat Club on a sight seeing tour to places of interest. Tomorrow evening Hilton Belyea and his brother Harry, his trainer, are to be guests of a prominent club at a banquet. The champion oarsman leaves on the Governor Dingley Friday for home, and it has already been arranged that he will compete in the regatta at Toronto on August 5th and 6th. J. C. Chesley, who accompanied the oarsmen and had much to do in looking after them, returned from the eastern home of champions, left for St. John this evening.

Baseball Games With Big Leagues

At Newark—

Jersey City, 4; Newark, 6

Newark, 6; Jersey City, 4

Metivier and Freitag; Carlson and Smith.

Only International games scheduled today.

DEMPSEY GOES WEST

New York, July 5.—Jack Dempsey, world's heavyweight boxing champion, quickly left his hotel here late today and a short time later was aboard a train bound for Salt Lake City, Utah.

He was accompanied by Teddy Hayes, his trainer, and DeLoe, Sergeant Mike Tracy, Chicago, who has been the champion's body guard and constant companion since he began training for the bout with Georges Carpentier at Jersey City last Saturday.

The title holder will visit his mother, Mrs. Celia Dempsey, to whom he addressed a telegram, announcing his victory shortly after he stepped from the ring. After the visit he probably will go to California.

South End League Now Reorganized

All Stars Admitted to Place on Schedule Vacated by Withdrawal of St. Peters.

On Monday evening a meeting of the captains of the league teams now participating in the South End League was held in the club rooms on Broadview Ave. to decide matters in regard to the strengthening of the league, in order that the people of South End and other baseball enthusiasts who have been taking a keen interest in baseball games played on the South End diamond, might have a chance to witness a more superior brand of ball.

Up to the present date, and owing to the withdrawal of St. Peters team, there have only been four teams playing in the league. Each team was represented last evening with the exception of the Imperial Oil team, whose representative either did not know of the meeting or was detained by business so that he could not possibly attend. Roy Cameron, the manager of the improvement league, presided and he stated that each team in the league should be strengthened and that an allowance of five days was given them to obtain the necessary players. Mr. William McEivern, the captain of last year's All Stars, was present and asked for admittance for his team into the league, which was granted on condition that he hand in the required number of names by this Saturday. On several occasions before this, just after St. Peters had withdrawn their team on account of a dispute between them and the Royals, a league game, Mr. McEivern had suggested that his team be given a chance to play, but it was denied him until arrangements were made for this meeting held last evening.

The All Stars played their first game of the season with the Royals last evening and were given a great reception by their enthusiastic followers. The result of the game was 10-5 in favor of the Royals. The matter of choosing official umpires if it could be afforded by the league was then taken up, but no conclusion was drawn on in regard to it. It is expected, however, that before long this matter will be settled to the entire satisfaction of both teams and spectators.

ford, 5:52

Time—2:03 1/4; 2:06 1/4; 2:10 1/2.

Notable Development in Poultry Breeding

The Experimental Farms of the Dominion are doing some excellent work in poultry breeding. After four or five years, birds and strains have been produced of exceedingly high productive capacity.

At Kentville, N. S., eleven breeding pens contain birds that in their pullet year laid an average of 197 eggs, the highest bird laying 276 eggs in 52 weeks. At this station a Barred Rock pullet laid 104 eggs in 104 days. In sections where a few years ago ten or a dozen eggs a year from a hen were a rarity, there are now hundreds that run to from 153 to 250. In the Eastern Townships, Que., 266 eggs have been reached and from 150 to 200 is common record. In the Prairie Prov-

ince the Experimental Farms have reached high record. At Indian Head, Sask., last year 105 pullets had an average of 183.7 eggs, the highest being 292. At Lethbridge, Alta., the average production has increased two or three times over what it was nine or ten years ago. New Brunswick has similar tale to tell, one hen at Fredericton reaching 256 eggs in a year. British Columbia, however, has the palm. At the Agassiz Experimental Farm, 200 eggs are common and from 250 to 270 are not rare. At the Vancouver Island station 200 pullets gave an average of 182.37, 83 going above 200. The high production of 300 eggs in a year has been reached for one pullet. Hens that cannot lay 200 in a twelve month are not wanted and no cockerel is retained unless his mother laid 250 eggs in her pullet year. It should be noted that high class breeding stocks and eggs are available to the public from the Experimental Farms. This opportunity is being well taken advantage of, the demand for pedigree cockerels, through which the best egg laying results are obtained, far exceeding the supply. Dominion Department of Agriculture.
