GOLD 7-30 LOAN.

A profitable and secure Investment. THE Northern Pacific Railroad Companyoffers to the public an investment security which combines the ready negotiability, the conveni ence, and the high credit of a first-class Rail Real Estate Mortgage on Land worth at least twice the amount loaned. Traffic. As officially reported, the gross earn ings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent. is from Local business, and, it is stated, fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a dividend of more than 9½ per cent. on its total cost. With its great and unquestioned advantages in distance, grades, climate and tri-butary fertile country, the Northern Pacific is assured of a vast and profitable business from he outset, with a large increase for the future. The Value of Land Grants. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is \$7.04 per acre—the highest average of any grant being \$13.98, and the lowest \$3.07. With few exceptions, the average selling price has steadily increased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7.08 per acre, they will yield \$12.00 to \$12. at which the twenty-six leading Land-grant than those of most other grants, but, sold at the general average of \$7.04 per acre, they will yield more than \$161,000 per mile of road—more than three times the possible cost of construction and quipment; or, at the lowest average of any grant (\$3 07), they will produce more than \$70, 000 per mile. These facts regarding Pacific

Construction. The road is now completed kept constantly on hand, at across Minnesota, (255 miles); work is progressing westward through Dakota, and 65 miles are under construction on the Pacific coast. In cluding purchased lines, the Northern Pacific Company now has under its management 575 miles of finished track. Contracts are let for the nstruction of 635 miles more, to be finished before the close of 1872. The 7-90 Gold Bonds. The first mortgage bonds of this company, which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features: 1. They are exempt from United States tax: he Principal and Interest are payable in goldthe principal in 30 years, and the interest semi annually at the rate of 73 10 per cent. per annum, Denominations, from \$100 to \$ 0,000. Present selling price—par and accrued interes in United States currency at pres nt rate o gold (109) these bonds yield 8 per cent gold 2. 4. The proceeds of all sales of Land are re quired to be devoted by the Trustees of the bondholders, (Messrs. Jay Cooke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon f neces ary.

Exchanging 5 20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,— \$140,000,000 having been called in for cancellation since September 1st—many holders of

5-20s are exchanging them for Northern Pa-cifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third, All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven-Thirties without ex Whooping Cough. pense to the investor.
