## PATENTED Holder Top Shaving Stick

Your fingers don't touch the soap, not even when you are using up the last quarter-inch of the stick. That is one point of its convenience. Another is that when you set the stick down it will stand firm and steady on its metal base, without toppling. How much these two points mean every shaver understands.

And with all this convenience there is the same thick, creamy, soothing lather that has made Williams' Shaving Soap famous through three-quarters of a century.
